SAY BIG GAME LICENSES HAVE BEEN PLACED TOO HIGH

Guides, Speaking at Tourist Association Annual Meeting, Say \$50 Fee Has Kept Sportsmen Away—Mayor Suggests Saving Chipman House, Housing Natural History and Historical Exhibits, and Improving Old Burying Ground—Year's Work Recounted.

The ninth annual meeting of the New Brunswick Tourist Association was held Thursday in the rooms of the board of trade. The reports of the secretary and treasurer were received and adopted. The mayor made an eloquent appeal for the preservation of the Chipman house and for a suitable building for the historical and natural history collections and urged the association to make efforts to that end. Three provincial guides, Messrs. Moore, Sullivan and Allan, gave interesting particulars of the game in the province and attributed the falling off in the number of outside visitors during the season to the increased license fees. Letters were read, including one from a sportsman complaining of the increased tax and claiming it was a hindrance to the sport. There was a full discussion of the matter and the meeting concluded with the election of ten members of the executive.

Mr. T. H. Bullock, president of the association, occupied the chair and among those following were present: Mayor White, T. H. Estabrook, D. McLaughlin, Col. A. J. Markham, A. O. Skinner, E. L. Brea, W. S. Fisher, E. A. Schofield, T. O'Brien, Geo. Murray, G. E. Barbour, W. F. Hatheway, Allan Black, Geo. Robertson, Dr. P. W. W. Hubbard, F. B. Ellis, Dr. McVey, W. L. Creighton (I. C. R.), R. Burpee (E. S. S. Co.), A. Currie (D. A. R.), D. G. Smith (fishery commission), H. B. Little (fishery commission), Mrs. Olive, the secretary, and W. E. Anderson were in attendance. The chairman happily reviewed the work of the year, touching on matters dealt with in the executive report.

Letters and telegrams of regret at unavoidable absence were read from Premier Tweed, C. H. LaRiviere and G. J. Clarke, St. Stephen. The secretary then read the report of the executive. The report submitted by Mrs. Olive for the executive committee for the year ended in March there are not enough on hand to supply the demand in the market during the winter and the committee has started on a new booklet. The committee endeavored early in the season to issue a booklet dealing with canoe trips, fishing opportunities, camps, etc. However the executive committee in charge, has succeeded in getting some good material together, and the results have been gratifying. Many papers and magazines have published, free of charge, descriptive literature. Particular attention was given to the preparation of papers, describing the attractions and interests of the province as a whole. The association during their trip to the United States, in the month of June was made. Mr. Belding, Mr. Crandall, and Rev. Fr. Gagnon, have supplied the general descriptive literature and photographs were gathered from every available source. Through the efforts of Mr. Allbright we are now able to furnish a beautiful series of subjects very useful in our work.

Photographs have been forwarded to England, British Columbia, Australia, Boston, New York, Montreal and many other places. Miss Tenny, Mr. Rice and Mr. Kemp are still doing good work in England and New Jersey with their illustrations. The association during their trip to the United States, in the month of June was made. Mr. Belding, Mr. Crandall, and Rev. Fr. Gagnon, have supplied the general descriptive literature and photographs were gathered from every available source. Question of License Fee. T. A. Sullivan, one of the guides, spoke of the raising of the license fee for the season to \$50. He referred to a statement of the visitors the previous year which showed that the license fee was fully in demand and spent \$1,809.50. He regarded it as significant that not one returned last season. The action of the N. B. Tourist Association, and from the National Sports Magazine, to Mr. Sullivan, were read expressing the opinion that the province had made a big mistake in raising the license fee so high. It was pointed out that the license would now cost as much as the entire trip, and \$15 or \$20 was suggested. A. O. Skinner said he was fully in accord with the mayor, especially as regards the Chipman house. It was a question if the citizens would consider the matter important enough to be taken up by the recent Fair of Nations had raised \$4,000 with comparative ease some such scheme might be organized. He had taken some interest in the public automobiles referred to in the report and hoped to have two more in the city next season.

W. S. Fisher said he could never understand why the commissioners of the public library had permitted it to be erected without making provision for the natural history and historical collections. Additional suggestions would induce visitors to remain in the city and he hoped the mayor himself would endeavor to create some public interest in having the matter taken up.

several more strangers than ever before. About 600 letters of inquiry were received and answered in detail; 700 visitors registered in the office. The treasurer's report showed receipts to be \$6,504.35, and expenditures \$1,672.57, the balance on hand being \$1,821.78. The motion of W. S. Fisher, the report was received and adopted. Mr. Fisher, in presenting the treasurer's report, said the receipts were about the same as last year, and the expenditure had increased by \$900. There was a profit of about \$800 from the sale of post cards. He mentioned that the printer's hands, the report was adopted.

Mayor White's Suggestion.

The mayor, on being called on, spoke on the various means which might be employed to increase the attractiveness of the city for the present condition of things in the city. He referred to the Chipman house as one of the historical buildings in the city and regretted that there was a prospect of its being destroyed. It seemed almost an act of vandalism. He did not believe in the taste of the Y. M. C. A. in selling that site for their new building but thought there could be found other land suitable for the purpose. He hoped public sentiment would be aroused before it was too late and that the Tourist Association would make an effort in that direction. He had been informed that the Board of Public Works, by a great number of visitors and that admission fees would easily cover the expense. The city had practically invaluable collections in the attractive exhibits the Natural History and Historical societies but they were left in an attic of the market building and were unapproachable by strangers.
