

“ the Society has made a grant of £500 to the University shortly to be established in Upper Canada, and that the sum so granted will be laid out in the purchase of theological works, to be approved of by the Society ‘ for the use of the Students.’ ”

YOUR Committee cannot help recommending the propriety of establishing a parochial library, which will afford to the destitute members of the Church, access to the writings of our best divines, and will be one great means of affording that spiritual sustenance of which too many are destitute, and which, by the blessing of Providence, may be to them “ a well of water springing up into everlasting life.”

YOUR Committee regret, that from the want of a parochial church, and other obstacles, the Sunday School has not proceeded with any degree of regularity, and that it has fallen through; but hope, that in the accommodation which the new Church will afford, an institution which is of so much vital importance to the eternal interest of the rising generation, will meet with general support; and under the fostering hand of the District Committee, will again flourish and be permanent. The incitements to the furtherance of this object are so apparent, that every member must feel a personal interest in its advancement, and will endeavour to procure for the children a religious education; in which laudable service we are assured we shall have our reward, and “ that he who saves a soul from death shall cover a multitude of sins.”

THE expenditure of your Committee for the past year is £31, leaving a balance in the hands of the Treasurer of £6; but your Committee are indebted to the Parent Society, for Books already received, £18, 9s. 2d. sterling, exclusive of expenses of transport, &c. which must be remitted on their next application for a further supply.
