Tomorrow he will address the congregation of St. John's Church at the regular morning service, and the Carlton Presbyterian Church in the evening. WILL DISCUSS PREVENTION OF CONSUMPTION

The ninth annual meeting and convention of the Canadian Association for the Prevention of Consumption and other forms of tuberculosis is to be held in Hamilton on Wednesday and Thursday, May 19 and 20 next.

The morning of the first day will be devoted to the reading of reports and the appointment of committees. In the afternoon Dr. White of Pittsburgh sanatorium will deliver an address on The Duty of Municipalities in Reference to Tuberculosis. In the evening of the same day his worship the mayor will deliver an address of welcome, after which Dr. Adams of Montreal will speak on a subject which ought to command attention, How One Can Do Most Good in Arresting Tuberculosis at the Smallest Outlay.

The topic set down for general discussion during the forenoon of Thursday is The Duty of the People Toward the Movement for the Extinction of Consumption. Hon. Adam Beck, Mr. Downey, M.P., Dr. Pagan of Victoria, B.C., Dr. Geo. D. Porter, and a number of others, both physicians and laymen, are expected to take part in the discussion of this subject.

On Thursday afternoon at 4 o'clock the meeting will adjourn to the Mountain sanatorium to attend a reception given by the ladies of Hamilton. Not the least uninteresting part of the programme is the visit to the sanatorium, when it will be seen how much can be done for the treatment and cure of consumption at so moderate cost. The success of the Mountain sanatorium should furnish an object lesson well worthy the study of municipalities contemplating action for the reduction of tuberculosis within their own neighborhood.

AN UNBREAKABLE SET OF TEETH

There is a class of patients who do not object to paying a fair price for artificial teeth, if they can really secure comfort, usefulness and naturalness.

I have a set of teeth, such as is unobtainable in any other office in this city, to my knowledge. It is out of the ordinary line and unlike the teeth in general use. Its beauty is at once apparent and it is practically unbreakable.
