

THE THEORIST

And also he's the one who put
The " phone " in phonolite,
And discovered incidentally
Another sylvanite.

Then borrowed without license,
By a very crooked track,
The Breyfogle from Nevada,
But had to put it back.

He told of rare and valued ores
In the hills that stretched away ;
There was many a show in the great plateau
That took in Hudson Bay.

To many he's a genius,
And he may look well in frills ;
But the species is quite common,
And its habitat the hills.
