NEWS NOTES FROM NORTH END OF CITY

Rev. M. E. Conran, M.A., will occupy the pulpit of Portland Methodist church for the first time tomorrow as pastor. He is a native of Chesley, Ontario, and comes to St. John well recommended, after a successful leadership of the Calvary Methodist church in Hamilton, where he has been since his ordination. This is only his second charge. During his pastorate of Calvary church, which is situated in East Hamilton, Mr. Conran set to work with the idea of building a new church, which was greatly needed, and after three years of arduous work succeeded in having a church erected and dedicated. It has a seating capacity of 1,000.

Mrs. Conran, wife of the new minister, is a woman of charming personality, and has already begun to make many friends among the congregation. She was formerly Miss Rose Shore and was an evangelist of fame. She was well known throughout Great Britain and also preached through Canadian cities, where she was known as the "girl preacher."

Preliminary work has been begun for the paving of part of Main street, near Mill street. It is to be paved on the north side with granite blocks, similar to the pavement which was laid a few years ago on the other side of the street, and which proved so satisfactory. Satisfaction is expressed by merchants along that side of Main street on learning that the blocks are to be laid, and when the work is completed, the lower end of the street will be in excellent condition.

Work on the retaining wall for the reconstruction of what is known as the "dumpp," at the foot of Victoria street, is progressing favorably and a crew of men employed to rush the work along. The filling has also begun and a novel idea is being carried out, filling the old wooden blocks which are being taken up from the street, where the new pavement is being laid. This will also be filled with rubbish from the street and yards of Victoria street. Commissioner Potts visits the work nearly every day and gives suggestions and directs the work.

The strawberries season this year was very late and the crop also will be very short. The wholesale price at the Indian's boats advanced yesterday afternoon and the luscious fruit was selling for twelve cents a box by the crate. The price advanced owing to the fact that many persons were looking for berries. It is thought that the supply will soon begin to decline.

ROBBING WOMEN OF THEIR HEALTH

Anemia Unless Checked Passes Into Hopeless Decline

Anemia is like a spectre that steals on you unawares and drives all happiness out of existence. It is a thief that robs you of your life and energy. Thousands of women in this country are the victims of anemia (that is, bloodlessness), which spares neither rich nor poor, young or old. It robs women of their health, her vitality, her beauty—of everything that gives a woman her charm. The chief symptoms of this trouble include a distaste for food, prostrating headache, extreme languor, loss of weight, nervousness, pale cheeks, lips and gums, heart palpitations, dizziness and a constant feeling of weakness.

The only way to effect a cure is to increase the blood supply, to make it rich and red. Dr. Williams' Pink Pills have saved thousands of young girls and women from the early fate that threatens them through anemia's ravages; for these pills enrich the blood, stimulate the circulation, nourish the nerves, and restore the energy and perfect health that make women attractive. If you are a victim of bloodlessness in any way, do not let it run into a hopeless decline, but begin the use of Dr. Williams' Pink Pills today. The following bit of evidence proves the worth of this medicine. Mrs. Maurice Sims, Liverpool, N. S., says: "Dr. Williams' Pink Pills have changed my life. About two years ago I was so badly run down that I had to give up all work and go to bed. My husband and parents were much worried about me as they thought I was going into consumption. The doctor who was attending me changed his medicine several times, but it did me no good and I began to feel very much discouraged myself. One day a friend advised me to try Dr. Williams' Pink Pills and I decided to do so. In a few weeks I felt much better and I continued taking the pills for a couple of months until I was again in perfect health. I believe that if I had not taken Dr. Williams' Pink Pills I would not have survived, and I shall always be very grateful for what they have done for me."

You can get these pills from any dealer in medicine or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

PREMIER FORCED TO ADMIT THAT HE KNEW W. H. BERRY WAS COLLECTING THE FUND

(Continued from page 5).

with the Partington company. They had been classified, in B. I. think. Mr. Robinson's leads were of a different class and we could not exact a different for from them on the same block. The Partington Company asked that this be made the same as their other holding and we did so.

Q—Then you did reduce the classification on lands in which James Robinson was interested?

A—Perhaps, under those circumstances.

Q—How many times did you talk over this fund with Mr. Teed during the next few weeks?

A—I could not say.

Q—Many times?

A—I could not say.

More Questions.

Mr. Carvell was asking the witness as to how many times he had spoken to Mr. Teed about the matter, when he objected to answering again.

Mr. Carvell—He is purposely evading the answer because he knows what I am coming to.

Q—You admit that you had a conversation with Mr. Teed, after he received the \$22,000 in St. John?

A—Yes, I did.

Q—What did he tell you on that occasion?

A—He told me he got certain money in St. John; that is why I got the information about the one amount of the Bathurst Lumber Co.

Q—It is in evidence that Mr. Teed received \$18,000 from Mr. Beatty on July 15; did Mr. Teed tell you about that?

A—No, I don't think he did tell me that.

Q—And you never knew that Mr. Beatty paid \$18,000 until you heard the evidence here?

A—I never knew it until I either heard it in the newspaper.

Q—Did you have a talk with Berry about these contributions?

A—Yes, very little conversation about it at all.

Q—Did you ask Mr. Berry what he was doing in Chatham when Mr. Teed was there and did not tell you that they went there for the money?

A—No, I don't think I did.

There were objections by counsel to the questions.

Mr. Carvell—Mr. Berry was an official of your department under your instructions?

A—Yes, doing his duty.

Q—Did he think things that were not his duty as well?

A—He did do very little as well as his duty.

Q—Did you ever meet him in Fredericton?

A—Yes, frequently.

Q—After June 27, 1913?

A—Yes.

Q—Did Mr. Teed tell you of being in Chatham on that occasion?

A—Yes.

Q—Did you ask him what he was doing in Chatham on that occasion?

Mr. Teed was in a position to get that. Outside of the information that came to me from Mr. Teed about the Partington Pulp & Paper Company having contributed something and the Stetson Cattle Company I don't know about any other.

Q—You told me a little while ago that you did not know that the Stetson Cattle Company contributed anything?

A—I said I did not know it was \$18,000.

Q—Then you believed they contributed something?

A—I thought they had.

Q—Didn't you know it? Didn't Mr. Teed tell you something?

A—I am not sure about it, but he may have.

Q—Now you say you knew they contributed something. I want to know from what source you had it?

A—It is likely Mr. Teed. I had the impression in a general way from conversation that they had contributed something.

Q—That is a distinct advantage. Were you surprised when Mr. Beatty said he paid \$18,000?

A—Well, I was not greatly surprised. I did not know that he had contributed.

The Same Amount.

Q—Was not that the exact amount that George Cutler mentioned to you?

A—It is the same amount, though they had no connection one with the other.

Q—Did Mr. Berry ever tell you that some of the lumbermen were afraid to contribute?

A—No, sir. I don't remember that statement.

Q—Did Mr. Berry say the lumbermen in Chatham had consulted H. A. Powell professionally as to whether they would be criminally liable if they contributed according to Berry's demand?

A—No, sir.

Q—This is the first instance that you have heard that statement?

A—Yes, the very first.

Q—Did Mr. Powell ever tell you that these men had come to him professionally as to their legal rights?

A—No, sir.

Q—Did James Robinson?

A—And you never heard that these lumbermen were afraid, that they were liable criminally for what they might be doing?

A—No, sir.

It is all news to you?

A—Yes.

Q—Do you believe this money was a voluntary contribution?

A—Yes, from the evidence of most of the witnesses.

Q—Do you believe it was voluntary from all of them?

A—No, sir.

Q—The evidence did not sound as if it was?

A—No, sir.

Q—Do you believe Mr. Rundle contributed voluntarily?

A—No, sir.

Mr. Teed objected to the question. After considerable argument the question was put to the witness.

Q—Do you believe it was voluntary from all of them?

A—No, sir.

Q—The evidence did not sound as if it was?

A—No, sir.

Q—Do you believe Mr. Rundle contributed voluntarily?

view one and a half dollars prior to June 27?

A—I may or may not.

Q—Did you tell him that before June 27?

A—You did not ask me that.

Q—Did you tell Mr. Berry that you view before June 27?

A—I may or I may not.

Q—Is that the best you can do?

A—I do not know that I had a conversation.

Q—Did you or not tell him your view before the 27th day of June?

A—I cannot answer that question, yes or no.

Q—Will you swear you did not?

A—No.

Q—Did any of the lumbermen come to you about it?

A—No, sir.

Q—This was something that you were told for some considerable time because we made four new leases last year but I think Mr. Burchill, Mr. Ritchie and I am not sure, Mr. Robinson, called attention to it not being stated in the licenses about the continuance of the rate of stumpage.

Q—Is that the first time they approached you?

A—I had had communication with some of the lumbermen before that.

Q—Did you have a conversation with Mr. Robinson in the Barker House before that? About the ten years?

A—It is quite likely but I don't recall that.

Q—Didn't you promise Mr. Robinson that you would attend to it that afternoon?

A—I don't remember.

Q—And as a result of your not attending to it a delegation came to see you?

A—I don't know about that.

Q—Did not Mr. Robinson tell you in no uncertain tones that it had to be passed?

A—No. What do you mean by "No uncertain tones"? If he had told me so should have said it was a matter for the council. I have no recollection of having spoken about it except in an ordinary way. There was no discussion about it.

Q—You don't think that under the rules of the legislature you had the legal right to refer to it before Thursday?

A—No.

Q—Do you now think you had not?

A—I do not know.

Q—You still persist in saying that you did not know the rule of the house on that subject?

A—I do not know that under a question of privilege it is different from the ordinary.

The royal commission adjourned at this point until Monday at 2 o'clock.

NEW NORTH SHORE RAILWAY

The Miramichi Bay Shore Railway Co., Ltd., have been successful in interesting capitalists to the extent of having men engaged to go over the route from Newcastle to Tracadie and make an estimate of the cost of the proposed new line of railway between these two points, which will connect with the Carleton Place and Gulf Shore Railway now running from Bathurst to Tracadie. These men have been working on the route for the last ten days, and will complete their estimate in the course of a few days.

The company hopes to be successful in having arrangements completed in time to have a complete survey of the route between Newcastle and Tracadie completed before the close of the season.

MRS. BEIDEL TELLS WOMEN

How Lydia E. Pinkham's Vegetable Compound Kept Her in Health for 14 Years.

Shippensburg, Pa.—"It was several years ago that I started taking Lydia E. Pinkham's Vegetable Compound. I then suffered terribly every month. My husband bought me a bottle of it and it helped me right away. Then after my second child was born I had a female trouble very badly and I used Lydia E. Pinkham's Vegetable Compound and in a short time was cured and have been in excellent health since. I always praise the Compound whenever I have an opportunity as I know it helped me and will help others. I have given the Compound to my daughter and I wish all suffering women would take it and be convinced of its worth."—Mrs. JAMES A. BEIDEL, 113 N. Penn Street, Shippensburg, Pa.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotic or harmful drugs, and to-day holds the record of being the most successful remedy for female ills we know of, and thousands of voluntary testimonials on file in the Pinkham laboratory at Lynn, Mass., seem to prove this fact.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.
