## PUSSLEY YIELDS DEADLOCK BROKEN

Continued From Page 1.

made by Col. Hughes, on behalf of the opposition, the minister of public works said that he would be glad to lay the plans on the table.

He had made enquiry, and had found that the plans were not in the possession of his department. He would endeavor to get them from the chairman of the International Waterways Commission.

Mr. Pussley suggested that, as the house had settled down to a discussion of the bill, it would be wise to put thru all the non-contentious bills with agreement between, and Mr. Pussley, after conferring with Mr. Gardie, the sponsor of the bill and chief lobbyist, said he was willing to accept the opposition proposal.

He would produce the plans provided he could get them if the opposition would give a clause of the bill to go thru. If he could not get them, he would give a clause of the bill to go thru. If he could not get them, he would give a clause of the bill to go thru.

Mr. Borden: "We will make it our duty to consider these reasons."

Mr. Pussley: "I do not consider that the necessity for doing so will arise."

The first clause of the bill was then passed, and the committee reported favorably. The bill was then brought up again until Monday next.

Should Wait a Year.

W. P. Maclean (South West) strongly advised the government to let up on the bill, if it was not committed to the bill.

"Why submit this house to a minor point," he said, "when the major project is to be dealt with?"

Continuing, Mr. Maclean pointed out that a number of important bodies, including the commission of conservancy and the international waterways commission, are seized of the importance of the question. Why should the government not take time to give these bodies and the country an opportunity to discuss this matter?"

Mr. Maclean thought that no harm would be done if the bill were allowed to stand over for a year. If parliament did this it would make no mistake. This Ontario Government was endeavoring to work out the important problem of government ownership of these water powers. If they were beaten in this fight, then the private corporations would have a free hand to the detriment of the people.

He also suggested to Mr. Fielding that he could not let Canada's position in regard to international powers as a level in his tariff negotiations with the United States.

## Bermuda.

Of all the delightful places to go to for the months of March and April, there is no place more delightful than the Island of Bermuda.

Situated 600 miles southeast of New York, and easy of access by a first-class steamship service, comprising two sailings a week (Wednesday and Saturday). The climate is delightful at all seasons; rarely does the thermometer go below 50 in the summer. While it is a water town in its previous days, the island is now a city of the future. It is less difficult to secure the necessary accommodation.

Tickets and all information regarding the Bermuda can be had at the office of Webster & Co., corner King and Yonge streets.

## NOT EVEN A REAL CHEER FOR TEDDY AT KHARTOUM

Landing Didn't Create the Furor Expected—Had to Show Himself in His Old Clothes, Too.

CHICAGO, March 15.—Walter Wellman canoes the Record-Herald from Khartoum, the story of Roosevelt's arrival, as follows:

Shortly after 6 o'clock the watchers along the Nile sighted the Dal above town. As soon as the word was flashed back that the erstwhile president's boat was in sight, Gen. Sir Rudolph von Slatin, the acting governor, and a party of British officials set forth in a launch to meet it and welcome the distinguished guest of the Sudanese capital.

True to its program the Dal drew up to the shore at Stanley's Tree, but, alas, when members of the colonel's party stepped ashore they found that the "American gentleman's clothes," for which he had wired ahead, were missing. Thus some mishap the glad garments had failed to arrive at Khartoum.

Thus it happened that Mr. Roosevelt was compelled to enter the city in his old, well-worn, and not to say dirty, khaki hunting costume. As he stepped ashore at the head of his party Mr. Roosevelt was a picture of the most unimpressive in the world, perhaps that he did not entirely relish. Despite the strenuous scrubbing and brushing to which they had been subjected after the disappointment at Stanley's Tree, his flannel shirt still displayed vivid spots of blood, while his helmet and leggings were soiled with mud.

A huge American flag flanked its way to the right, and the Dal moved down the stream thru a lane of small ships. There were, however, only a few spectators on the embankment, and the Dal was not a demonstration as the ship slowly threaded its way up the Nile to the palace landing, where the party disembarked.

In a dozen husky-Soudanese soldiers, in white uniforms with brilliant red trimmings, and the governor's guard of honor, lined the shore between the landing and the palace door. This was all the ceremony with which the landing was invested, a circumstance in itself a striking commentary on the deadliness, the unending monotony and consequent indifference of life in this region of blazing sun and scorching sands.

Altho the visit had been talked of through the whole length and breadth of the world for many months, neither the natives nor the British and Greek traders found the energy to be present at Khartoum on the day of the arrival. Only a few hundred Britishers and Americans witnessed the landing.

The correspondent wanted to know what became of the welcome they had been led to expect. He was told that they had been led to expect a welcome, but that they had not received it.

After a while, Col. Hughes began to read a magazine article on United States water power, and the discussion was terminated in this morning's world.

When the exchange between Pussley and Col. Hughes was over, the discussion was terminated in this morning's world.

HOW MEMBERS TALKED  
NIGHT AND DAY AWAY

Some of the Scenes, Incidents and Arguments Involved in the 17-Hour Session of Parliament.

OTTAWA, March 15.—After a continuous session, the sitting of parliament, which began at 8 o'clock Monday night, was concluded at 2 1/2 this afternoon.

The protracted discussion was the result of the endeavors of the opposition to secure from the government certain plans in regard to the operation of the St. Lawrence Power Transmission Company for right-of-way and privileges. The plans were frequently discussed, but the government refused to make them public.

And so they talked, and talked, and talked all night long, and the next morning the world's dispatches this morning. A similar session occurred during the marine department debate, a couple of sessions since, and, before that, during the famous remedial bill discussions of the late session.

Three of the cabinet ministers—Messrs. Fielding, Pussley and Aylesworth—sat it out all night, and the next morning the world's dispatches this morning. A similar session occurred during the marine department debate, a couple of sessions since, and, before that, during the famous remedial bill discussions of the late session.

They had some fun.

The night was not without its humorous aspects. One of them consisted in the stentorian snoring of a husky member from Northern Ontario, who, with his complement of couches, and upon the weedy representatives of the opposition, was frequently the subject of the influence of endless talk in the sweet oblivion of sleep.

## OTTAWA CABINET SHIFT AS HEARD IN MONTREAL

Pardee and Dandurand Will Likely Replace Brodeur and Aylesworth Within a Reasonable Time.

MONTREAL, March 15.—(Special.)—The workers on the inside of the Liberal party here in Montreal have received information as to the proposed changes which are due at Ottawa as soon as possible after the close of the present session of parliament.

The statement is made that Hon. L. P. Brodeur has left the house for good and that by mid-summer, if his health recovers, he will go to the supreme court bench, replacing Justice Gauthier, whose resignation was accepted last week.
