

POLICE TO KEEP RECORD OF CARS

Secondhand Auto Sales Must
Be Reported by All
Garage Owners.

Following the meeting of the police commissioners yesterday afternoon, Chief Constable Grasett made the announcement that public garage owners, who buy and sell second-hand cars, will have to report all sales and records to the police department, similar to that made by the second-hand shops, instead of filing it with principal authorities, as has been the custom.

"It is to put a check on stolen cars and breaking them up and dismembering them," explained the chief. The board agreed to the suggestion of a deputation of four, headed by Controller Maguire, to spend the money collected on a tag day in 1918 for lithographed war memorials at a cost of \$4 each, and an athletic carnival to be held on July 1 at the Exhibition. The money was originally intended to provide funds for the reception of returned soldiers.

More Room for Department. Chief Grasett submitted a plan to give the police department more room, by which the woman's court room would be eliminated, and providing for the complete rearrangement of the offices of the police officials on that floor.

The city treasurer reported that there were no funds to pay bonuses or increases to men who served overseas, which were applied for recently. Such increases were granted to members of the force during the war to combat the high cost of living, but did not affect the men overseas.

It was decided to purchase the uniform cloth for the force for 1921, as the prices are advancing every day. The contract price will be \$10.20 a yard, and the department will purchase 1500 yards.

The G.A.C. were granted a tag day on Sept. 2, and the board also decided to erect street signs regarding traffic regulations at a cost of \$2 each.

Sgt. Little, who has been in charge of the mounted squad for four years, was promoted to inspector. The resignations of Constables G. Curry, G. Jorgenson and D. Mason were accepted.

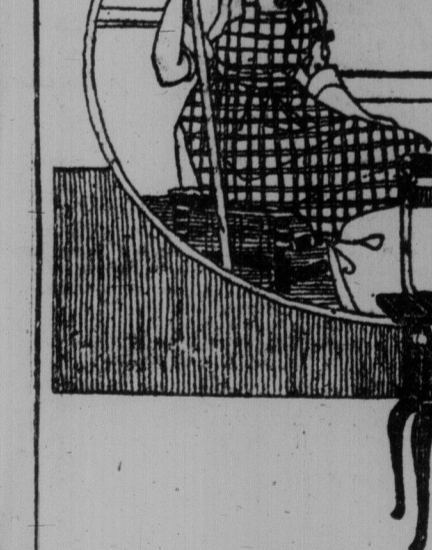

The case concerning Constable Logie was again remanded at the request of Arthur Roebuck, Logie's lawyer. It will come up a week from today.

**J. HARRY FLYNN
WAY MISUNDERSTOOD**

A prospective member of the G.A.T.V. interviewed the Dominion organizer, J. Harry Flynn, yesterday, with a view to discovery if the report that J. Harry had mentioned a "bunch of drunken rowdies" as being present at the mass meeting on Saturday were correct or otherwise.

Flynn stated that he was quite sure he had not used the expression, and that the reporter must have misunderstood his remarks. The prospective member also interviewed the reporter in question, who declares that if Mr. Flynn did not mean that a "bunch of drunken rowdies" was present, he (Flynn) did not make his real meaning quite clear.

As regards the request to "sit down" by certain people in the crowd, this was, said Mr. Flynn, obviously not addressed to him, but to a member of the audience, who was shouting "No Bolshevism," said heckler being the first at the meeting to respond to Mr. Flynn's appeal for members.

STORES NOT HOUSES.

News of a permit for one pair of houses on East Gerrard street, near Normandy boulevard, is erroneous, and should read one pair of "semi-detached stores and dwellings." These are in trust to P. H. Finney, by whom the correction is made.

ASSESSORS BOOST DANFORTH VALUES

Increases in Last Year Twenty
to One Hundred
Per Cent.

The new assessment gives property in Ward 8, and especially at the Beach and on Danforth avenue, a considerable boost, the increase in some instances running up to 100 per cent.

The assessment of 1633 Danforth is increased from \$25 to \$35, 1577 from \$35 to \$50, 1485 from \$50 to \$70, 1279 from \$40 to \$60, and 1013 from \$40 to \$50.

The Danforth avenue corners have been marked up sharply.

The southwest corner of Danforth and Coxwell has been increased from \$80 to \$150 a foot.

Ald. Baker's assessment is boosted from \$40 to \$50 a foot, at 44 Balsam avenue, and Ald. Miskelly's property at 60 Pine Crescent, from \$30 to \$35 a foot. These increases are about typical of advances in parts of the Beach district.

One of the chief sufferers from the increase in Ward 8 is the Ontario Jockey Club, whose lands, the Woodbine race track, are scaled up \$50,000 in the new roll.

The old assessment on the 80 acres was \$152,195 and the new figures are \$359,040. The buildings remain at the old assessment.

**SOLMAN SATISFIED
WITH NEW RATES**

Ferry Service to Be Continued
at Fare Fixed by Council.

Altho the Toronto Ferry Company asked the city to sanction a 25 per cent, increase of rates to and from the Island, Mr. Solman declares that he is quite satisfied with the council's decision to grant a 20 per cent, increase. "The company," he said, "restrained from advancing their rates as high as could reasonably be expected in view of increased wages for sailors and the high price of coal." He does not expect that the changes will affect the service materially, as he personally has not heard any objection raised by the public.

The price of a return ticket has been raised from 10 to 15 cents, with a four single tickets commutation rate. At the council meeting Monday night a resolution favoring the increase was moved by Controller Ramsden and supported by the mayor and Controllers Maguire and Gibbons, and Ald. Hiltz, Singer, Whetter, Blackburn, F. M. Johnston, Birdsell, Maher, Nesbitt, Cohan, Ryding, F. W. Johnston, MacGregor, Maxwell and Plimmetore.

**CITY'S OPTION EXPIRES
ON HOSPITAL PROPERTY**

The city's option on the old general hospital, on East Gerrard street, has expired and it is understood that the property will now be sold by the general hospital board to a real estate firm, who will raise the buildings and divide the property into building lots.

Dr. Hastings, M.H.O., was anxious to get this property for an isolation hospital, and the board of health had an option on the property of \$125,000 and was to assume a mortgage of \$25,000, making \$150,000 in all. The consideration in the sale of the property to the real estate firm is said to be \$225,000.

**FIRE INVESTIGATION
IS AGAIN ADJOURNED**

After further investigating the accounts of the second-hand dealers, whose stores were destroyed by fire in March, 1920, the inquiry committee, under Fire Marshal Heaton, yesterday adjourned until Monday, May 10.

Three witnesses, Isaac Rice, Gassee and Mendelsohn, were examined by Crown Attorney Greer, who made three inquiries into the bookkeeping systems adopted by the witnesses. Very little new evidence was brought forward, beyond the denial by Rice, that Mendelsohn had paid one of three bills due to him (Rice). Several account books which had been labelled exhibits were returned to their respective owners.

**BILL APPROVED FOR

The private bills committee this morning approved the city of Hamilton bill, providing for the Carroll's Point Cemetery. The highway commission must approve of the entrance, however.

J. Counsell entered opposition to the measure on the ground that the site was on a dangerous curve, and wanted the bill referred back.

The Hamilton gas plant bylaw was turned down by the committee.

WOMEN SUCCUMBED TO POISON GASES

Dr. Corsley-Batt Tells How
British Women Faced
Munition Perils.

CHEMISTS NEEDED

A speaker with many things that are worth while imparting to any audience is Dr. Corsley-Batt, correspondent of The London Times, who is making a tour of Toronto factories and who yesterday spoke to the members of the Women's Press Club. Dr. Batt, who is a young woman in her early twenties, was appointed by the British government to munition factories during the war, her work being to detect over poisonous gases, a post for which she was eminently fitted by her high credentials as a chemist.

What the women in munitions endured and how they responded to the call of Lloyd George in thousands, was graphically described. Many of these were destroyed physically forever, due to the inhalation of gas. That the danger to which women were subjected was never half reported was shown by an instance in which with 4,000 women had 700 casualties in a week. Dr. Batt emphasized the value of chemistry to a country and was surprised to find that Canada has only 300 qualified chemists, while the United States has 24,000, Germany 17,000 and the British Isles 9,000. The speaker said that industries need developing in Canada, where raw material is right at hand. She suggested interesting the children by taking them to the centres of industrial operations with which they might become familiar.

Conditions in Australia. Life on the Australian transport on which she traveled to Australia, the voyage lasting ten weeks, and during which three hundred babies would have suffered much, due to food shortage, were it not for the Red Cross, was also told. That the fruit of Australia, which is so abundant that it is given to the children in Australia was also quoted as something that Canadians might copy with profit. As soon as the banker, merchant or other business man begins to prosper he at once goes out and buys a ranch. This helps to work up the

country and at the same time enriches its owner.

That Germany would have won the war, without doubt, had her strategy been as complete as her knowledge of science, was the opinion of Dr. Batt. Also that Germany will "come back" was another statement. To offset this, Canadian women should become interested in industries in which Canada is weak. What the speaker termed the "key" industries required to be strengthened even more than those which had been built upon them. But no nation is stronger than its weakest link. Dr. Batt will be heard on several occasions before leaving the city.
