FURIOUS RAINS.

Western New York Hit By Floods and Cloudbursts.

Probably the Worst Storm that Ever Swept the Genesee Valley.

Streams Running High Over Their Banks—Many Bridges Swept Away—Loss in and Around Pike Alone Will Be a Quarter of a Million Dollars.

BUFFALO, N. Y., July 6.—Messengers from towns in western New York report one of the worst floods on record following a cloudburst. The damage will amount to hundreds of thousands of dollars.

HORNELLVILLE, N. Y., July 6.—A tremendous downpour of rain early today caused one of the worst floods of the year in this vicinity. All of the lower part of the city was soon flooded. Railroad traffic in both directions was completely tied up all day. The storm came on suddenly and great damage was done. Three houses were undermined and carried away. No casualties have been reported.

ATTICA, N. Y., July 6.—The rains sent Tonawanda Creek swirling over its banks. Lower Main street in the village is four feet under water. Dead cattle, wagons and wreckage of all kinds were washed down stream on the crest of the flood. Seven iron bridges in this town were carried away. Hundreds of acres of crops are ruined.

BUFFALO, N. Y., July 6.—A terrific rain and wind storm swept over western New York at an early hour today. Rivers and creeks rose rapidly, overflowing their banks and sweeping away houses and barns and live stock. The loss will reach hundreds of thousands of dollars. Telegraph and telephone lines were down and communication with small towns in Wyoming, Niagara and Cattaraugus counties is difficult to establish. This city was not in the path of the storm.

A dispatch from Attica says the flood at that place claimed one victim and did many thousand dollars' damage to property.

Miss Minnie Loper's bakery shop was swept into the stream, and it is reported that she was drowned. Her body was recovered.

There were many narrow escapes. At Tonawanda, two miles below Attica, the approach to the bridge was washed away, but the bridge is standing. Miles of road will have to be rebuilt. At Sandusky, a few miles from Attica, a few houses were washed away. From everywhere come reports of live stock being killed.

PORTAGE, N. Y., July 6.—The worst storm of the season in this section is now sweeping down the Genesee valley. Rain fell heavily for 24 hours, and this morning a cloudburst sent five inches of rain in a few minutes. The streams over their banks. The farms are laid waste and no field crops can be saved. Houses and barns were swept down the river. The roadbed of the Pennsylvania railroad is washed out in many places.

PIKE, N. Y., July 6.—At daybreak this morning Pike was under water. The water was everywhere. Every bridge over the creeks in Niagara and Allegany counties and in the southern part of Wyoming county was washed away. It is estimated that the damage to property in the immediate vicinity will amount to a quarter of a million of dollars. Much stock was killed.

BATAVIA, N. Y., July 6.—The heavy rains for the last three days have swollen the Tonawanda Creek to a degree never before known even in the worst spring freshets. The torrential downpour fell at midnight, making the situation perilous. The water is now rising rapidly. The water is now rising rapidly. The water is now rising rapidly.

GOWANDA, N. Y., July 6.—Cattaraugus Creek was higher today than it had been in 40 years. Three bridges between Springville and Gowanda have been washed away.

WALDEN CENTER, N. Y., July 6.—South of here Buffalo Creek is higher than it has risen since the week of the Johnstown flood. The big iron bridge at Jara has been washed away. Reddy's dam and elder mill at Stryker'sville are gone. Standing crops are ruined.

WARSAW, N. Y., July 6.—The loss from the floods in this city will reach \$100,000. Oatka Creek, flowing through the center of the village, being high, has made a channel through the principal streets, carried devastation in its path, wrecking houses and barns, many of which were swept helplessly down stream together with an immense amount of debris brought down from the surrounding hills.

ELMIRA, N. Y., July 6.—The greatest loss in this valley was visited this valley yesterday and today. This afternoon a terrific hail storm destroyed many tobacco crops south of the city, uprooted trees, overturned tobacco

Another Contingent of Fresh Canadians to Be Present if Possible.

LONDON, July 7.—At 10 o'clock this morning the following bulletin on King Edward's condition was posted at Buckingham Palace: "The King had nine hours' natural sleep and his progress continues to be uninterrupted. The wound is discharging freely and is less painful to dress."

(Signed) Trevels, Laking, Barlow.

MONTREAL, July 7.—The Star's London cable says: No intimation has yet reached the Canadian ministers regarding the date of the coronation, but it is expected to be very close to August or early in September, in which case Sir Wilfrid Laurier, Hon. W. E. Fielding and other Canadian ministers will be here. It is also hoped that a great contingent of Canadian troops may come over. Sir Frederick Borden is spending a few days in the country. It is intended to decorate the Canadian arch for Lord Kitchener's return with a new flag design.

CHAMBERLAIN INJURED

By His Horse Slipping While Passing Canadian Arch.

Taken to Charing Cross Hospital Where His Wounds Were Dressed—Messages of Inquiry From King Edward and Queen Alexandra.

LONDON, July 7.—The colonial secretary, Jos. Chamberlain, was somewhat shaken today as the result of a cab accident. His horse, passing through the Canadian arch when the horses slipped and Mr. Chamberlain was precipitated forward with great violence against the glass front of the cab. When extricated it was seen that his head was badly lacerated and bleeding profusely. A policeman helped the secretary into a cab and accompanied him to Charing Cross hospital, where his injuries were dressed.

While Mr. Chamberlain's wound had a great deal, it was not serious. Chamberlain remained at the hospital until a late hour. The following bulletins were issued this evening from Charing Cross hospital: "Mr. Chamberlain is suffering from a scalp wound on the forehead. He is now free from pain and feeling comfortable. There is no concussion."

Mr. Chamberlain's injuries, although not dangerous, are likely to detain him in the house for the remainder of the week. He has already cancelled his engagements until next Thursday, and it is extremely doubtful if he will be permitted to attend the coronation banquet to be held in the Guildhall Friday or the reception to Lord Kitchener Saturday on his return from South Africa.

The colonial secretary has a nasty crescent shaped cut across the forehead three inches long and penetrating to the bone. Pieces of broken glass were found imbedded in the wound. There was no concussion, but the bone is bruised. Mr. Chamberlain also sustained a slight cut under the right eye.

Upon finding that he must remain in the hospital the patient asked if he might be placed somewhere he could smoke. He was thereupon carried to a room on the next floor.

Mr. Chamberlain's fall on the matter of his accident lightly. He has informed a political friend that he hopes to resume his official duties Friday.

King Edward and Queen Alexandra and the Prince and Princess of Wales are expected to send messages of inquiry to Charing Cross hospital.

The construction force was working in two sections, about five miles apart. Three white men were killed and one injured in one section, two negroes killed and one injured in the other. One lightning bolt killed the five and injured the two.

BRITISH EMPIRE LEAGUE

LONDON, July 7.—Franchising at the annual meeting here today of the British Empire League, the Duke of Devonshire, lord president of the council and leader of the liberal unionists, discussing the conference of the colonial premiers, said the question of imperial defence was paramount. The question of imperial commercial relations would solve itself in no distant day. In accordance with economic laws which will inevitably assert themselves and which he did not think would present any obstacle to the consummation of that which they all must desire, namely, free trade on the basis of reciprocity to free trade within every portion of the empire. Imperial defence, however, could not be neglected until there was no British Empire to defend.
