MAGNIFICENT MODERN MODES
MAKING MILLINERS MARVEL

"The Opening" Yesterday a Huge Suc-
cess in Both Wholesale and
Retail Showrooms.

That seasons come and go, and that
everything has its own appointed sea-
son, is evidenced just now by the signs
of the coming spring in the feminine
hat and the millinery.

On the opening of the latest display of
downtown stores and wholesale houses,
on exhibition, the milliners from out of
town places are by the dozens,
note-book in hand, jotting down the ar-
tistic arrangements, the material and
general make-up of the latest Parisian
innovations, which, in the course of a
few weeks, will be reproduced from
memory, aided by the notes, to give to
provincial femininity that one desirable
thing of all others—the latest style.

There is much to be admired in the
colors and shapes this year. The millin-
ery artist has all kinds of designs, and
thrusts around the features of her sub-
ject. And such a variety of tints,
shades and accessories, that she also
shows some pigments at her command
than the average portrait painter.

The R. R. Co. is not the only one
who is very beautiful. The new shade
is seen in three tones at the Robert
Simpson Company's display, and a name
used in France to denote the
egg plant, the amethyst hues of which
are characteristic of this shade. These
three tones blend beautifully and give a
rich coloring to the hats. The Robert
Simpson Company have arranged their
display to a very large extent. In cases
of self-colors, that various styles
seen in many other places, are in
display. These colors are the most
popular this year, but, of course, there
are many other styles. Black has
almost gone out altogether. The
deepest black is lightened up with
white in shades of the face. The
call, Art nouveau designs are pre-
ferred to the straw cowpals. Much
tinted straw is used. This is judicious
ly combined with white, and the effect
is excellent. It is surprising what
excellent color of
faint rose and so on, and the past
shades so much in vogue this season.

One hat particularly noticed was by
Madame Germaine. It is a model
in amethyst coloring, being a lace straw
hat with a wide, amethyst ribbon, and
in amethyst shades. Soft ribbon
silver and pearl clasps and straw cow-
pals are used in the trimmings. In the
pattern that the principal feature is
the treatment of the cowpals. The
new up into ruffles. The cowpals
is a chic correction. The shape of this
hat is very new. The position on the
head is the newest. The crown is
depressed in front and high behind,
where a novel bow, held by meso-
buckle, gives character to the shape.
The demimour is a conservative
hat for any season of the year, and
is made up of such materials as cloth,
silk or Panama, trimmed with
ribbons of ribbon.

The Robert Simpson display is en-
hanced by cases showing the new
fashions in varied assortment, also ribbons,
and other things needed by the milliner.
Towards of 200 palms are placed among
the millinery display, and the display
of singing cowpals, while amusing

DR. HAMILTON
CURES RHEUMATISM

You Use His Mandrake and But-
ter-Pills—He Guarantees a Lasting
Cure.

Rheumatism begins and ends in the
blood, which at no time is ever free
from poison. But if the kidneys are
healthy, they will filter out the wastes
and poisons.

In case of rheumatism, the kidneys
are not doing their work. As a result,
the system is clogged with the waste
and cause pain almost akin to tort-
ure.

There can be no cure, no permanent
relief until the kidneys are stimu-
lated. First get into working order.
For this purpose Dr. Hamilton's Pills
excel all other remedies; they heal and
strengthen the kidneys as they are
renewed by Dr. Hamilton's Pills.
The poisons depart from the blood and
all trace of rheumatism disappears.

No Case is Too Chronic to Yield to the
Marvelous Influence of Dr. Hamilton's
Pills.

For nearly three years experi-
menting with rheumatic remedies,"
writes Geo. E. Sunbury, of Portland, "I
tried the matter among the dealers.
There are now about 200 cures of
rheumatism, and the increase of over 200
percent of them are sold to be union
cured."

To CURE A COLD IN ONE DAY.
Two Luxative Brown Pills are
all that is needed. If it fails to
cure, E. W. Grove's signature is on each
box. 25c.

"Don't Experiment—Just Buy a Ford"

The ladies did not seem to mind, how-
ever. G. Goulding & Sons, there is a
continual stream of visitors. G.
Goulding & Sons, who have been in
their new warehouse since January,
only got the workmen out last week.
Their new showrooms are equal to
anything in New York, and are fitted
up with art furniture and decorations
such as Turkish screens, Egyptian
and Indian bronzes, and carvings of
various descriptions. The large room is
arched with dark oak and the settees
and chairs are of the same character.
Miss Whitton, the head milliner, was
kept busy showing the latest creations.
The strong colors are violent pink, olive
green and mulberry shades, and there
are some very pretty light blues. In-
deed it is correct to say that all the
fashionable colors this year are light
colors. One pretty novelty seen there
was a polo turban of forget-me-not in
the two shades mauve and blue. An
other useful as well as stylish, but was
made of linen embroidered, to go with
wash dresses and will be the coming
thing in the hot months. It was trim-
med with pastel blue. Another novelty
this season are the ribbon roses in
different shades on brown panamas.
They are bunched in clusters. A pretty
corset is a combination of panama and
cerise. The colors are ravishing. A
lovely combination is a sort of double
hat with their top and pale blue
lower part. It is lit up with clusters
of American beauty roses. The dis-
play in these rooms should be seen to
be appreciated.

The new premises are large and com-
modious. About two hundred women
are engaged in millinery at this firm's
premises, and the work turned out is
truly artistic. The two lower stories
are given to a display of the various
creations, the newest tins, flowers,
silk and everything needed in the
millinery art. Goulding & Sons have
risen from the fire, into premises which
are a model for business, comfort and
even luxury.

W. R. Brock & Co. are experiencing
the first spring opening in their new
quarters at the corner of Bay and Wel-
lington streets. There is a large amount
of floor space and the goods are dis-
played in row after row, between which
are wide aisles. The light is a very
feature. It is thrown from three sides
and enhances the display of wares.
These windows are wired glass, and are
guard in case of fire. Those on the lane
are protected by water curtains and
thrust is a sprinkler system. The
shipping department is a model. It is
on the ground floor, and when goods
are packed there is no elevator needed
to remove them from room to room.
The receiving express and freight rooms
are at one end of the shipping annex,
and the packed goods are sent out from
the opposite end on Piper-street. The
passenger elevator is the only one of
its kind in Canada. It is enclosed in
glass windows from the first floor to
the fifth.

On the first floor are displayed the
dress goods. In silks the display ap-
pears to be checked and shot effects. There
are some pretty check Louisiana and
shot effects. A special thing is a pure silk
taffeta that can be relied on. There are
also tartans and plaids for dress goods.
The biggest thing, perhaps, is mohairs
of all kinds, and Sicilian
lustrous. In tweeds there is an en-
tire variety. On the top floor is a won-
derful variety of house furnishings, such
as carpets, oil cloths, art draperies, de-
corative, etc. These draperies are new
French importations and are close imi-
tations of the silk rep. The colorings
are perfect and cannot be detected from
silk, except by touch. The staple de-
partment, lower down, the elevator
opened well the first day. Prices are
being formed and there is not a likeli-
hood of any drop.

"Her Ladyship" Novelties.
On the third floor is "Her Ladyship"
ready-to-wear goods, showing a full line
of fancy tweed overcoats, also hats and
Panama cloths. The latter will be
much in demand and of the former large
sales are reported. There are also sev-
