APPALLING HORROR IN HUNGARIAN TOWN

Nearly 400 Burned to Death

Were Dancing in Room With Only Exit Nailed Up

Decorations Caught Fire and Horrible Scenes Ensued—Women and Men, With Clothing in Flames, Fought Madly to Escape, and They Perished in the Ruins of the Structure.

(Associated Press.)
Mate-Szalka, Hungary, March 28.—The village of Okeoete and the adjacent districts have been thrown into mourning by a terrible disaster which occurred at the former place last night and which resulted in the death of between 300 and 400 persons and the serious injury of 100 others.

A public hall was held at the hotel of the village, where the coachhouse had been fitted as a ball-room. It was a great barn-like structure, decorated with tinsel and June branches left from a previous entertainment to which were added for the occasion, other decorations and Chinese lanterns. The building was so packed just before the ball commenced, that the single door which afforded entrance and exit was nailed up to prevent the admittance of egress who clamored outside.

ANNOUNCEMENT ON TARIFF AGREEMENT LIKELY TOMORROW

Will Be Given Out at Washington and Ottawa Simultaneously—British Press Pleased With Outcome.

(Special to The Telegraph.)
Ottawa, March 28.—Finance Minister Piddington and Hon. Mr. Graham are not expected to return to Ottawa until Tuesday night and possibly not until Wednesday at mid-day. The tariff announcement will be made to the House immediately after the opening at 3 o'clock in the afternoon. While there may be some discussion, it is likely that the opposition will confine themselves to asking questions and will defer any debate that they may contemplate until they are better posted on the situation.

The official announcement will be made at Washington and Ottawa simultaneously. In government circles it is said that the tariff changes will show that Canada has merely given President Taft the present tariff he wanted in order to avoid imposing the American maximum against Canada. The items on which Canada grants intermediate duties are said to be unimportant and to number only a dozen and these are not given to the United States only, but put on the Canadian intermediate tariff list for the benefit of all countries. It is therefore clear that Conservative clamor about "surrender" is absurd.

(Special to The Telegraph.)
Toronto, March 28.—The eastern section of Toronto suffered heavily from grass fires this afternoon. A. E. Ames' fine oak grove was destroyed and his residence was only saved by great exertions of two hundred men who turned out to fight the fire, having nothing but earth to work with.

The summer cottage of Mr. McFarlane, on Kingston road, was burned and a sheet of fire one mile long gave people about all they wanted in the way of fight. Oak grove covered about one hundred acres.

James T. Stenson dropped dead at Peterboro today. He was one of the biggest real-estate merchants in Canada.

Woodbury, of Portland, a stockholder, today petitioned the supreme court at Augusta for a receiver for the Canadian Consolidated Mines Company, Limited, a five-million dollar concern which owns extensive soft coal areas in New Brunswick.

The question of appointing a receiver will be decided on Wednesday. The court issued a temporary injunction to prevent the company's officials from holding any stockholders' meetings, issuing or selling any bonds, or proceeding further with its business.

MORSE BITTER OVER CONVICTION

Ex-Banker from Prison Cell Writes New York Paper—Says He is a Victim of Jealous Financiers.

New York, March 27.—Charles W. Morse, organizer of the American ice company and the Consolidated steamship lines, formerly the dominant power in the financial world of New York, in an extended statement written in his prison cell for the world, explains in detail his views of why he is in prison incidentally presenting some illuminating sidelights on conditions in the world of high finance, where he once was the wonder of the nation.

Mr. Morse is now in the federal prison in Atlanta serving a 15-year sentence for violating the national banking laws. "I am in prison today," declares Mr. Morse, "because I made \$250,000 for the Bank of North America and turned it over to that institution."

That he was made the scapegoat of the panic of 1907 by men in high finance who had been wolfing everything in sight for years is his flatfooted explanation of his present plight and he cites his reasons for his belief.

His own case, he believes, will go down as an "historical example of a government gone mad in the search of a victim," the result being a sentence which he describes as brutal.

MONTREAL LONGSHOREMEN COMPLAIN OF TREATMENT AT THIS PORT

Delegation Asks That Similar Tax Be Placed on Men Going from Here in Summer Season to Work in St. Lawrence Port.

PAY LICENSE FEE

(Special to The Telegraph.)
Montreal, March 28.—When the city's bill to amend the charter of Montreal comes before the legislature, M. J. Walsh, member of St. Anne's district, Montreal, will move an amendment in the interest of the longshoremen of this port. Their grievance is that during the winter months they have to go where their work is, and when they reach the port of St. John (N. B.), they have to pay a tax of \$7 or \$8 each.

A delegation of the men waited on Mr. Walsh last Thursday and laid the facts before him. They asked as a remedy that in the summer season, when longshoremen are in demand here, that all outsiders should be taxed as local men in other towns.

WEALTHY CHICAGO MAN POISONED

Arsenic Placed in Hamburg Steak, Which He Ate

His Daughter Had a Close Call—The Authorities Puzzled Over the Mystery Have Two Servants in Household Under Surveillance.

Chicago, March 28.—That Alexander J. Moody, a wealthy pie manufacturer, died of arsenic poisoning on Feb. 20, was the assertion made today by Coroner Hoffman, after an investigation. The death had been reported as due to ptomaine.

That the poison was contained in hamburger steak eaten by Mr. Moody seems clear to the authorities, but the manner in which it was placed in the meat is a mystery that the coroner and the police have been unable to solve.

While the coroner and Assistant Chief of Police Schuetter declare that they accuse no one, it is admitted that a woman of Mr. Moody's household and one of his employees have been under surveillance for a month.

On Thursday, Feb. 17, the hamburger steak in question was purchased. It was on Saturday the family partook of the meat without ill effects. The meat was prepared by Agnes Hartwick, a servant who had been in the family for thirteen years. On Sunday morning, at breakfast, the servant served Mr. Moody the steak and some corn bread and coffee. Miss Hartwick ate a piece of bread dipped in the wick after the meat and later she was taken violently ill.

2,000 WATCHES STOLEN FROM A NEW YORK PIER

Boston, March 28.—The biggest theft of watches reported in many years was made known in this city tonight, when a large watch-manufacturing concern in Waltham announced that 2,000 watches valued at \$20,000 were stolen from a pier in New York last Wednesday, while waiting shipment to London on the steamer Campania. The news of the loss was kept secret by the insurance people in the hope of capturing the thieves. With the watches disappeared at the same time a horse and wagon, belonging to the National Express Company, it is said that as the watches are numbered, the robbers will have hard work to dispose of them as jewelers have been notified.

Unprecedented Rush of British Settlers to Canada

Railways in a Dilemma How to Handle the Crowds Due at Maritime Ports This Week—Temporary Quarters to be Erected for Them in the West.

(Special to The Telegraph.)
Montreal, March 28.—Advice received by railroad companies in Montreal show that the present week will be a record breaker for this year in the immigration business, and one of the biggest during many years.

Closed upon 12,000 immigrants will be landed at St. John and Halifax during the week ending next Saturday, the exact number of whom advices have been received being 11,972.

So great has the rush of immigration been that arrangements are under way for the establishment of immigrant camps in the Calgary district, where the settlers can go and stay a few days until they get located. The rush of settlers is now under way in earnest, and it is expected that it will keep up until several weeks after navigation opens to Montreal. This always being the big season for immigrants, and as every immigrant is hooked to his utmost capacity for a month or more, it is considered that Canada's population will go up considerably during that time.

AMERICAN SOFT COAL MINERS ON VERGE OF STRIKE

Cincinnati, Ohio, March 28.—Unanimous rejection by the miners of Ohio, Indiana and Western Pennsylvania late today of an offer by the operators of an increase of five cents a ton, put the situation nearer to a possible strike than it has been since the beginning of the joint conference.

The rejected proposition called for a continuation of present conditions, with the exception of the mining prices for inside day wages which were to be increased from three to five cents per ton.

Upon the rejection of this proposition by the United Mine Workers' convention, it was referred back to the joint conference. This body will meet tomorrow and start anew to reach a settlement.
