Chago, April 26.—Prospects for a reduction of acreage brought about a sharp advance today in the corn market. Increases of winter wheat and cats acreage were said to be largely at the expense of corn, and it was also said seed troubles were operating to diminish production of corn. Unfavorable weather counted likewise as a bullish factor. Opening prices, which ranged from 1/2 to 1/3/2 advance, with May at \$1 271/2 and July at \$1 511/2 152/4, were followed by indications of still greater strength.

Still greater strength.
Oats showed some sympathy with the upturn in corn? The slowness of demand from the east, however, acted as a decided handicap to the bulls. After opening unchanged to %c higher, with May at 83%@84c, the market scored a slight further gain, but then underwent a material say.

New York, April 26.—Trading in stocks today was limited to the forenoon session in recognition of Liberty Day. The market gave further proof of underlying firmness, however, although interest centred mainly in the speculative issues at advances of 1 to 3½ points. People's Gas, United Railways and Philadelphia Company also added to recent gains, the latter rising 4 points. Rails were again ignored with moderate strength in Reading and Pacifics. United States Steel made an extreme gain of 1 point on steady accumulation. Superior Steel rose 3%, but Guif States Steel reacted 6 points. The closing was strong. Sales approximated 200,000 shares.
