At the roll call of the First Monc ton Baptist church last evening, Rev. J. M. Baird of Lewisville stated some interesting facts in reference to denomination generally. He said the first Baptist teaching in the maritime provinces was imparted by a band of Germans in 1752 in the county of Lunenburg, N. S. The first Baptist church in New Brunswick was organized at Sackville in 1799, and at the time of the organization of the First Moncton church in 1827 there were only fifteen Baptist ministers in the whole prowince of New Brunswick. bumps as large as great auk eggs, OF INDIGESTION, BILIOUSNESS Being passionately fond of the comparatively harmless and manly sport it occurred to us, sitting one night in our armchairs, that we would join the village club, so for the next few days we judiciously dropped seed in the shape of liquid refreshment and dark hints at the village inn as to our prowess. We knew by remarks we overheard our seed had not fallen on barren ground, and consequently we were not surprised at receiving a care fully worded invitation to play in a big match that was to take place on

the following Saturday afternoon Now, neither of us had ever handled a bat or ball before, but we couldn't, and didn't want to, refuse the invitation, so I sat down and just wrote a plain letter of acceptance. For the next day or two we did nothing but practice. Early morning, late at night we were at it. We hadn't a bat, so we used the fire shovel as one, and for a ball, well, I tied up an old cap with string. First a turn at batting, then oowling. We were progressing famously. I was getting a swerve on the ball that was truly wonderful. One of my shots was so insidious that it cleared all the ornaments off a shelf n the room and then went on and took

wicket! Well the eventful day arrived, and after we had settled with the farmer's wife for all the damage done during our practice in the room, we started out for the field to do or die! We had arranged beforehand that I was to be a batsman and my friend the bowler.

Our captain lost the toss and we started out to field. I was put on the boundary, and as I walked out to take my place I was received with a volley of cheering. I made a melo-dramatic bow to the crowd of spectators by way of acknowledgement of their appreciation, which was the signal for a running fire of remarks, such as yer, Sir 'Enery," "Why don't yer git yer 'air cut," and "Blimey, ain't 'e

The crowd held their breath; now or never, I thought, and clenching my teeth I hurled myself at it. Alas, I was too late, the ball sped

on, and as I picked myself up a huge roar of laughter greeted me. Heavens, how I hated that crowd! Well, the end of it was, our captain called me in, saying, that as I couldn't field, perhaps I could bowl. I took the ball as one in a dream, but pulling myself together, put all my strength into my right arm, and let fly with all my might. The ball went soaring up nigher and higher, right over the batsman's head, and eventually dropped amongst the spectators on the opposite side of the ground. It took fourteen balls to finish that over, and forty-eight runs were scored off it. The captain didn't give me another over which I thought was mighty hard on me, and so did the batsmen. All things come to an end, however, and as we walked off the field at the close of the innings there was something in the air that seemed to tell
