Chicago Gossip.

J. P. Bickell & Co. say at the clos the market:

Wheat—Lower; higher cables influenced a higher opening, but lack of confirmation of rust reports, and brilliant spring wheat weather, together with public indifference left markets without support, closing about low for the day, with sentiment among leaders bearish. Spring wheat situation the principal factor and barring damage, bears are expecting a strong of the steady; Sheep, \$4 to \$5.25; lambs, \$6 to \$7.75; yearlings, \$5 to \$5.50.

East Buffalo Live Stock.

EAST BUFFALO, July 30.—Cattle—Receipts, 125 head; slow; prime steers, \$6.35 to \$6.75.

Veals—Receipts, 825 head; handy, active wheat situation the principal factor and barring damage, bears are expecting a big run of spring receipts, which in their opinion will check any advance. Market at moment difficult to forecast, but in our opinion immediate tendency will be governed by receipts if they keep liberal. Lower values are probable, but it is a question whether farmers will accept present level for cash wheat. Market will probably prove irregular until something more definite is known of spring wheat crop.

Veals—Receipts, 825 head; handy, active and 25c higher; heavy and common, slow, 86 to \$8.

Hogs — Receipts, 5600 head; active \$6.75 to \$7; stags, \$5.50 to \$6.25; dairies, \$7.75 to \$8.

Sheep and Lambs—Receipts, 600 head; active and steady; unchanged.

Beaty & Glassco had the following at the close:
Our market opened steady to a shade higher, with commission houses moderate sellers. Crowd was bearish all day and sold on the weak spots generally and were run in several times. The tendency of outside markets was lower, particularly in the northwest, where prices were weaker relatively than elsewhere. There was rather a better demand for cash wheat, with some sales made for shipment abroad. The spring wheat crop prospect is the principal bearish factor at the moment and outweighs all other news.

Dear Sir,—I am well satisfied with your Belt, as it had a wonderful effect upon me, as is shown by the fact that at the time I bought it I was in such poor health that my recovery was almost despaired of, but the wonderful effect of your Belt was felt before I had it one week. It has given complete satisfaction, and I consider the expenditure I made is a mere trifle as compared with the wonders it has worked in my case. I hope your Belt will prove such a help to others as it has to me. I never neglect the opportunity to recommend your Belt at any and all times. Yours very truly, CHARLES RUSE.

FERE is a Canadian Invention which will revolutionize the manufacture of modern packages, barrels, cheese boxes, banana crates, nail kegs, etc. Just look at the illustrations and you will readily note the great advantage this package and barrel possesses over all other kinds. One car load of these cheese boxes for illustration is equal to ten to fifteen car loads made the old way. See and realize the immense saving in freight charges. Then, again, such a saving of space for warehouses. In a small space thousands of packages can be stored and made up as required, when by the old way a large room is required for a few hundred packages. There is an unlimited, ever-increasing, and never supplied demand for shipping barrels of all kinds. The demand will never grow less, on the other hand, it will increase. To meet this great demand The Toronto Boxbarrel Co., Limited, has been formed to purchase the Canadian Patent and manufacture all kinds of shipping packages. So very enthusiastic are users of packages of this form that prospective orders now total up into the thousands, and will take the capacity of a good running factory for months. What will it be when actual business is begun? Enormous is the only word with sufficient meaning to answer that question. To provide for working capital of (\$30,000.00) Thirty Thousand Dollars Treasury Stock is offered to the investing public at par, \$50.00 per share. The many tall chimneys throughout the land and the busy hum of wheels tells louder than words and plainer than print that industrials like this are better and safer to invest in than holes in the ground. Buy a few shares now. Watch this business grow to be the largest package industry in the Dominion. The Company and business policy will be directed by practical manufacturers, with years of experience, in the same systematic manner by which the great manufacturers of America have become famous. One object of this Company is to operate warehouses in various centres of the country for the distribution of their many products, and to meet any and all demands for supplies, not alone for these Patent Packages, but for Veneer, Baskets, Cooperage Stock and Lumber. It will be an industry worth owning a few shares

OBJECTS-This Company was organized to acquire, take over, control, and to own undividedly the Patent of Canada number 100,318 and tent of Canada number 100,318 and dated the 7th day of August, A.D. 1906, further described in this Prospectus, and to manufacture, buy, sell, trade or deal in Barrels, Boxes, goods, articles, materials, chattels or merchandise, and to operate warehouses, depots and works in different points of the Dominion as may be warranted by the growth of the Company in the discretion of the Directors,

PURCHASE PRICE—Full details as to the purchase of Canada Patent number 100;318, and dated the 7th day of August, A.D. 1996, the invention of Jonathan B. Climo, are given in an agreement dated the 20th day of May, A.D. 1909, between this Company and A. J. Beifry, of the City of Toronto, Gentleman, the latter being the vendor. The agreement may be seen at the offices of the Company. Under it the Vendor agrees to accept \$12,000.00 "(twelve thousand dollars), payable \$2,000.00 cash within a period of 30 days from date of incorperation, and the balance, \$10.000, payable in stock of the Company at its par value thereof, in full payment for all his right, title and interest in and to the said Patent of Canada referred to. PURCHASE PRICE-Full details Canada referred to.

MANAGEMENT — The Company will be under the direct management of Mr. A. J. Belfry, who possesses a practical and commercial understanding of the business, and being the founder of the business, and having

15 (fifteen) years' experience as a manufacturer, his ability to control the Company will be undisputed. EFFICIENCY—The Company will handle in an efficient manner the enormous Barrel and Box trade in the different provinces, on the same systematic, well organized and very efficient basis for which the great manufacturers of America have become famous throughout the world.

SHIPPING—Under Patent of Canada number 100,818, and dated the 7th day of August, A.D. 1906, the Company is enabled to make shipment of their manufactures in knock-down fashion, that is in part, thus saving considerably in storage, shipping and freightage.

DEMAND—The market for Barrels and Boxes is unlimited, and demand increases in accordance with growing population and export trade. CENTRAL LOCATION — Ontario, situated in the heart of the agricultural and pastoral portion of the Dominion, will positively become the centre of the packing and manufacturing industries.

turing industries.

PROFITS—The profits of this business are well known to be substantial, and the tremendous magnitude of the operations may be gauged from the business transacted by other manufacturers of importance, the profits of most of them amounting to many times their entire paid-up capital annually. This, owing to the fact that the usual value of their manufactures per month exoeeds the amount invested in the factory itself.

INFORMATION. A—Any Shareholder may qualify for the position of Director in this Company by subscribing and paying for two or more shares.

B—Calls on stock subscribed for are to be made from time to time in the discretion of the Directors, and no call will exceed 25 per cent. (twenty-five per cent.) of the purchase price thereof, with at least 80 (thirty) days notice. C-Nothing has been paid or will be paid to any Promoter or Director, and no Promoter or Director has any interest in the property acquired, other than
