SAYS ONE CLAUSE OF FRANCHISE BILL LIKE PRUSSIANISM

Col. J. A. Currie, in Commons, Opposes Life Appointments of Electoral Staff.

CAHILL HAS CLASH

Ottawa, April 8.—(By Canadian Press).—Keen discussion of the franchise bill in the house today followed consideration of such varied topics as inspection of fish, civil service insurance, certificates for master mariners and a bill to carry the Bulgarian peace treaty into effect.

Under the bill, a chief electoral officer is appointed. His appointment will mean abolition of what Hon. Hugh Guthrie, solicitor-general, termed the "ancient and honorable office" of the clerk of the crown in chancery, an office which dates back to the thirteenth century for a century or more, and links with the spacious days of Wolsey.

WHEAT BOARD ABANDONS CONTROL OF FLOUR PRICES

Flour in Storage is Apparently to Be Marked Up Fifty Cents a Barrel, and Advance in Bread Prices Will Be Sequel.

Winnipeg, April 8.—A statement issued today by the Canadian Wheat Board says: "Considering the time opportune, the Canadian Wheat Board, as a preliminary step towards decontrol, propose, as from this date, to withdraw the maximum price on flour sold for domestic purposes, whilst retaining control of the price of wheat."

"The board will temporarily continue to control the maximum wholesale price of mill offals. "Expert cost accountants have audited the books of several representative milling companies, and the board being thus in possession of certified milling costs and having the price of wheat under control, can and will see that no abuse occurs. There is every reason to believe, however, that competition among millers will amply protect the consumers."

The Canadian wheat board issued an announcement yesterday of their relinquishment of control of flour for domestic purposes. This announcement comes within a week after the Canadian millers appeared at Ottawa and demanded liberty to scale up prices possibly 45 cents a barrel, owing to the increasing cost of manufacture.

Authentic reports have come from Ontario and western points that many mills have closed down because of lack of orders, and also that warehouses were never so full of flour before. In fact that there was enough flour in storage to supply Canada until the next crop is available. This storage stock is apparently now to be marked up 50 cents a barrel, and it is in this advance will come an advance in bread prices, as Toronto bakers have forecast within the past week. Ottawa flour prices also indicate that demands are being made on the government to rot new credits to European countries so that these countries can buy up the available supply of Canadian flour and thus create a real shortage here and

SOVEREIGNTY OVER FIUME IS GRANTED TO ITALY

Geneva, April 8.—A telegram received at Lugano from Trieste asserts that the Italo-Yugo-Slav commission which has been in consultation regarding an Adriatic settlement, has reached an agreement concerning the Adriatic ports under which Italy obtains sovereignty over Fiume.

The Yugo-Slavs, under the reported agreement, would receive Susak, the Canale Della Plunara, the Porto Barossa and the port of Volosca. The port of Abbazia, just to the southwest of Volosca, would remain Italian, with the Yugo-Slavs receiving Scutari, on the Albanian coast, as compensation.

The report credits Premier Lloyd George as being the author of the settlement proposition, regarding which the opinion of President Wilson was not asked by the allies, it is declared.

SENATE RESOLUTION FOR ENDING WAR SURE OF ADOPTION

Democrats Insist It is an Invasion of Treaty-Making Powers of Executive.

STORM OF ORATORY

Washington, April 8.—The peace resolution had passed the half-way mark on its way thru the house when echoes of the storm of oratory and debate it provoked died away tonight. For six hours it was the centre of discussion on the floor, yet no one questioned that it would be adopted. The final vote will come late tomorrow.

There was a vote today on adoption of the special rule limiting debate and preventing amendment of the resolution, as drawn by the committee on foreign affairs. The rule was carried 214 to 156. At any rate the Republicans in its support, and one Republican opposing it. This was taken to indicate action on the resolution itself, but Republican leaders said more Democrats would join them on the final vote. One of the Democrats, Representative Huddleston of Alabama, who voted against the rule, announced that he would support the resolution.

Charges of partisanship ran thru Democratic comment on the resolution itself, but Republicans noted these, but insisted that conscience would not let him "trot along" with his party majority and oppose the peace proposal whatever company his decision forced him to keep. The November elections figured almost as prominently in the debate as did the international situation, wartime legislation or even President Wilson's share in the treaty fight. A statement by Representative Pop, Democrat, North Carolina, that the president had been without personal

Ottawa, April 8.—The peace treaty with Bulgaria was formally ratified by the Canadian senate and the house of commons today, providing for a state of peace between the two countries as soon as three of the allied and associated powers shall have ratified the treaty and Bulgaria has formally concurred in it.

In answer to a question, Hon. N. W. Rowell stated that the treaty between France, Great Britain and the United States for the protection of France, W. B. Riddell and Mrs. E. F. B. Johnston had taken definite action. "Then we are looking to Washington for ratification," queried Hon. W. S. Fielding.

SURPRISE AT CHOICE OF G. T. R. OFFICIALS

Ottawa, April 8.—(Special).—There is considerable surprise here at the selections from the Grand Trunk officials for the joint board of management. Neither J. A. Dalrymple nor W. P. Hinton are chosen, and both leave the system. It is understood that Messrs. Robb and Frank Scott, treasurer of the company, will be the Grand Trunk representatives, and, from the Canadian National, Messrs. Hungerford and Hayes, with President Howard G. Kelly of the Grand Trunk as chairman.

It is estimated that the supplementary estimates will include twenty-two million dollars on account of Grand Trunk financial affairs.

DEPUTY WAS CAUSE OF ALL TROUBLE AT KAPUSKASING CAMP

Soldier Member of Legislature Demands Dismissal of Albert Grigg.

NOT IN SYMPATHY

Conditions at the soldiers' settlement camp at Kapuskasing occupied the greater part of the legislature's time yesterday. The discussion was precipitated by Col. Toimie, who moved the adoption of the report of the commission appointed to inquire into the affairs of the northern colony of returned men. It was at times lively, and while the camp came in for many hard knocks, it was not without its defenders.

Col. Toimie spoke generally of the report and of the position the returned soldier found himself in when discharged from the army, and he urged to throw the whole subject open.

A feature of the debate was the demand for the dismissal of Deputy Minister Grigg of the department of lands, forests and mines.

The premier assured the house the government had no intention of shirking its responsibilities in connection with Kapuskasing, and were prepared to stand now that that spring is approaching.

DEFENDS SETTLEMENT.

Major Kennedy (Peel), who assisted in settling the camp, thought that a great many misleading statements about Kapuskasing had been allowed to be circulated. He also told of returned men who, after being in the country for a few months, insisted on sending for their families, well knowing their hardships they would have to undergo in that pioneer country. It was noticeable, too, that shell-shocked men were greatly benefited by their sojourn at Kapuskasing. Several such

LLOYD GEORGE LEAVES SATURDAY FOR CONFERENCE AT ST. ROMO

To Force "Show-Down" In Caucus at Ottawa

Government Loss in Timiskaming Said to Have Stirred Feeling Against Keid and Rowell, Who Are Blamed for Disorganizing Party.

Ottawa, April 8.—(Special).—A government caucus is being called for tomorrow morning. No reason has been assigned for this hurried conference of the United party, but it is attributed to the result in Timiskaming and the openly expressed dissatisfaction in the government ranks at the lack of organization and the failure of those responsible to institute a campaign of propaganda and a system of party organization.

Government members who assisted in Timiskaming claim the result is entirely due to lack of organization. They take some comfort in the failure of the Liberal candidate in a constituency in which 30 per cent. of the electorate is French-Canadian, but this is not much solace for losing a constituency that was represented by the late Hon. Frank Cochrane. Ontario members blame Hon. Dr. Reid and Hon. N. W. Rowell for the disorganization of their party and may force a show-down tomorrow. It is stated that the majority of the Ontario members would drastically restrict the political power of the minister of railways.

With this dissatisfaction the question of Sir Robert Borden's return has arisen, and members are dubious of the reports they receive from the cabinet on this subject. They claim it is time for a show-down, and say if they don't get it tomorrow, will force it within a few weeks.

OCCUPATION OF GERMAN TOWNS DISAPPROVED BY THE ALLIES CREATES DELICATE SITUATION

Authoritative Statement Issued in London After Explanation by French Ambassador to British Cabinet.

FRANCE ACTED TOO PRECIPITATELY

London, April 8.—After a long conference which the French ambassador, Paul Cambon, had with Premier Lloyd George today, and a full discussion of the Franco-German incident by the cabinet council, at which the French view was fully explained to the British ministers, an authoritative statement was issued to the effect that France acted entirely on her own initiative in deciding to occupy German towns, that Great Britain, the United States, Italy and Belgium were all opposed to the plan, and that France's action has caused a delicate situation.

The matter is under discussion of the British and French Governments and the hope is expressed that the situation may be eased by a joint declarative statement was issued to the effect that France acted entirely on her own initiative in deciding to occupy German towns, that Great Britain, the United States, Italy and Belgium were all opposed to the plan, and that France's action has caused a delicate situation.

U.F.C. WILL REMEDY RURAL DEPOPULATION

Statement by J. J. Morrison—Attacks System of Watering Industrial Stocks.

FARMER MOST HURT

Guelph, Ont., April 8.—(Special).—J. J. Morrison, secretary of the United Farmers of Ontario, delivered an interesting address at the A. C. conference of the members of the senior class, who are soon to write their final examinations, and a number of the faculty. He dealt with the organization of the farmers from its inception right up to the present, and referred to many of the problems which are confronting them today. Dr. Creelman occupied the chair and extended a hearty welcome to Mr. Morrison. A strong attack was made by the U. F. O. secretary on the system of watering industrial stocks and large industrial concerns being instanced where the consumers were forced to create dividends while the farmer who is a producer solely, has no watered stock. He doesn't begin to get the actual value for his farm if he were to sell.

He declared it was paying dividends on watered stocks which was depressing the agricultural industry. Agriculture was in a bad way, and must be put right. Reference was also made to the fact that people who work and raise large families are frowned upon, which he considered a tendency to penalize the man who raises a family. The population must increase or lose the race.

He declared that those who have the determination to face the greatest obstacles are the kind who will bring about better conditions, and this would be easier if all would work together. Mr. Morrison dealt with the rural depopulation of the country, which was altogether wrong, and it was the U. F. O. who were going to find the remedy. He went on to state that the debt of the rural population was only \$2 per capita, while that of the urban population was \$50 to \$100 per capita. The decrease in the rural population of Ontario was 16,000 per year, while the
