Concrete Roads Exceed Farmer's Expectations

THIS LETTER FROM MR. GEO. W. BURT, of Redford, Wayne County, Michigan, shows how well satisfied the farmers of that section are with concrete roads. Nearly one hundred miles have been built in Wayne County.

"Mr. Edward N. Hines,
Board of County Road Commissioners,
Wayne County, Detroit, Mich.

Dear Sir:—

Our concrete roads are far ahead of the expectations of the majority of us farmers. Where we used to be two days marketing fifty bushels of produce, we now market twice as much in one day, and can go to the city anytime we want to. We do not have to wait till the roads are good so we can go. Also, our horses and waggons will last twice as long.

Hoping you will keep right on building these roads, and that the county will stand back of this movement, I remain,

Yours truly,
(Sgd.) Geo. W. Burt

Redford, Wayne County, Mich.

Concrete Roads

are the best, cheapest and most satisfactory roads that can be built. Best, because they permit bigger loads, increase land values and improve conditions generally. Cheapest, because they are permanent and require practically no repairs, which permits road taxes to be spent in building more good roads. Most satisfactory, because they are open to traffic every day in the year, lower cost of marketing and cost of living and increase the farmer's profits.

Good Roads literature telling all about concrete roads will be sent, free, to everyone interested. Write to
