BUSY AROUND SHOAL LAKE.

Mr. Alfred Cheeseworth Has Returned From the Lake of the Woods District.

A LOT OF ACTIVITY UP THERE.

Says the Mines Contract and Investigation Company Have Some Good Properties.

Mr. Alfred Cheeseworth of the Mines Contract and Investigation Company has just returned from the Lake of the Woods, where he has been during the past summer. He reports an unusual amount of activity in that district, many of the mining companies having made extensive preparations for the continuing of winter work. In the vicinity of Shoal Lake there are about a dozen or fourteen camps opened up, and active development work is being proceeded with. He states that the results of work done in that neighborhood during the summer have been very satisfactory to the owners of properties, and he fully expects to see a number of bullion-producing mines in that section within the coming year. Some of the companies are making preparations for putting in new machinery. The Cameron Island has already got in the compressor plant and hoisting appliances, and will, no doubt, put in the stamps some time during next year. Crown Point is pushing ahead vigorously, and will soon have five stamps dropping. The development work done by the Great Granite Company, up to the present time, has demonstrated that they have an excellent property, and camp arrangements are being made by this company on a large scale, with a view to entering a vigorous policy of development work next year. The Tycoon, which is situated near the Mikado, is also putting up camp buildings, and making other arrangements for increasing its staff. The Imperial and Gold Leaf Companies, operating near by, are also making extensive preparations for development work. In fact the whole district appears to be alive with miners, and everyone appears to be in good spirits, and looking forward, with bright expectallons, to the future of that district.

Some Encouraging Properties.

The Mines Contract and Investigation Company has taken up a number of properties during the past summer, and has done a considerable amount of development work. Mr. Cheeseworth says the Adeline Mine has made an excellent showing. The Mine has now about 50 feet, the vein shaft is now down about 50 feet, the vein measuring 8 ft. 6 in. in width at the bottom of the shaft, with assay results steadily improving from the start, until they have a showing of about $22 per ton. This Company have also sunk several test pits on other properties, for example, on 305 E, which adjoins the Adeline, they have made some very rich discoveries; also on the property known as Indian Joe, bordering on Clytie Bay. The showing on this latter property is phenomenally rich, the vein, which measures 4 feet in width, within a few feet of the surface, has assayed as high as $46 per ton. There are also other veins on the property, which pan gold freely from the surface. In addition to these, the Company have taken up properties in various parts of the Rainy River District, which they purpose developing during the next year. The Company have already erected an outfit of camps in connection with the Adeline Mine, composed of four substantial buildings, and it is the intention of the Company to use a diamond drill for the further testing of some of their properties next spring.

A Growing Place.

That Portage is fast becoming a business centre, and several large buildings, which have been in the course of erection this past summer, are just about completed. The C.P.R. are making extensive arrangements to meet their fast-increasing trade. A large roundhouse and first-class station are almost completed.

Mr. Cheeseworth says, in addition to the above, a marked amount of activity is shown in the Seine River country. Five hundred carloads of supplies have just been shipped to that district for the use of railway contractors. Working men, even at this season of the year, are scarce, and wages are high, which are, perhaps, the best signs of prosperity that can be seen in any country.

Republic Reaching Out.

Montreal, Nov. 24.—(Special.)—A great mining deal, which has been on the tapis for six months, is now an accomplished fact. The Republic Consolidated Company have secured a controlling interest in the Jim Blaine and No. Six mines, both of which adjoin the Republic. This agreement has been made with a majority of the stockholders of the two companies above named, but the rights of the shareholders who are not parties to the above agreement will in no wise be interfered with.

Mining Notes.

There is a little demand arising for Big Three locally, which is not to be wondered at, taking into consideration the amount that has been changing hands in Montreal.

Following is an extract from the manager's report, dated Nov. 16, on the Sailor property, in Camp McKinney: "Owing to my having been down at Columbia to meet the president, Mr. William Chaplin, and the secretary, Mr. J. Hugo Ross, I was unable to get my report in on Tuesday last. I regret that the president could not get up here, as I wanted him to see the showing in the crosscut. It has far exceeded my expectations, and, if the quartz only holds values, we will have a big mine sure in the Sailor alone."

NO QUORUM AT CONVOCATION.

Mr. Thomas Hodgins Wants the Question of University Claims Reopened.

The special convocation meeting for the consideration of Toronto University finances was to have been held last night in the Biological Building, but, on account of no quorum, only a formal discussion took place. Mr. Thos. Hodgins brought forward a detailed report of the old claims against the Government, which had, he claimed, been disastrously compromised for $7000, when $20,000 would not have been too large. This was done by a small committee without consulting others. Mr. Hodgins wanted a reopening of the settlement under the act, and also the presentation of new claims.

After the report, a general discussion took place, in which Mr. King, Professors Baker, Fraser, Hume, and others took part. The general opinion was that it would not be advisable to ask for the re-opening of the old claims, but to have a thorough organization throughout the Province for the purpose of educating the public in the need of a better Government support of the University. They thought that, on the whole, the present Government was not averse to a liberal support of higher education, but that it dared not do it, as the general public thought too much money was now expended in that line.

It was suggested that Mr. Hodgins should address meetings of graduates in the towns where his work called him. He also said he would irgly consented to. He also said he would publish and distribute his report.

TROUBLED WITH SUICIDAL MANIA,

William Anthony Had a Chance to be a Hero, but His Peculiar Temperament Spoiled It.

New York, Nov. 24.—William Anthony, better known as "Brave Bill Anthony," died at the Presbyterian Hospital this evening, half an hour after he had swallowed a quantity of cocaine.

William Anthony was the man who, on Feb. 15, 1898, when the battleship Maine was blown up in Havana Harbor, reported to Capt. Sigsbee in the words: "Sir, I have the honor to report that the ship has been blown up, and is sinking."

On his return to this country, Anthony was accorded receptions everywhere. He received many invitations from cities to be their guest. For months he traveled over the country, being accorded the honors of a hero.

In one of Anthony's coat pockets was found a letter written by him to his aunt, which read that he was discouraged and disconsolate, and was going to end it all. Among the other articles found was the picture of his one-month-old child, on the back of which was written, "Bury this with me."

PRISONERS TORTURED IN SERVIA.

Arch Priest, Condemned for Conspiracy, Made Insane in Prison Through Torture.

Belgrade, via Semlin, Hungary, Nov. 24.—The torture of the Radicals condemned in September to long terms of imprisonment on the trumped-up charge of conspiracy against Milan and the Obrenovitch dynasty, is continued daily. Arch-Priest Giuritch, although his condemnation and his torture has been confined in a dark cell. Col. Nikolitch is said to have been seriously wounded by a blow from a heavy sabre wielded by a guard.

M. Paschitch, who, to save his life, renounced his Radical associates, and was rewarded by being pardoned, has left Servia for good.

One More Juror Secured.

New York, Nov. 24.—The trial of Roland B. Molineux still drags its slow length along before Recorder Goff. To-day, the ninth day of the trial, was singularly devoid of interest. One more juror was secured late in the day, thus putting in the jury box seven of the requisite twelve.

As it Once Was.

When the human foot was first introduced to shoes it was exactly as nature had made it, strong—symmetrical—handsome.

It has been revolutionized from what it was to the foot of to-day by sixteen centuries of distorting tightness and freakish styles.

"Slater Shoes" are made to fit feet as they are to-day, comfort first, but good appearance never forgotten.

Twelve shapes, six widths, all sizes leathers and colors.

Goodyear welted, name and price stamped on the soles,

$3.50 and $5.00.

Assessment System. Mutual Principle.

A Practical Answer That Cannot be Misunderstood.

The Toronto General Trusts Corporation.

Toronto, Nov. 24, 1899.

W. J. Murray, Esq., Manager the Mutual Reserve Fund Life Association, Toronto, Ont.:

Dear Sir,—I beg to acknowledge receipt of cheque No. 1311 on the Ontario Bank, Toronto, for $20,000, in full of claim under policy No. 52914, on the life of Charles J. Pusey (deceased), which was held by the Toronto General Trusts Corporation, as trustee, to secure advances made by some of our clients.

I have to thank your company for the kind treatment received during the adjustment of the claim and for the prompt payment in advance of maturity under the terms of the policy.

A. E. PLUMMER,
Assistant Manager.

Mutual Reserve Fund Life Association paid	$20,000
Same premium would have purchased in old system company	10,750
Gain by insuring in the Mutual Reserve	$9,250

A $10,000 cheque was also paid by the association on the life of the late Sir James D. Edgar, ex-Speaker of the House of Commons, which shows as follows:

Mutual Reserve Fund Life Association paid	$10,000
Same premium would have purchased in old system company	5,165
Gain by insuring in the Mutual Reserve	$4,835

The above showing is why all the yellow journals have been purchased and arrayed against the Mutual Reserve. It is why the association has been made the "Dreyfus" of this continent. I question if there is a financial institution on earth to-day that would have stood the vicious persecution this association has. If one were to turn up the numbers of one of those journals, that was in existence about 15 years ago, he would find these fortune-tellers predicting that we had but a few months to live, etc, so that anyone who followed their advice and bought a suit to attend the obsequies must have lost money, as it would be in and out of fashion several times. Since that time two or three others, seeing the money the first were making out of this business, have taken the shilling and are trying, if possible, to go the first fakir one better. However, here we are in a stronger position financially than ever before; and, while our desire is to attend to our own business in peace and look after the interests of our policy-holders, yet if this guerilla style of warfare is kept up we shall be forced to turn the searchlight on some of our competitors who are furnishing the money for this disreputable business. We shall show the insuring public the position of some of their assets, and some of the methods adopted by them. It will then be seen that had they undergone the same examination as the Mutual Reserve they would have been out of business years ago. Surely the insurance business has better to offer the public than this.

These fellows require the gold treatment after every six months, as they usually send around after each attack to see whether we can be "held up."

The record of the Mutual Reserve in the payment of claims for value received is one to be proud of, and to our policy-holders let me say that you must protect your insurance against these dastardly attacks, and the association will protect your family after you are gone.

W. J. MURRAY,
Manager.

BLOODSHED IN ARMENIA.

It Still Continues—The Sultan Gives Orders Commanding Enforcement of His Irade.

Moscow, Nov. 24.—The Armenian patriarch at Constantinople, who recently resigned his office and only resumed it when the Sultan promulgated an irade commanding substantial and far-reaching reforms in the treatment of Armenians, has complained to the Sultan that the edict in question is a dead letter—that bloodshed in Armenia still continues. The Sultan has issued supplementary orders, commanding the strict execution of all the provisions of the irade.

FINANCIAL.

An investment with this Company gives the investor regular dividend of 4 per cent. per month, and a quarterly distribution of surplus profits. The average surplus profits have been over 14 per cent. per month. Any amount from $50 upwards will be received for investment, and certificate issued. To meet the requirements of those who do not find it convenient to invest the minimum amount of $50 under the ordinary plan, we will accept any amount from $10 upwards, the profits to be allowed to accumulate until there is $50 to the credit of the investor, when certificate will be issued. This is intended to enable people of limited means to lay the foundation of an investment that will provide permanent income in the future. This Company's plan of investment is becoming more popular each month, and is giving general satisfaction. Book free.

THE DOMINION INVESTMENT COMPANY OF TORONTO,

The Queen Threw Her Shoe.

"The recent farewell of the Queen," said a visitor from London, "to the regiment of Highlanders ordered to South Africa from Balmoral, has called to mind another leave-taking of Her Majesty some 45 years ago.

"Together with Prince Albert, she was reviewing the Guards from Buckingham Palace as they marched by, just prior to starting for the Crimean campaign. As the superb regiment filed past, in memory of the old English idea of giving good luck, the Queen stooped down, and, taking one of her shoes off her foot, impulsively threw it among the Guards. Even their wonderful discipline was thrown to the winds for the time being, and a wild scramble for the trophy ensued. Who got it was never known, but he who carried that tiny satin shoe in his knapsack to that bloody campaign it is safe to safe never returned, or it would have been heard of again. Probably some marauder on one of the battlefields found it in the knapsack of the dead soldier who had secured it in the scramble, and threw it aside as valueless, without realizing or giving thought as to where it might have originally come from."

America's Greatest Railroad

Is the New York Central, and the traveling public are gradually coming to realize the fact that to travel by the New York Central is one of the features of a trip by rail.

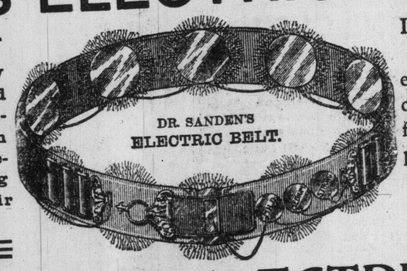
THE QUICK CURE FOR RHEUMATISM
IS ELECTRICITY

Why suffer when you can be positively cured? The method is so simple and the good results are so sure that we cannot understand why men and women endure excruciating pain, which prevents them from working or sleeping when they have only to reach out their hand and be cured.



DR. C. T. SANDEN,

I am pleased to testify to the efficacy of your Electric Belt in cases of Rheumatism, having worn one for said complaint and been completely cured.

FRED. H. JONES,
Band Master 62nd Fusiliers,
St. John, N.B.

DR. SANDEN'S ELECTRIC BELTS

Cure at Once Rheumatism, Lumbago, Sciatica, Kidney Complaints, Lame Back, &c., &c.
Electric Suspensory for Men Free with all Belts.

None can possibly form an idea of the wonderful currents produced by these body batteries without examining; therefore, if you can, call at our office and see and test one.

Thousands of bona fide testimonials are on file from every section of Canada. If you live too far, our illustrated book will be sent free, sealed, by mail, upon application. Address

DR. C. T. SANDEN, 140 Yonge Street, Toronto.

OFFICE HOURS from 9 a.m. to 6 p.m.
