

### HAWAIIAN RACE BEING REVIVED BY MARRIAGE

Queer Phases of Attraction of Various Nationalities Shown in Statistics.

### MIXTURE OF BLOOD MAKES THEM HARDY

Corcans Alone Do Not Inter-mingle in Reinforcing Supposed Dying Line.

Honolulu, T. H., May 1.—The Hawaiian race, which with the Polynesian in general has been regarded as a dying people, is being reborn and rejuvenated by infusion of alien blood, according to statistics just compiled by Louis R. Sullivan of the New York Museum of Natural History, now attached to the Bishop Museum in Honolulu.

Mr. Sullivan has just completed an analysis of 14,569 marriages in the islands, selected at random, and his findings in some cases have been surprising to scientists.

According to the tables more American men in the territory marry women of blood foreign to their own than marry American or British women. The Japanese are not, as has been supposed, the most prolific race in the islands, but are surpassed in this regard by Portuguese, Porto Ricans, part-Hawaiians and Spanish.

### White Women Wed Hawaiians.

Of American women more than one in every six living in the islands marry Hawaiians, part-Hawaiians and others of blood strange to their ancestry. Of all the racial groups the Caucasian women represent the only one which refuse to mix blood, not a single case of a Caucasian woman marrying a man other than a Caucasian having been discovered.

As a whole, the tables indicate, the part-Hawaiian group has a tendency to consolidate rather than scatter, since of Caucasian-Hawaiian marriages only 32.7 per cent. marry back into the full blooded Hawaiian strain, while only 13.3 per cent. take white wives, and the remainder, either in blood among their own kind or marry at large. Of Asiatic-Hawaiian marriages, 46.4 per cent. marry back into the Hawaiian strain, only 4.3 into the Asiatic strain and a negligible proportion into the Caucasian strain.

The result, so far as the Hawaiian race is concerned, is said to be a new racial group, found to a high degree, still abnormally susceptible to civilization's diseases, but with much higher resistant powers than the old Hawaiian stock and visibly adding to its numbers.

### Japanese Loyal to Race.

While the women of Korea lead all other males and females in the islands in marrying within their own race, there are other groups which are a close second in this respect. Only 0.8 of 1 per cent. of Japanese women contract marriages, or unions with men of other races, while 0.7 of 1 per cent. of Japanese men do pick their mates. The percentage for the Chinese is 6 per cent. for the women and 4.5 for the men, Americans, 11.9 for the women and 5.7 for the men; Portuguese, 23.3 women, 13.0 men; Hawaiian, 40.6 women, 19.5 men. The pure Hawaiian death rate is the highest in the islands, 13.43 per 1,000 annually, although the pure Hawaiian birth rate is nearly twice as high as American, British and other whites. Scientists recognize that susceptibility to disease of civilization is responsible for the disappearance of the pure Hawaiian race, but the figures just made public by Mr. Sullivan are the first to show that intermarriage is rebuilding the old race into a stronger, more hardy people.

### Piano Recital Proved Pleasing

Pupils of Mrs. J. C. Rayworth Excelled Themselves at Home of Mrs. J.F. Roderick

A very pleasing Piano Recital was given on Saturday evening by some of the pupils of Mrs. J. C. Rayworth, at the home of Mrs. J. F. Roderick, 125 Canterbury St. Some of the pieces were well rendered and a contest was entered upon one piece, seven competitors taking part, Anna Gough and Vickers McLaughlin tied for first prize. After the singing of the National Anthem, a social half hour was enjoyed by all. The following members of the class took part in the program.

Lois Peters, Marjorie Myers, Evelyn Moorey, Marjorie Purdom, Eleanor McBeath, Alan McBeath, Eleanor Hooper, Edith Brown, Vida Lodge, Hazel Fisher, Olive Kingston, Anna Gough, Evelyn Hanson, Beryl Lawson, Maud Lawson, Myrtle Peterson, Dorothy Belyes, Helen MacFarlane, Winifred Blair, Jean Blair, Ronald Smith, Lawrence Smith, Mary Roderick, Vickers McLaughlin.

### ST. JOHN-DIGBY SERVICE

With the resumption of service by steamer Empress, which is expected to be on or about May 4, the departure from St. John will be 7.30 a.m., Atlantic time, except Sunday, due Digby 10.30 a.m., will leave Digby at 2.45 p.m. and arrive in St. John at 5.45 p.m.

### PICKING FLOWERS

Although Sunday was somewhat cooler than the days of the preceding week, a great number were of the opinion that the bright sunlight was quite sufficient to offset the breezes that blow and went a-maying. Many of the strollers who rambled out to the country returned with large bunches of sweetly-scented May flowers.

### TO BE ORDAINED

Yesterday in the First Presbyterian Church, Rev. Dr. J. A. Morrison read an official edict, notifying the congregation that two elders, John Montgomery and Walter D. Brown had been elected as elders of the church and will be ordained as elders on Sunday May 15th at the morning service.

### FROGS OUT OF THE MUD

The frogs are out of the mud and are holding band concerts every night. The Standard is reliably informed that Jazz music is not played by this organization, but they do a little hopping now and then.

### ATTENDED BREAK

It is reported that a few nights ago nurses in the Home at General Hospital were given a fright when some person attempted an entrance by means of a ladder to one of the windows.

### PROHIBITIONISTS WIN.

Quebec, May 1.—The prohibitionists in the city of Lewis on Monday last to decide whether or not the Provincial Prohibition Act should be repealed came to a close yesterday, and proved a victory for the prohibitionists by a majority of 307 votes. The total number of votes was 1,591, of which 949 was against the repeal of prohibition and 641 in favor of it.

### NEGRO PAYS PENALTY.

Bowling Green, Miss., May 1.—Roy Hammons, a 19-year-old negro, awaiting transportation to the penitentiary for attempted assault on a fourteen-year-old white girl, was seized at the depot here last night by a mob, who overpowered the sheriff and half a dozen deputies and was hanged to a telegraph pole.

### C. P. R. LINE REPAIRED

Port Arthur, Ont., May 1.—Traffic on the main line of the C.P.R. which had been tied up since last Wednesday night on account of washouts east of Port Arthur, was resumed at daylight Saturday morning.

### TORONTO CUSTOMS HIGHER

Toronto, May 1.—Customs receipts for the port of Toronto for April, 1921, totalled \$3,860,000, an increase of \$40,204 over the previous month's receipts but a decrease of \$1,823,669 compared with the receipts for April, 1920.

### IRISH WOULD BE SATISFIED IF HOME RULED

Sir John Foster Fraser So Informed St. George's Society at Its Annual Dinner.

### MESSAGE TO DISPEL SOME FALSE REPORTS

England Will Repay Every Cent of U. S. Loan, Said Noted Knight.

Albany, May 1.—"Sola Fata leaders in Ireland would be satisfied with dominion home rule and the only reason they have not openly announced this is that they are afraid of being shot down by their extremists." Such was the declaration of Sir John Foster Fraser, the noted author, traveler and special representative of the English government, who is now touring America, at the 51st annual dinner of the St. George's Benevolent society of the city of Albany at the Fort Orange club last night.

The dinner was attended by more than 50 members of the society and invited guests who gathered to observe St. George's day, also Shakespeare's day and the anniversary of the landing of the British at Zebruge.

Sir John Fraser.

In responding to the toast "The Day We Honor," Sir John Foster Fraser declared he was a Scot who lived in London. "As a recent visitor to your country," he said, "I have noticed many curious views about England and Englishmen. Many think we have abundant mustaches, wear mohawks and drop our hats. We are looked upon as a conceited people. I find that Americans themselves are not deficient in self appreciation, only the Englishman assumes his superiority while the American asserts it."

"I have spent 25 years of my life travelling in 57 different countries. The whole world is interested in watching our respective countries. I have been asked is there going to be a revolution in England? My answer is that there always has been a revolution since the days of Runnymede. The public mind has got the habit of poking over a precipice, but no one ever jumps over."

"I find an undercurrent of belief in America that England did not play so great a part in the war as did her dominions. The graves in France are my answer to that. English modesty was a contributing factor to this belief. The acts of the Canadians, the Scots, the Australians and the Irish were daily featured in the newspapers, while the deeds of English regiments were rarely mentioned."

### Not Dodging U. S. Loan.

"We are raising six billion dollars in taxation yearly in England, and one-third of this goes to our war debt. We are not trying to avoid our war debt to the United States. Englishmen never seek to dodge their obligations. We will remove the cobwebs of misunderstanding concerning our international debts. We owe you at present four billion dollars. This was not for ourselves. We passed it on to our allies, whose credit you would not accept. Our allies owe us twice as much as we owe you. But I will tell you that the United States is going to get every dollar you loaned us and every cent of interest on that loan."

"The British empire today occupies one-quarter of the habitable portion of the globe. We recognize the great service of our overseas dominions during the war. There will be a conference in June of the premiers of the British Empire. It will be one of the most important world gatherings ever held. The children of Great Britain have grown to be strong and lusty men and no longer want to be tied to their mother's apron strings."

"The time has arrived when they will help to decide the destiny of the empire. They will play a great part in the future, I prophesy that in the future Britain will not go to war on its own account but by all its dominions. They are now beginning to build navies. In times of disaster they will be under the control of the imperial navy and not under the British navy. A wireless cable is being laid across the Atlantic. Great Britain but against every man, woman and child who lives under the Union Jack."

### Situation in Ireland.

"What about Ireland? I have just come from those troubled regions. In my travels I have found much more bitterness against the English by Irishmen here than in Ireland. In past times, while England didn't treat Ireland very well, it did not treat Scotland any better. "Most people here judge conditions in Ireland by cable reports of crime, if that were the only judge, I think the United States ought to be examined. In Chicago I believe there are more murders than in the whole of Great Britain. If reporters featured the murders in cables England would quickly regard the United States as the most barbarous nation in the world."

### ACADIAN PROFESSOR HONORED.

Halifax, N. S., May 1.—Dr. J. L. Logan, formerly a Toronto journalist and now lecturer in Canadian literature at Acadia University, has been elected a Fellow of the American Geographical Society, according to word received here yesterday.

### DR. DEVAN'S FRENCH PILLS

A reliable regulating pill for Women. Restores health, maintains strength, cures constipation, leucorrhoea, etc. At all druggists or direct from our laboratory, The Scott-Drugg Co., 91, Tavistock St., London, W.C. 2, England.

This is Chapter 2 of the wonderful new ice cream story.

## Men haven't even hoped that ice cream could be made so PURE as this remarkable new process makes it!

Ordinary air won't do!

—so we buy this "atmosphere," which is a hundred times purer.

The result? Purer, Finer ice cream than ever you've tasted!

Ours is the only ice cream made in this province by this wonderful method.

### OBITUARY

Miss Annie Barton  
Many friends will regret to learn of the death of Miss Annie Barton at her residence, 560 Waterloo street, early Sunday morning, after a lingering illness. For many years Miss Barton resided at Mattapan, Mass., and was a daughter of the late Oliver and Elizabeth Barton. She is survived by one brother, Robert Barton, of this city. The funeral will be held on Tuesday at 2.30 p.m. from St. Mary's church.

### C. P. R. DINING CAR SERVICE

The dining car, which has been operating during winter months on Boston train leaving city at 6 p.m., will be discontinued after April 30.

### FUNERALS.

The funeral of Felix McNulty was held Saturday afternoon from the residence of Mrs. John McNulty, 4 Summer street, West St. John, to the Church of the Assumption. Service was conducted by Rev. J. J. Ryan. Relatives were pall-bearers. Many spiritual offerings were received. Interment was in Holy Cross cemetery.

### DIED.

ROSA.—On May 1st after a short illness John McFadden, youngest child of Laura F. and William E. Rosa, age one year leaving his parents and one brother, Daniel, to mourn.

### Funeral from the parents' residence.

55 Peter St., Monday afternoon at 2.30.

### CLARKE.—At her residence 10 Peters Street, on May 1st, 1921, Amelia C., widow of the late Clement F. Clarke, aged 82.

### Funeral services at Trinity Church on Wednesday afternoon at 1 o'clock.

### BARTON.—In this city May 1st 1921, at her residence, 350 Waterloo street, Annie Barton, daughter of the late Oliver and Elizabeth Barton, leaving one brother to mourn.

### Funeral Tuesday from St. Mary's church. Service at 2.30 o'clock.

### PILES

Do not suffer with this disease. It is a common ailment and can be cured. The only reliable cure is the "Pile Cure" which is a powerful and safe remedy. It is put up in tin foil and paper packages.

Since the first days of ice cream making—when the ice cream was little better than a soggy sort of cold "mush," filled with hard, icy "spines," and lumps and streaks—men who CARED about making something really GOOD for folks to eat, have been striving endlessly, ceaselessly to find ways and means of making ice cream better—and PURER.

For a long time we have been making it BETTER, and even a great deal PURER, with each succeeding year. But just recently a wonderful discovery has been made which FINALLY SOLVES THE PROBLEM OF MAKING IT PURE!

This discovery is known as the "CARBONATING PROCESS". It does away with ordinary AIR—in freezing the ice cream. It makes ice cream manufacturers PAY considerable sums of money for a sterile atmosphere—a PURE atmosphere—to take the place of the ordinary AIR (which was FREE). But it produces ice cream far PURER than we had even dared HOPE for.

On each "freezer"—in using this "CARBONATING" process—an ingenious little mechanical device is attached, which drives OUT all ordinary air from the ice cream, and replaces it with this ATMOSPHERE WHICH IS A HUNDRED TIMES PURER THAN AIR. And, while we have to PAY for this atmosphere, we are MORE THAN GLAD TO DO IT—since the finished ice cream is so perfectly, so delightfully PURE!

This additional cost of manufacturing is NOT passed on to you—we very gladly assume it, just to give you BETTER ice cream. And it IS better. Not only ever so much purer—but actually BETTER TASTING, because carbonating really IMPROVES the flavors. It is more wholesome, too, because the carbonating "atmosphere" has long been proved beneficial in digestion. And what is more, the new CARBONATED ice cream KEEPS better—stays hard longer, and melts MORE SLOWLY when it does start melting.

# MASTER MASON

It's the characteristic fragrant aroma of MASTER MASON that has made it so popular with discriminating smokers—but it has other qualities: it burns longer, holds its fire better and is sweeter than most pipe tobaccos.

**Smoke Master Mason**  
It's good tobacco

MASTER MASON—ready rubbed—for those who like it that way is the same good plug tobacco cut and rubbed ready for the pipe. It is put up in tin foil and paper packages.
