When the Springfield Failed to Take Them On Board at the Wharf

Last Evening.

A large party of citizens who spent Sunday at Westfield were sadly disappointed last evening when the steamer Springfield appeared opposite the wharf gave a few toots on her whistle and proceeded on to Indiantown leaving the people on the wharf. It is the custom to signal the steamer by waving a white flag and when the Springfield hove in sight this ceremony was conscientiously gone through. The man at the wheels headed the boat for the wharf and the would-be passengers felt sure that the steamer was coming in. When about thirty feet from the landing, however, the captain appeared on the deck, shouted some words to those on the wharf and headed his boat for the opposite shore where he picked up several passengers. The boat them steamed on to Indiantown. The people at Westfield were left in the rain and biting winds and did not reach the city until this morning. It is thought that the captain did not consider it safe to bring the steamer into the wharf, as the structure was partly carried away during the freshet.

Vudor Porch Shades

MAKE A BIG COOL ROOM OF YOUR VERANDAH

JUST THINK, YOU CAN MAKE AN EXTRA ROOM OF YOUR PORCH—the coolest, most serviceable room in your home, too—at a trivial cost.

Vudor Porch Shades make this possible; they keep out the hot sun, but admit the cool, refreshing breeze. They give absolute privacy, for no one can look through them from the outside; yet they are so constructed that from the inside, you can see all that goes on without!

They can be instantly raised or lowered, with very little effort. A practically indestructible device (operating on the principle of a theatre curtain) accomplishes this. They are light, but exceedingly durable, being constructed of thin strips of Linden wood fibre woven with the strongest seine twine.

Vudor Shades are artistic in the extreme; stained in soft colors that rest the eye and harmonize with any style of architecture. The colors are absolutely indelible and will neither fade or crack off.

Over 100,000 homes in the United States alone are now equipped with Vudor Porch Shades,, among them both the city and country residences of some of our nation's wealthiest families. Yet Vudor Shades, while they add to the appearance of even the most palatial mansion, are not a luxury for the rich alone. Their moderate price puts them within the reach of everyone who can afford to have a porch at all. The cost is insignificant in comparison with their utility and the added comfort

and pleasure they afford. ENQUIRE FOR DETAILED INFORMATION AT OUR MARKET SQUARE BUILDING.
