Light Thrown on New Brunswicker's Hay Deals Provided Sensation.

By a Staff Reporter.

OTTAWA, Jan. 27.-Hon. Martin Burrell, minister of agriculture, went after Frank Carvell, the Liberal member for Carleton, N. B., this afternoon and all but skinned him alive. It was one of the most interesting operations ever witnessed by parliament. The Conservatives, who were badly rattled by Mr. Carvell's brilliant and forcible arraignment of the shell committee on Tuesday, are feeling better tonight and some of Mr. Carvell's friends may be correspondingly depressed. Mr. Bursell, by the way, had not a word to say in defence of the shell committee, charges preferred by Mr. Carvell in

charges preferred by Mr. Carvell in connection with the purchase of New Brunswick hay by the department of agriculture for the account of the British war office.

Carvell's Allegations.

Mr. Carvell's charges, which at the time made a deep impression on the house, may thus be summarized: He caimed that the department of agriculture reprehended 7000 tons of hay in New Brunswick for the war office thru a contractor or middleman known as the Atlantic Hay Company; that B. F. Smith, the Conservative candidate for Carleton in 1911, was the head and front of this concern; that Smith's company was paid \$24 a ton for hay f.o.b. at St. John, N.B., and that it purchased the same from tarmers at a low price, paying from \$11 to \$13 for loose hay, and that much of the hay bought for the company and furnished for the war office was black, rotten hay already condemned by the government.

Mr. Carvell claimed that the favored middleman had absorbed a profit

of at least \$35,000 either from the New Brunswick farmers or the imperia government. He further said that when he told Mr. Burrell, the minister of agriculture, that he intended to expose the affair, that Burrell begged him "for heaven's sake, say nothing about it," and then went to Sir Wil-

about it," and then went to Sir Wilfrid Laurier and Fred Pardee, the chief Liberal whip, and begged them to haul Carvell off.

Strong Counter Charges.

Mr. Burrell met this indictment today in a carefully prepared speech, which towards its close became highwhich towards its close became highly sensational, as he proceeded to uncover some past pages in the career of his accuser. The minister said the contract of hay had been given at \$24 upon the basis of what it cost the government to buy and bale hay at Montreal and ship to St. John. He did not think the price out of the way. However that might be, he produced a new contract with the Atlantic Hay Co. by which their net profits on all Co., by which their net profits on all the hay purchased by them would be limited to \$1 per ton. The government had a chartered accountant in the of-fice of the hay company to check up

their operating expenses.

On the French portion of the front their artillery displayed considerable activity all day. In Belgium they delivered a destructive fire against the German trenches situated in front of Boesinghe and between Hetsas and Steenstraete, causing serious damage to the hostile organizations.
