

"No Cards," is the frequent announcement to the marriage notice; and now comes "No Carriages," to the funeral notice. Why not? A great funeral, in these latter days, has become more expensive than a marriage, and a marriage often costs enough to start a young man in a prosperous business. The pomp and show that leads to the grave, where the flowers displayed are only more perishable than the garments worn, and are a sad commentary on human fashion and human ambition.

The discovery has just been made, at Rome, on the Esquiline Hill, of some enormous ancient vessels in pottery ware, the largest ever found, and of such a size that a man could easily live in one. The fact is therefore clear that the famous tub of Diogenes was not made of wood, but of earthen ware, as is, in fact, implied in the passage of Juvenal.

A lady of the shoddy aristocracy at St. Joe found, on returning from a walk, some call cards on her table. She called a servant in great haste, saying, "John, John, take these and run quick! them ladies is forgot their tickets."

"Tom," said a colonel to one of his men, "how can you go and brave a soldier as you get drunk so often?" "Colonel," replied he, "how can you expect all the virtues that adorn the human character for sixpence a day?"

Why the Valve Jar is Superior to all Others for Preserving Fruit.

1. Because it is the only one in which the contents can be securely fastened, and cooked while thus fastened, without risk of an explosion.
2. It is the only one that is Automatically Sealed, therefore, the only Seal-Sealing Jar in the market.
3. It is so simple that no skill is required to use it successfully.
4. It is securely fastened when placed in the kettle, and being immersed, the fragrance of the contents is confined in the Jar, a more perfect vacuum produced and the handling of the hot jars entirely avoided.
5. It is well known that fruit Jars which are closed with rigid fastenings burst by fermentation, and the effect upon the closet and surrounding well understood by many housekeepers.
6. The cover of the Valve Jar is of a perfect safety valve makes an explosion impossible, and entirely obviates every difficulty that exists in other fastenings. For sale by
