DOUBLE MORAL STANDARD IS THE NATION'S PERIL

Marriage and Divorce and Laws For Women Discussed at Last Congress Sessions.

The Congress of Women was brought to a close yesterday afternoon. In the section on social and moral reform Kate Waller Barrett, M.D., Ph.D., spoke on "The Nation's Peril: A Double Standard of Morals."

BREDIN'S HOME-MADE BREAD

"The quality goes in before the name goes on." It is easy to decide that you want Bredin's home-made bread. Just taste it once and you'll understand why thousands of families use it every day.

Bredin's Bake Shops, 109-114 Avenue Road, Phone College 701, Bloor and Dundas Sts. Phone Parkdale 1068.

negle Technical School at Pittsburg, Aberdeen presided.

D. Hamersching said: "Learning is the ghost of dead men's thoughts and deeds. It is of great value in keeping alive the spirit of doing things so that dreams may become realities. That is what by the generosity of one man is being sought in Pittsburg."

"The time is past when learning itself was the great number of people who have made a demand on the world's happiness."

"Learning is a fixed thing, but it is giving way to technical science."

"On this continent technical education has a history half a century old. This includes Toronto and McGill. It was introduced in the old City of Troy, N.Y., and a quick succession of institutions were established, which depicted a new hope—an education which would serve a progressive and economic purpose."

"What is the end of technical education? It is the same as that of the old classical education of a quarter of a century ago, the production of useful citizens."

In conclusion he said: "Our ideal of woman is motherhood—to strengthen mankind in its upward struggles. I know of no leader in art or science who did not owe 90 per cent. of it, to his mother."

J. L. Hughes endorsed the views of the Pittsburg schoolmaster. Miss Van Rensselaer, New York, gave an account of the efforts of the New York state board federation to afford inspiring and practical technical knowledge to the women of the rural parts of the state. The lecturer declared that education was making greater strides in the country than in the city.

Mrs. Bernage, Italy, said that within the past few years colleges to instruct girls and women in the lighter parts of scientific agriculture had been established in Milan, Florence and Naples. The services of the graduates are in great demand.

Dr. George Parmelee, Quebec, spoke on the importance of efficient rural schools in Canada.

Hot Shot For Editors. Another volley was hurled at the newspapers by speakers at the literature section.

Miss Constance Boulton declared: "I feel very strongly on the duty of the press to the public, while others dwell yesterday on the duty of the public to the press."

"I feel that newspapers have created whatever vicious feeling there is, and then feed the taste."

"The papers must, of course, make money, but have they any more right to encourage vicious tastes than a man has to run a gambling house or a disorderly saloon?"

Miss Agnes Grant would throw the responsibility for what newspapers are on the people. "The editor," she said, "stands for the ideal, but he is hampered and controlled by the business office."

The art section was brightened by the presence of Miss Machar, the Canadian poetess, who told of women artists who had been helped by women's art clubs.

"The Home and the School." In the education section discussion turned on the home, the state and the school.

"The outcry in Britain," said Mrs. Martin, a British delegate, "over physical degeneracy seems to show that the healthy home, with the mother herself, and trained in all domestic accomplishments, is the most crying need of the times."

"The desire of the child to stay at home and help mother may often be a healthy token of natural activity, as well as being a reaction against a tedious table."

Mr. and Mrs. D. M. McKenzie have moved to their new home near Lambton.

Miss Maggie A. Taubman of Chicago is the guest of Mr. and Mrs. G. Bishop in Markham-street.

At Belleville yesterday, in St. Thomas Church, Rev. Rural Dean Beddard, rector of the church, was married to Mary Jessie Ackerville, daughter of Dr. D. Ackerville, the Lord Bishop of Ontario performing the ceremony. In Christ Church the marriage of Ernest Langson of A. J. Lang, to Miss Hilda Bell was performed by Dr. Abbott Smith of Montreal.

Metropolitan Life Insurance Co.

(Incorporated by the State of New York, Stock Company) JOHN R. HEGEMAN, President

GREAT REDUCTION OF EXPENSES--INCREASED BENEFITS--LOWER RATES

INDUSTRIAL DEPARTMENT. In January, 1907, the Metropolitan Life Insurance Company largely increased the benefits in its Industrial policies by reason of a heavy reduction in expenses and improvement in mortality experience.

During the past three years the Company has steadily reduced its expenses, so that it is enabled to make a further increase in benefits. Industrial insurance policies have a unit of weekly premium—three cents, five cents and multiples thereof—and the amount of insurance varies with the age.

All Industrial Life policies (premiums cease after age 74). Endowment policies at age 80 and Adult Twenty-year Endowment.

Policies issued since Jan. 1, 1907, will be increased in benefits about ten per cent., according to a new table of benefits adopted for policies issued after July 1, 1909. In other words, not only does the Company issue a new table for policies heretofore issued, but it makes the increase retroactive since the present form of Limited Payment and Endowment at age 80 policies were adopted.

Upon the OLD INDUSTRIAL POLICIES the Company is paying out TWO AND A HALF MILLIONS OF DOLLARS IN BONUSES THIS YEAR, bringing up the total Bonuses and Concessions upon Industrial policies to EIGHTEEN MILLIONS OF DOLLARS IN SIXTEEN YEARS. This is OVER AND ABOVE ANY AND ALL OBLIGATIONS assumed or implied in the policies.

The Metropolitan in its Industrial Department has the lowest Ratio of Expense of all the Industrial Insurance Companies in the world which pay immediate benefits. In FIVE YEARS its

Ratio of Expense to Premium Income Has Been Reduced 8 per cent., representing an Annual Saving of Three and a Half Millions of Dollars

The new Convertible policy issued by the Company is a novel form of insurance which becomes fully paid-up life insurance in a few years, and is then automatically converted into endowment insurance, the maturity of which is periodically shortened as payment of premiums continues.

The Company is abreast of the public demand for combination of term insurance and annuities, and serves the public better than any other agency.

INDUSTRIAL POLICIES IN FORCE; NEARLY \$,900,000, INSURING NEARLY \$1,500,000,000. ORDINARY DEPARTMENT. The Company has reduced expenses six per cent. in this Department in the last FIVE years—representing an ANNUAL SAVING OF OVER A MILLION AND A QUARTER OF DOLLARS IN THE ORDINARY DEPARTMENT.

The Company issues policies in the Ordinary Department in amounts from \$500 to \$1,000,000 upon all approved plans at the lowest rates. IN 1908 IT WROTE MORE PAID-UP BUSINESS IN ITS ORDINARY OLD LINE INSURANCE (exclusive of Industrial), in the United States and Canada, THAN ANY OTHER COMPANY.

All of its policies in the Ordinary as well as the Industrial Department are written on the non-participating plan. The Metropolitan pays its dividends at the rate of 5 per cent. It cuts down the premiums. It believes the plain, common-sense men who make up the bulk of policyholders look for a plain business contract. By plain business contracts we mean those which leave nothing to the imagination, borrow nothing from hope, require definite conditions and make definite promises in dollars and cents.

In both Departments combined the Company has, in each of the past fifteen years, written more paid-for insurance than any other company in the world.

The Company upon Its Total Business Has in the Last Ten Years Reduced Its Ratio of Expenses to Premium Income 15 Per Cent.

FIRE AT MORRISTOWN. Locomotive Spark Causes Conflagration—Loss About \$25,000.

BROOKVILLE, June 30.—(Special.)—The Brookville Fire Department was called this afternoon to Morrissett to assist in fighting a blaze which threatened to destroy the place. The steam engine was sent over and another one summoned from Ogdensburg, but it was not before \$25,000 worth of property was gone that danger passed.

A spark from a New York Central Railway train ignited a barn, and the flames communicated to several residences and the Grove Hotel, which, with most of its contents, went up in smoke. The Presbyterian manse was also destroyed and the church and schoolhouse saved after heroic efforts. The wind blew a gale from the southwest. Insurance will probably total \$12,000, a small portion being carried by the Grove Hotel, which was valued at \$9000.

Riflemen Resisted Arrest. REGINA, Sask., June 30.—Two brothers named Johnson were taken to jail for thirty days for fighting. Both were members of the 96th Saskatchewan Regiment, and were in camp with the regiment. They are Englishmen, and fought with a German member of the regiment over the respective merits of German and British armies. They held the entire regiment at bay for a while.

CANADIANS SPENT A MILLION. Last year in Canada there were one million dollars spent by people seeking an absolute cure for "Catarrh" throat, weakness and bronchitis. Among the numerous remedies the only one guaranteed to permanently cure both sides and throat, spreads through the delicate bronchial tubes to the lungs. Phlegm is loosened, desire to cough is alleviated, sore membranes heal rapidly and in every case a permanent cure results. The dollar outfit of Catarrhone lasts two months and invariably cures. Smaller size \$6. All dealers or Catarrhone Company, Kingston, Ont.
