

Moonstone Lighting, and a Woman's Beauty

Moonstone globes and dishes diffuse and mellow the electric light, adding to everything a new quality of charm.

They are decorated to match wall-papers and draperies—an important consideration when all the world is reaching after things harmonious, symphonic.

It is the modern way of lighting a house—ininitely more beautiful than the old, and cheaper. MOON TONE glass so multiplies the light that it is not necessary to use so many high-power lamps.
