OAK HALL MAKES ANNOUNCEMENT OF SPECIAL INTEREST

After months of careful study of existing market conditions, watching with interest the tremendous sacrifice of men's clothing going on all over the United States and hearing of many Canadian manufacturers receiving cancellations of large orders from merchants who have been panicky, Oak Hall are today announcing that these indications do not point to a permanent lowering in price of clothing, because both spinners and manufacturers of cloth are still over twelve months behind in deliveries, many of them refusing to accept any orders at all—the demand is still far in excess of the supply, and there are many other good reasons why the price of clothing at the present time cannot take a permanent drop.

The Oak Hall clothing buyer was in Montreal a few days ago, and understanding these conditions, decided to take advantage of the many cancellations that had been given to manufacturers and finally to make a radical price concession. These have now been received in St. John, and the big savings are now being sold at 25 to 35 per cent below the price of the goods as they were being sold in Montreal. This is the biggest suit offering ever made in St. John.

Every one of these suits is backed by the Oak Hall guarantee, there is no luxury tax to be paid, the price represents a saving of \$3 to \$10. Regardless of present surface conditions prices are not going to be any lower next fall. If you are wise you'll take advantage of this sale now.—The Oak Hall windows will tell you a whole lot; look them over.

PROHIBITION ONLY CURE FOR BARS

In certain quarters it is stated that, in the event of the prohibitory law not being retained, there will be no return to bars. In answer to this it might be said that, if the sale is legalized, liquor will be procurable some place or places that will take the place of bars. It is impossible to dodge the issue, and if the voting against the principle of prohibition means a setback of many years.

If one does not wish the temptation and misery of liquor to continue it is absolutely essential to vote on July 10 in favor of prohibition.

HAS NO PAIN NOW

What Lydia E. Pinkham's Vegetable Compound Did for Mrs. Peasey of London.

London, Ont.—"I suffered with periodic pains, was weak and run down, could not eat and had headaches. The worst symptoms were dragging down pains so bad I sometimes thought I was going crazy and I seemed to be anything. I was in this condition for two or three years and could not get any relief. I tried all kinds of remedies but failed. I found one of your booklets and felt inclined to try Lydia E. Pinkham's Vegetable Compound. I received the best results from it, and now I keep house and go out to work and am like a new woman. I have recommended your Vegetable Compound to my friends, and if these facts will help some poor woman use them as you help me. Mrs. J. F. PEASEY, 200 Rectory Street, London, Ont.

The reason women write such letters to the Lydia E. Pinkham Medicine Co. and tell their friends how they are helped is that Lydia E. Pinkham's Vegetable Compound has brought health and happiness into their lives. Freed from their illness they want to pass the good news along to other suffering women that they also may be relieved.

If there are any complications you do not understand write to Lydia E. Pinkham Medicine Co., Lynn, Mass.

Cocoon Oil Makes A Splendid Shampoo

If you want to keep your hair in good condition, be careful what you wash it with. Don't use prepared shampoos or anything else that contains too much alkali. This dries the scalp, makes the hair brittle, and is very harmful. Just plain refined cocoon oil (which is pure and entirely greaseless), is much better than anything else you can use for shampooing, as this can't possibly injure the hair. Simply moisten your hair with water and rub it in. One or two teaspoonfuls will make an abundance of rich, creamy lather, and ceases the hair and scalp thoroughly. The lather rises out easily and removes every particle of dust, dirt, dandruff and excessive oil. It leaves it fine and silky, bright, fluffy and easy to manage.

You can get multifid cocoon oil at most any drug store. It is very cheap and a few ounces is enough to last everyone in the family for months.

If He Died-- The Business Would Die

How often have you heard some such statement made about a particular business? It means—that one man, either through technical knowledge, or through his ability as an executive, controls, for the time being, the destiny of the firm. If he died, creditors would become anxious, inquisitive or even troublesome. Many contingencies might arise to threaten the stability of the business.

Unless—his life was insured in favor of the firm.

It is possible to so insure "The Firm" that the storm can easily be weathered and the business successfully carried on without him.

The matter is very clearly dealt with in a book we have published, entitled "Personality in Business." It would be well worth your while to send for a copy and read it. You may have one for the asking.

THE SALE OF STAMPS.

The Editor of the Times, Sir—It has been brought to my attention that a large number of merchants and several hotels are furnishing their patrons with postage stamps without the necessary authority to do so. The Department has advised me that as this is in direct contravention of postal law and regulations punishable by a heavy fine, this is not permissible. On the recommendation of the postmaster suitable provision is made to obtain license or a permit to deal in their necessities, so all are requested to recognize the reasonableness, as well as the necessity, of upholding what is required and govern themselves accordingly and abstain from dealing in stamps without such license or permit.

Yours very truly,
EDWARD SEARS, Postmaster.
