THE RIVER OF TIME

THE RIVER OF TIME, INCESSANTLY FLOWING BY, CAN BE CROSSED ONLY BY THE MOST ABLE TIME TRAVELLERS..... Starting from the bank that is in the depth of winter, can you reach the opposite bank. Where it is the middle of spring, in less than four hours' difference between the first clockface onto which you move and the last one)? Go from one clock to another only if they are touching, and never move backward in time (i.e., from a clock reading, say, 5:30 to one reading 5:15).
