### Four Native Regiments Have Been Ordered to Proceed at Once to China.

### Force Marching on the Chinese Capital Numbers Twenty Thousand Men.

### Li Hung Chang Attempts to Stop the Advance of the Allies.

(Associated Press.) London, Aug. 2.—Because of the fact that the Chinese agents at the principal European cable points are in free cipher communication with the viceroys, the foreign commanders at Tien Tsin have put an embargo on news concerning the size and composition of the forces advancing on Pekin.

Neither the English nor the foreign office have intelligence from Tien Tsin later than Friday, July 27th.

Telegrams from Hongkong and Shanghai indicate that restlessness is increasing in southern China, and the German mission at Nanchow has been destroyed and the native city of Wu Chow is no longer considered safe for foreigners.

At the Bogue forts target practice is going on.

At Canton the authorities are enlisting recruits at \$9 a month, twice the usual pay. Proclamations sent to the recruiting stations threaten officers who desert and the troops.

An agency at Shanghai says that Li Hung Chang has asked United States Consul Goodnow whether or not, if he were placed in communication with the minister at Pekin, the powers would suspend the advance. Mr. Goodnow, the report adds, replied that he would ask the Washington authorities.

A third brigade was ordered to China from India to-day. It consists of four native regiments, 6,000 men.

A news agency dispatch from Tien Tsin, July 25th, reports that Lieut.-Gen. Linevitch has succeeded Admiral Alexieff in command of the Russian forces there. The Russians, the dispatch adds, were constructing armored trains in Tien Tsin shops and intended reconstructing the railway as fast as the column should advance toward Pekin.

The Advance.

Shanghai, Aug. 1.—The allies advanced toward Pekin to-day. It is estimated that the expedition numbers 20,000 men of all arms with 100 guns. It is hoped to reach Pekin on August 12th.

Reported Repulse of Japs.

New York, Aug. 2.—From Tien Tsin, under the date of Sunday, says a Chee Foo cable to the Herald, comes a report that the Japanese vanguard has been repulsed with a loss of a hundred and fifty killed and wounded.

Seymour Starts for Nankin.

Shanghai, Aug. 1.—Admiral Seymour, on board the British dispatch boat Alacerty, started for Nankin today to consult with Liu Luan Yi, viceroy of Nankin. Admiral Seymour wired the viceroy of his intended visit, and Liu Kun Yi replied: "Am unwell and cannot see you." Admiral Seymour insisted upon making the visit, and the viceroy responded by wire: "I am instructing a warship to proceed down the river to escort the Alacerty to Nankin in case of a misunderstanding in passing the forts."

It is reported that 50 missionaries have been massacred in the Shan Si province.

Li's Promise.

Paris, Aug. 2.—The French consul-general at Shanghai telegraphs to-day as follows: "Li Hung Chang has stated to the United States consul that the ministers would be put in communication with their governments if the allies arrest their march on Pekin."

"Chang is yet unable to secure a reply to the message in his care to M. Pichon, the French minister in Pekin, as the Tsung Li Yamen will not consent to the forwarding of cipher messages for the ministers."

"It is asserted that the foreigners within the Imperial city and the consular corps have decided to entrust the defence of the concessions to the international naval forces."

British Commander.

Tien Tsin, July 27, via Shanghai, Aug. 1.—Gen. Sir Alfred Gaselee arrived here and assumed command of the British forces to-day.

Situation at New Chwang.

Shanghai, Aug. 6.—Admiral Alexieff has gone to New Chwang, where the position of the Russians is regarded as serious.

Routed by Russians.

St. Petersburg, Aug. 2.—The official messenger says: "Gen. Grodekoff, under the date of Wednesday, August 1st, telegraphs as follows: 'The Chinese positions at Hung Hun was stormed by Gen. Augustoff on July 30th, thus relieving the post of Novokrivskojko and Postja. Many guns were taken. The Russian loss was two officers and six men killed and four men wounded.'"

Missing.

London, Aug. 2.—The Chinese Inland Mission received the following cablegram from the Rev. F. W. Stevenson, to-day: "Shanghai, July 31.—Probably Misses King, Burton and Rasmussen and Mrs. Cunnells have been murdered at Ho Shan, province of Shan Si. There is a local rebellion in the Ningpo district, and the workers, who are two married couples and four single ladies."

# SIFTON MURDER TRIAL.

(Associated Press.) London, Aug. 2.—The Sifton murder case was reopened yesterday. Morden, the witness who gave damaging evidence against accused on Saturday was recalled and cross-examined. He declared Gerald Sifton offered him \$1,000 to destroy his father (Joseph Sifton), but he refused. The case was resumed this morning when Morden's cross-examination was continued. Mr. Hellmuth, Q.C., counsel for defence, endeavored to develop that the Morden family were conspiring to injure Gerald Sifton, because the latter would not give them money. Mr. Hellmuth succeeded to some extent in shaking Morden's evidence by forcing the latter to declare that he (Morden) sent his cousin Martin to get the will with the object of procuring information about Miss McParlane, whom the elder Sifton was engaged to marry. Morden was still on the stand when the court adjourned for lunch.

# Leaders Surrender

### Four Thousand Prisoners Are Now in the Hands of Hunter and Bruce Hamilton.

### Supply Train Derailed—Thirteen Men Killed and Thirty-Nine Injured.

Lorenzo, Marquet, Aug. 1.—The Beers have evacuated Machoboro, and it is reported are preparing to retreat to Lydenburg, to which place they have completed telegraphic communication.

A correspondent with General Hunter's force at Slapkrans says: "The Winburg and Senekal commandoes are now arriving, about 600 men. General Bosh's force arrived and also a commando of the Wepener commando. It will take days to get all this. There is a continuous stream of wagons for seven miles up the valley road. All the leaders have surrendered. The prisoners include foreign artists."

From Lord Roberts.

London, Aug. 1.—Lord Roberts has telegraphed to the war office as follows: "Pretoria, Aug. 1.—Hunter reports 1,200 more prisoners surrendered yesterday with Commandants Rouse and Fonteneil; whilst Commandants Depey, Fretzler and Joubert surrendered to Bruce Hamilton, who collected 1,200 rifles, 650 ponies and 1 Armstrong gun. Lieut. Anderson, a Danish officer, in the Staats artillerij, also surrendered."

"Oliver, with five guns and a number of burghers, broke away in His Majesty's direction, but Hunter expects the total prisoners will amount to 4,000."

"An unfortunate accident occurred near Frederikstad, on the Krugersdorp-Potchefstroom railway. The enemy had torn up the rails, and a supply train, escorted by the Shroshires, was derailed, thirteen being killed and 39 injured, although a special patrol had been ordered to prevent trains passing. A special inquiry has been ordered to ascertain why the order was disobeyed."

Favor the Boers.

London, Aug. 2.—The Daily Telegraph, on the authority of its Capetown correspondent, asserts to-day that documents of the highest importance, emanating from England, have been discovered in Pretoria, implicating members of the House of Commons and other prominent persons in England who have agitated in favor of the Boers. It says that startling developments may be expected shortly.

The First Contingent.

Ottawa, Aug. 1.—A cable from Colonel Otter to-day states that 700 men of the first contingent are now effective. On June 22nd there were 40 men in hospital or sick, and only 434 effective.

Canadians With Baden-Powell.

Kingston, Aug. 1.—The belief prevails in Kingston that "C" Battery of the R. C. F. A. is now at Rostenburg, where General Baden-Powell is besieged by the Boers.

Displeased With Imperial Officers.

Ottawa, Aug. 1.—Sergeant Holland, of the Maxim gun squadron of the first Canadian contingent, writing home, says the Canadians at Pretoria are somewhat displeased at the action of Imperial army officers in reserving the best rooms of the hotels there for their own use, and thus excluding privates. He calls a number of the subordinate officers of the Imperial service "cads," and instances the case of a lieutenant whom he saluted but the officer ignored the salute, but Holland says he saluted Lord Roberts, who courteously responded.

A MOTHER TELLS HOW SHE SAVED HER LITTLE DAUGHTER'S LIFE.

I am the mother of eight children and have had a great deal of experience with medicines. Last summer my little daughter had the dysentery in its worst form. We thought she would die. I tried everything I could think of, but nothing seemed to do her any good. I saw by an advertisement in our paper that Chamberlain's Colic, Cholera and Diarrhoea Remedy was highly recommended and sent and got a bottle at once. It proved to be one of the very best medicines we ever had in the house. It saved my little daughter's life. I am anxious for every mother to know what an excellent medicine it is. Had I known it at first it would have saved me a great deal of anxiety and my little daughter much suffering. Yours truly, Mrs. Geo. F. Burdick, Liberty, R. I. # Royalties In Danger

### Attempt Made to Murder the Shah of Persia in Paris To-Day.

### Man Armed With Revolver Tried to Break Through the Guards.

### King Humbert's Murderer Says It Will Be the Czar's Turn Next.

(Associated Press.) Paris, Aug. 2.—An attempt on the life of the Shah of Persia was made this morning, but luckily it resulted in no harm to His Majesty.

A man broke through the line of policemen as the Shah was leaving his apartments and tried to mount the royal carriage steps. He was seized and placed under arrest. He held a revolver in his hand, but as soon as his intention was divined the police disarmed him before he was able to fire.

At the police station the man expressed regret that he had been unable to carry out his intention. He said: "This is an affair between me and my conscience."

Later Particulars.

Paris, Aug. 2.—It was 9:15 when the carriage of the Shah emerged from the court of the Sovereign's palace with the Shah and his Grand Vizier seated inside, opposite Gen. Farent.

A crowd of 90 people witnessed the attempted assassination and at once made a rush toward the would-be murderer. The police, acting as a guard of the Shah, however, prevented the mob from doing violence to the miscreant.

The prisoner was taken to the police station.

This afternoon the Shah carried out his programme for a trip down the Seine.

The would-be assassin declines absolutely to give his name or nationality. He speaks a little, and that with a southern accent. The police believe him to be an Italian. He is about 28 years of age. Just before starting from the palace, the Shah received a letter, dated from Italy, signed with an Italian name, but posted in Paris, announcing that he would believe the man who attacked the Shah was not alone in his effort.

The whole police department is at work on the case.

# A WARNING.

### Substantial Fine Imposed for Abusing a Horse.

A warning to those who believe that they may abuse their animals with impunity was conveyed in the police court when, through the efforts of President Dallain, of the S. F. C. A., John Bull, Elk Lake, was fined \$35 or a month's imprisonment, and one of his drivers, R. Nicols, \$2. The latter was warned at the same time that he was equally liable with the owner.

The case has already been described, and consisted in driving an animal whose shoulders were raw, and employing it to draw cordwood.

Lindley Crease, honorary counsel of the S. F. C. A., conducted the prosecution for President Dallain, and Dr. Hamilton and Mr. Dallain gave evidence.

# A Very Bad Example

### Almost a Split at the Inter-Parliamentary Peace Congress.

### Trouble Was Averted by the President Calling for Vote on Resolution.

(Associated Press.) Paris, Aug. 2.—An unpleasant split in the Inter-Parliamentary Congress for Peace Arbitration was narrowly avoided at to-day's sessions.

M. Dorand, speaking of the impotence of the Hague conference, as there had never been more wars than at present, protested against the war in the Transvaal, and expressed astonishment that the request for arbitration made by the South African Republic had not found an echo in Europe.

Lord Stanhope, one of the English delegates, immediately rose and stated that the friends of peace in his country had done everything possible to prevent the war, adding that it would be impossible for representatives of England to participate in a discussion implying the least blame on England.

The presiding officer tactfully turned the impending storm by calling for a vote on the following resolution, which was adopted: "This congress, acting on The Hague resolutions, expresses its gratitude to those contributing to the results, in the firm hope that the powers will not neglect in the future to utilize the means at their disposition for the appeasement of international conflicts, and its regret that they have not been able to do so."

IN THE SUMMER

Of life a woman may find herself fading and failing. She doesn't understand it. She goes to doctors, who treat her for one or for that, but she gets no better. She grows faint and pale. She can just "drag about the house," but has no pleasure in life. Many such women have taken advantage of Dr. Pierce's Great Peppermint Cure. It is a free consultation of free consultation by letter, and have been restored by Dr. Pierce's treatment to perfect health. There is no more wonder for women than Dr. Pierce's Favorite Prescription. Its action upon the womanly organs is at once apparent in the decrease of pain and the increase of strength. It cures female weakness and such diseases as take away the strength and beauty of women.

Sick women are invited to consult Dr. Pierce by letter free. All correspondence should be addressed Dr. R. V. Pierce, Buffalo, N. Y.
