# SHARP UPTURN IN CORN MARKET

Chicago, July 9 .- Sellers had the advantage in the corn market most of the time today owing largely to closed heavy, 5-8 to 15-8 cents net lower, with September 155 1-8 to 155 3-8, and December 138 7-8 to 139. Oats finished unchanged to 5-8 cents down, and provisions unchanged to 25

cents up.

Notwithstanding that many recent bears in corn were inclined to be con-servative as a result of the big drop receipts here encouraged other sellers, who were given a further stimulus by the auspicious nature of field advices, the auspicious nature of field advices, as well as by the generally accepted outlook as to the government crop report. About the middle of the session, however, the market scored a sharp temporary upturn in connection with gossip that black rust was spreading in South Dakota and southern Minnesota. It was said clear that ern Minnesota. It was said also that receipts were falling off in the southwest. Then the government crop report again absorbed attention and there was a rapid fresh descent of values at the last.

Oats were relatively firm because of the meagreness of receipts.

Higher prices on hogs tended to lift provisions and so likewise did talk of export sales of lard.

### WHEAT CROP INCREASE IN UNITED STATES

Washington, July 9 .- An increase of 28,000,000 bushels in the United States wheat crop as compared with last month, with a total forecast of 809,000,000 bushels; a progressive corn crop larger than last year's and larger crops of oats, barley, white potatoes, tobacco, flax and rice than were grown a year ago, were the features of the government's July crop report issued today by the United States department of agriculture.

Boston, July 9.—The Commercial Bulletin tomorrow will say:

"Trading in the wool market this week has been very desultory with prices showing an easier tendency. The reports from the west indicate no settled policy of doing business either on the part of the growers or sellers, some consignments being reported and a little outright buying. outright buying.
"The market for goods is flat, as might be supposed from the general closing of the mills."

### Straw-Bundled and loose, nominal. Shortage in Coal Supply Shuts Down Cement Mill

Montreal, July 9.—The operations of the Canada Cement Company continue to be seriously handicapped by the shortage of coal, and it has been found necessary to close down the Hull plant on account of lack of fuel. With the closing of the plant, the company now has only four plants in peration. There is no sign of any immediate relief in the situation, and

immediate relief in the situation, and while the company is doing all in its power to obtain supplies of fuel, it is impossible at the moment to say when the situation will right itself.

Were it not for the present unsatisfactory state of the coal supply, the company would be enjoying one of the busiest periods in its history. The demand for the product of the enterprise is very heavy, and sufficient orders are on the books to keep all plants working to capacity for some time to come. As a matter of fact, the company is receiving more business company is receiving more business than it can handle, and has been obliged to refuse orders.

# CHICAGO GOSSIP.

A. L. Hudson & Co. Had the Following at the Close:
Chicago, July 9.—Corn: There was a little overnight pressure early is con. After a little steadiness the marke had a further liquidating period which rather cleaned it up. The buying was of a better class than the selling which rather cleaned it up. The buying was of a better class than the selling all day. The basis for it was less weakness in the cash markets than expected, with higher prices for cash wheat and rye. After this buying support took care of the offerings, a further wave of shorts, covering and new buying came from reports of rust in the northwest, some buying the government report coming out today for a basis of crop conditions are so favorable that anything in the way of a change would likely be detrimental, but from present conditions sales on but from present conditions sales of bulges are still suggested.

bulges are still suggested.
Oats: The oat market gave a good ascount of itself today, being less weak than could have been looked for with so much pressure on corn. Cash oats were finally 1 1-2c higher than yesterday. We are going to have comparatively high wheat, rye and comprices for some time to come, and under present conditions, we still believe that September and December oats bought at these excessive discounts under the cash prices
