

10, 169 (*relation to pancreas*). LUSK and RICHE, *ib.*, 1914, **13**, 673; RINGER, *J. Exp. Med.*, 1910, **12**, 105 (*diabetes*).

Disseminated Chromaffin Tissue.—BIEDL and WIESEL, *Pflüger's Arch.*, 1902, **91**, 434. FULK and MACLEOD, *Am. J. Phys.*, 1916, **40**, 21. GASKELL (J. F.), *J. Phys.*, 1912, **44**, 59 (*distribution of medullary tissue in petromyzon*).

PITUITARY.

BLAIR BELL, *Q. J. Exp. Phys.*, 1917, **11**, 77 (*experimental operations*). CUSHING (H.), *The pituitary body and its disorders*, Philadelphia, 1912; *Johns Hopkins Hosp. Bull.*, 1910, **21**, 127 (*experimental hypophysectomy*). v. CYON, *Pflüger's Arch.*, 1900, **81**, 267; *J. Phys. Path. Gén.*, 1909, **11**, 259. GOETSCH (E.), *Q. J. Med.*, 1914, **7**, 173 (*review*). HERRING (P. T.), *Q. J. Exp. Phys.*, 1908, **1**, 121 (*histology*); *ib.*, 1913, **6**, 73 (*comparative anatomy and physiology*); *ib.*, 1914, **8**, 267 (*activity of pars intermedia and pars nervosa*); *ib.*, 1914, **8**, 245 (*origin of active material of posterior lobe*). PAULESCO, *J. Phys. Path. Gén.*, 1907, **9**, 441. SCHÄFER, *Proc. Roy. Soc.*, 1909, **B 81**, 442 (*functions*). SIMPSON and HUNTER, *Q. J. Exp. Phys.*, 1910, **3**, 121 (*relation between thyroid and pituitary*). VINCENT (S.), *Ergeb. d. Phys.*, 1911, 309; *Practitioner*, Jan., 1915 (*general review*).

Influence on Growth and Metabolism.—ALDRICH, *Am. J. Phys.*, 1912, **31**, 94 (*feeding to rats*). BENEDICT and HOMANS, *J. Med. Res.*, 1912, **25**, 409 (*metabolism after hypophysectomy*). CUSHING and GOETSCH, *J. Exp. Med.*, 1915, **22**, 25 (*hibernation and the pituitary*). MALCOLM (J.), *J. Phys.*, 1903, **30**, 270. MAXWELL, *Univ. of Calif. Pub.*, 1916, **5**, 5; PEARL (R.), *J. Biol. Ch.*, 1916, **24**, 123 (*feeding pituitary to fowl*). MILLER and LEWIS, *Arch. Int. Med.*, 1912, **9**, 601 (*glycosuria after injection of extracts*). ROBERTSON (T. B.), *J. Biol. Ch.*, 1916, **24**, 397, 409; ROBERTSON and DELPRAT, *ib.*, 1917, **31**, 567; SCHMIDT, *J. Lab. Clin. Med.*, 1917, **2**, 719 (*lethelin*). SCHÄFER (E. A.), *Q. J. Exp. Phys.*, 1912, **5**, 203 (*effect of ovarian, pituitary, and thyroid tissue on growth of rats*). WULZEN (R.), *Am. J. Phys.*, 1914, **34**, 127 (*growth in birds*).

Action of Extracts.—ADDIS and BARNETT, *Soc. Exp. Biol. Med.*, 1916, **14**, 49 (*on urea secretion by kidney*). AUER and MELTZER, *J. Pharm. Exp. Ther.*, 1913, **4**, 359 (*pituitrin on depressor action of vagus*). DALE, *Bioch. J.*, 1909, **4**, 427. HAMBURGER (W. W.), *Am. J. Phys.*, 1904, **11**, 282; *ib.*, 1910, **26**, 178 (*anterior lobe*). HOWELL, *J. Exp. Med.*, 1898, **3**, 245 (*posterior lobe*). HOSKINS and MEANS, *J. Pharm. Exp. Ther.*, 1913, **4**, 435 (*pituitrin diuresis*). KING and STOLAND, *Am. J. Phys.*, 1913, **32**, 405 (*action on renal activity*). NICE, ROCK and COURTRIGHT, *Am. J. Phys.*, 1914, **35**, 194 (*on respiration*). PATON and WATSON, *J. Phys.*, 1912, **44**, 413 (*on circulation of bird*). PILCHER and SOLLMANN, *J. Pharm. Exp. Ther.*, 1915, **8**, 405 (*on vasomotor centre*). SCHÄFER and HERRING, *Phil. Trans. Roy. Soc. (Lond.)*, 1906, **B 199**, 1 (*on kidney*). WADDELL, *Am. J. Phys.*, 1916, **41**, 529 (*on frog's œsophagus*).

Formation and Secretion (?) of Active Substance.—CARLSON and MARTIN, *Am. J. Phys.*, 1911, **29**, 64 (*question of infundibular secretion in cerebrospinal fluid*). COW (D.), *J. Phys.*, 1915, **49**, 367. FENGER, *J. Biol. Ch.*, 1915, **21**, 283; *ib.*, 1916, **25**, 417 (*composition and activity of pituitary*). KEETON and BECHT, *Am. J. Phys.*, 1915, **29**, 109 (*stimulation of pituitary*). McCORD, *J. Biol. Ch.*, 1915, **23**, 435 (*active substance in fetus*). RABENS and LIFSCHITZ, *Am. J. Phys.*, 1914, **36**, 47 (*innervation*). WEED and CUSHING, *ib.*, 1915, **36**, 77 (*effect of pituitary extract on its secretion*). (For action of pituitary extract on milk secretion, see Chapter XIX.)

SPLEEN.

Splenectomy.—GOLDSCHMIDT and MARGOT, *J. Exp. Med.*, 1915, **22**, 319; MENDEL and GIBSON, *Am. J. Phys.*, 1907, **18**, 201 (*N metabolism in man*). RICHTER, *J. Phys. Path. Gén.*, 1912, **14**, 689; *ib.*, 1913, **15**, 579 (*effects on nutrition*).
