New Dundee April 8--Mr. and Mrs. Fred Miller are now residing in Kitchener.
The many friends of Mr. George Bechtel will regret to learn that he is very seriously ill.
Mr. Isaiah Hilborn's condition does not show any improvement and is causing much anxiety.
Mrs. (Capt) Stauffer and Master Ward Stauffer have returned to Toronto.
Mrs. G.H. Heald has returned from Lansing Mich., after an absence of two months.
Mr. Nathaniel Clemens is the guest of Mr. and Mrs. Henry Bouer.
Bandsman A.L. Clemens of the 43rd Highlanders Winnipeg has returned to New Dundee after spending three years in France and Belgium during which time he escaped without a scratch.
Mr. and Mrs. Fred Poth and Mr. and Mrs. Arthur Lautenschlager attended the funeral of the late Mr. Peter Diebel in New Hamburg on Monday.
The meeting of the Lutheran Ladies Aid Society was held at the home of Mrs. Andrew Koehler on Wednesday last.
The Misses Edith Weber and Marie Fischer of Kitchener were the guests of Mr. and Mrs. Norman Weber over the weekend.

RAISING BEAVERS.

Experiment Started Two Years Ago Proving Very Successful.

Two years ago James Park, of Dalhousie, Ont., presented a petition to the Ontario Department of Lands, Forests and Mines asking for the establishment of a colony of beavers at Park's Lane. It was something new for the department, for, although beavers had been shipped abroad for breeding purposes, no attempt had been made to establish colonies at home under department control. But the desire of a large number of responsible men to have the department make the experiment, supported by the opinion of one who had studied the habits of the beaver that the venture would prove successful, influenced the department to consent to the proposal. In March, 1917, three beavers were shipped from Algonquin Park to Park's Lane, one buck three years old and two females, one two years old and the other one year. A committee of eight men were appointed to look after the colony, which multiplied and prospered.

"Busy as a beaver" is a phrase illustrated in their work. Three dams have been built near Park's Lane, and at present a fresh cut of timber is in progress for some further proposed engineering project. The dams already built are about twenty feet in length and three feet high, and are covered on the upstream side with a thick coating of mud on a sloping face over a distance of ten feet from the crest of the dam. The mud was removed from a swamp near by, and represents a vast amount of animal labor. Some of the trees felled, which are chiefly poplar, are eight inches in diameter.

A branch of the Park's Lake colony has established itself on a meadow on the Lavant Mill road. Here Amell built a dam himself some years ago for the purpose of flooding at certain times of the year the meadow, which supplied him with a quantity of meadow hay. Amell experienced difficulty in keeping the dam from leaking. But the skill of the bat-tailed builders soon remedied the trouble. The dam is now absolutely tight. The colony of beaver is exceedingly timid; a sentinel is posted on watch while the others work. On the approach of danger snark goes a tail on the face of the water, making a loud noise, which warns the builders and gives them time to scurry to their house.

The success of the Park Lake beaver colony has caused the De-

AVOID ALUM IN FOOD

Baking Powder is one of the most important food ingredients. Alum or other injurious acids are frequently used by some concerns to lower the cost of production.

MAGIC BAKING POWDER

Contains No Alum

It is a pure phosphate baking powder and is guaranteed to be the best, purest and most healthful baking powder possible to produce.

W. Matthew Williams, in "Chemistry of Cooking," says: "Phosphates are the bone-making material of food and have something to do with building up of brain and nervous matter."

Made in Canada

partment of Lands, Forests and Mines to discuss the advisability of establishing similar colonies at other favorable natural grounds throughout Ontario.

The only woman who ever became a Free Mason was the Hon. Mrs. Aldworth, whose admission to the order was not altogether voluntary on her part. It happened many years ago at Douarville, a beautiful country seat in Ireland, where a meeting of the Free Masons was to take place. Betty St. Leger, afterwards the Hon. Mrs. Aldworth, being carried away by feminine curiosity concerning the proceedings, his herself in an adjoining room and through a hole in the wall saw and heard the first two degrees in Masonry worked. To safeguard the

secrets of the order, the Masons initiated Mistress Betty into the degrees and she was a respected, active member.

The recognition of women by the regularly organized political parties is not altogether new. It is recalled that almost half a century ago—in 1870—the Massachusetts Republican convention admitted Lucy Stone and Mary A. Livermore as regularly accredited delegates.

Lady Constance Richardson, famous as a traveler, explorer and big game huntress, has gone to Siberia to assist in the establishment of schools for Russian war orphans.

In Spain a woman's mantilla is held sacred by law, and it cannot be sold for debt.

Your Opportunity

To make money in Real Estate

REAL ESTATE COMES into its own once more. Those plans you've had in mind some time—those preparations that the war forced you to side track. Now—right now—is the time to renew them and give them the attention they deserve.

THE WHEELS OF INDUSTRY are awhirl, the buzz of business is prevalent on every side, and you as a shrewd investor must realize that alluring, money-making opportunities are waiting for you NOW. Don't delay. MAY WE SHOW YOU SOME of the things we have lined up?
