HORRIBLE TREATMENT OF A GERMAN SAILOR LAD
Captain and Mate of a Norwegian Vessel
Fined for Torturing a Boy.

CAMPBELLTON, N. B., Sept. 27.—Yesterday afternoon the case against Captain Kristiansen of the Norwegian bark Agat, and the first mate of the same vessel, who have been charged by one of the crew, a boy, with cruelty, was brought to an end. The captain was fined \$100 and the mate a like amount with three months in jail.
The Agat arrived at Bonaventure on Sept. 1st and finished loading on the 15th. During the course of the loading the stevedores were shocked to see the atrocious manner in which one member of the crew, a German boy, was being treated. The lad was found one morning tied to a ring in the deck and he was left in this position for days and given nothing to eat but crusts and water. He told the stevedores that the mate had thumped his head upon the deck until he had gone mad. The stevedores on another occasion saw the boy tied to a rope-end and thrown into the water, dipped several times and taken out only when he showed signs of collapse. They also saw the mate chase the boy up and down the rigging with an iron belaying pin, the boy all the while shrieking in terror. The boy showed some of the men marks on his shoulders which he said had been inflicted with a red-hot iron by the mate.
The stevedores told of the atrocities to the local authorities and, upon the advice of the German consul at Montreal, the captain and mate were arrested. At the time of his arrest the mate threatened the constables with an axe but, on the advice of the captain, laid himself quietly. The men were defended by W. Albert Mott, the Norwegian consul and the case was

BOSTON, Sept. 26.—Encouraged by a large contingent which came East from Detroit to see the deciding game for the American league championship, the team from that city won a third successive victory over Boston today, 9 to 5. Sliver was batted out of the game in one inning and the Boston men opened sharply on Mullin, but after he had steadied down they could do little with him.
The local management tried out several of the speediest of its new recruits, but the Detroit players at top speed and proved far superior to any combination the home club could present.

The fact and determination shown by both teams, and many brilliant plays, especially by the rival shortstops, made the game one of the most interesting of the season. The result, however, was practically settled in the fifth inning when Burchell, a Baltimore pitcher, was batted out of the box. Pruitt, who succeeded him, lacked control to such an extent that the Detroit players feared to face his erratic shoots. The Detroit players left for Philadelphia tonight, confident that by using their best pitchers that they will capture the majority of the games.

Reports received from all parts of Kings county indicate that grain is in a bad condition. It has been impossible for farmers to get their harvest in owing to the wet weather, and the oats are sprouting badly. The condition is almost desperate, and unless there is continuous fine weather, the grain will be ruined.

Messrs. Jones Bros., Apohaqui, have about completed saving their large cut of last winter. About six and a half million feet of logs have been saved. Two mills were kept constantly at work accomplishing this and a large part of the material has been shipped, but there is a very considerable quantity in the yards at Apohaqui.

It is evident by the prevailing price in the local market that hay is to be a very expensive luxury next spring. A well known firm imported two carloads of Sackville hay from New Brunswick last week and paid \$18.75 landed at North Sydney. The crop is about one on P. E. Island, and a failure in New Brunswick and below an average crop in Quebec—North Sydney Herald.

A party consisting of Arthur Keith, Judge McIntyre, and Samuel Wortman, Sussex, and Chas. Strong, Moncton, with John Maloney as guide, returned home Saturday from a trip to Little Salmon River. The party secured a moose, but their luck was in keeping with the experience of many hunters this season, who find the moose scarce. The fatal shot in this case was fired by Mr. Strong.

A special meeting of the stockholders of the Exhibition Association will be called the week after next for the purpose of discussing the question of taking steps to draw up a prize list for next year's fair, and, if advisable, to authorize the present executive committee to take the necessary steps to get ahead with the work. President A. O. Skinner is in favor of issuing the prize list at once, as the stock holders like to know early what the programme will be. The present builders will be probably retained, as no action has been taken by the government as yet towards using the ground for military purposes.

The militia department has under consideration many improvements to be made on the camp grounds at Sussex, and about half a million have been carried down the river. The logs will be gathered in the Flewelling booms, and separated there.

Carlo Codipatti, who figured quite prominently in the Italian riot at Prince of Wales, succeeded in eluding the police and getting safely out of this province into the United States, despite the fact that he was refused admission to the latter country by the immigration officials. Chris, Nichols, the interpreter, discovered Codipatti among some other Italians who were being examined by the American immigration officials. Nichols was not quite sure of his man at first, but when he told the young fellow that his father wanted to see him at the hospital, it settled all doubts, as the young fellow got quite excited, and finally promised to go with Chris to the hospital after supper, saying that he was stopping at a certain boarding house in town. Nichols on calling after supper, found, however, that Codipatti had never been there. It is supposed that he went out on the Boston train.

DISPUTE IN MORGUE OVER OWNERSHIP OF UNIDENTIFIED BODY

MONTREAL, Sept. 26.—There was a dispute at the morgue today regarding the ownership of a body, and the matter was settled when the key found in his pocket opened the door of his late home on Cuvilliers street.

The body was first identified as that of C. M. La Forge, of Panama, who arrived in Montreal several weeks ago. The dead man answered the description of La Forge. Before the case was disposed of by the coroner, however, the relatives of Louis V. Palarand, who disappeared some time ago, called at the morgue and claimed the remains. They identified the clothing and the key.

The coroner sent his officer to the house to find out the key would fit the lock. The key was apparently made for the lock, and this decided the question. There were no marks of violence on the body and the case will likely be disposed of without a jury.

IN THE SAME BOAT.
(Montreal Withers).
It is recognized that the United States and Great Britain are in the same boat in the matter of their relations with their states and self-governing colonies on the one hand and with foreign nations on the other, and that their position is extremely difficult. Locally, they have unlimited power to enforce their treaties throughout the extent of their dominions, and foreign nations have the right to demand that they enforce that power. Practically, however, their position is hopeless, and they ought to have much sympathy with one another.

THE SPEECHES and PUBLIC LETTERS OF JOSEPH HOWE.

—A NEW EDITION—
The first edition in two volumes of Hon. William Annand's "Speeches and Public Letters of the Hon. Joseph Howe" is out of print and it is now almost impossible to purchase copies of the work. A few sets have changed hands during the past year for a price exceeding \$10 a volume. As this edition was published in 1888, it of necessity does not contain many important speeches and letters delivered and written during one of the most important periods in Mr. Howe's stirring career, namely, from 1858 to the date of his death in 1873, and while some of his poems and lectures were published after his death in a single volume, that publication is now out of print.

JOSEPH HOWE.
It seems only the other day that I arrived at Halifax to take up the duties of Governor General of Canada. I had two great surprises on my arrival—first, my introduction to the two volumes which contain the speeches and letters of Joseph Howe, and, secondly, the impossibility of buying a copy of those volumes except at a prohibitive cost. There is not a page and line of Howe's speeches or writings which does not stimulate the imagination, please the fancy and quicken the soul—and if the object of education is, as I believe it to be, to quicken the soul, the book containing Howe's speeches and writings ought to be on the schoolboy of every school teacher, not only in Nova Scotia, but in every portion of the British Empire. I do not understand how it is that a Province so proud of its possessor of Joseph Howe, as Nova Scotia has every reason to be, has not taken the necessary steps to make this influence felt in every portion of the Empire. If Joseph Howe is unknown in England, and in other parts of Great Britain, Nova Scotia and Canada have only themselves to blame. I owe my introduction to the volumes containing Howe's writings to the fact that they have been placed in my bedroom at Government House by my greatly esteemed friend, Hon. Mr. Thomson, who would have been late Lieutenant-Governor. I had only before the Canadian Club, Halifax, Aug. 4, 1907.

Halifax, N. S.
Gentlemen—
I am interested in your proposal to publish a new edition of the Speeches and Public Letters of Hon. Joseph Howe in three volumes and if the work is brought out in a form satisfactory to me, I will doubtless purchase them, if sold at a price not to exceed \$10.00 for the set.
Yours truly,
