"Save The Horse" Spavin Cure.

WATCHES RESULTS FOR OVER A YEAR.

Middleton, N. S., April 12, 1909.
Troy Chemical Co., Binghamton, N. Y.:
Gentlemen,—Enclose please find check, for which please send me at once one bottle of "Save-the-Horse," prepaid to my address. This is for a gentleman of very conservative nature, who has been watching all that has been used in this vicinity, and after a year's careful study has decided that it will do what it claims.

Yours truly. do what it claims. Yours truly, DR. LOUIS LAUNDERS.

Read What One of the Most Prominent Bankers and Business Men of Northern Uhlo Did with "Save-the-Horse."

Cleveland, O., March 18, 1909.

Troy Chemical Co., Binghamton, N. Y.:
Gentlemen, —It is my pleasure to say the I never wish to be without a bottle of "Save-the-Horse."

In the fall of 1907, while at Lexington, Ko., I bought one of the finest saddle and carriage horses that it was ever my pleasure to own. During the winter of 1907 and 1908 he threw out as large a thoroughpin as I ever saw on a horse. You can imagine my disappointment in having such a fine animal disfigured with a bemish of that kind. I had heard of your remedy and bought one bottle, applying as per instructions with the result that the lump on both sides of the hock is en irely gone and has been a matter of comment on the part of everyone that has seen it. The hock is to-day absolutely clean and there is no indication of thoroughpin, and I shall be glad to show this ho se to the most expert veterinary in the land to show that there is no trace of the trouble. I cheerfully recommend its use to everyone whose animals have been similarly afflicted, as I regard it as invaluable.

Yours very truly, W. P. Murray, its us to everyone whose animals have been sin ilarly afflicted, as I regard it as invaluable. Yours very truly, W. P. Murray, Prop. Murray Stock Farm, West Mentor, Ohio.

"SAVE-THE-HORSE" PERMANENTLY CURES Bone and Bog Spavin, Ringbone (except Low Ringbone). Curb. Thoroughpin, Splint, Sho Boil, Wind Puff, Injured Tendons and all lameness, without scar or loss of hair. Horses may work as

\$5.00 per bottle, with guarantee as binding to protect you as the best legal talent could make it. Send for copy and booklet.

SUCCESSFUL AD.

Several weeks ago a Kansas editor advertised the fact that he had lost his umbrella and requested the finder to keep it. He now reports: "The finder has done so. It pays to advertise. -Kansas City Journal

QUESTIONS AND ANSWERS. Veterinary.

FATALITY IN CALVES.

Young calves seem to have some disease. I have lost three. They seem weak, and will not take anything to eat They die in from 12 to 48 hours. They appear to die a natural death; they do not bloat or appear distressed. J. T. Ans.-I do not think there is any dis-

ease. The calves are weak and lack vitality when born. It may be caused by lack of exercise of the cows during pregnancy. If any more refuse to nurse give them a little, say about 1 pint of the dam's milk, with 1 ounce whiskey, every hour, for the first day, and gradually increase the dose and lengthen the periods until they gain strength. Of course, you will have to drench them very carefully. If their bowels do not act, give injections of warm soapy water.

NAVICULAR DISEASE.

Mare was lame all last summer; some times worse than at others. She rests the foot (the near fore) a great deal when standing. She goes better when G. H. B. shod often.

Ans.-Your mare has navicular disease and, while the symptoms may be relieved to some extent, it is not possible a cure can be effected. Get a blister made of 2 drams each of biniodide of mercury and cantharides, mixed with 2 ounces vaseline. Clip the hair off for two inches high all round the hoof. Tie so that she cannot bite the parts. Rub well with the blister once daily for two days On the third day apply sweet oil. Turn in loose box now, and oil every day As soon as the scale comes off, tie up and blister again, and after this blister every four weeks as long as you can give her rest. When you have to use her, she should wear bar shoes until the snow falls, and keep her feet soft by poulticing or standing in a tub of water.

Miscellaneous.

MISCELLANEOUS.

1. Heifer, due to calve in January slipped and fell on ice. Her udder was quite large, but has almost disappeared She has not calved, and is getting very thin. How had I better feed her?

2. If the calf is dead, will it prevent

her from breeding again? 3. At what age should a calf be castrated? sugar-beet meal equal to bran

What is the difference between pure

bred and thoroughbred T. G. M. Ans.-1. No doubt the calf is dead, and veterinarian to examine her, and, if pos

sible, remove the factus. Feed her on good clover hay, pulped roots, bran and chopped oats, and give her 40 drops carbolic acid in a pint of cold water, as a drench, three times daily.

2. Not if she recovers

3. At from two to four weeks

any class that is registered, or eligible to registration, in the stud or herdbook of its class. A Thoroughbred is a horse that is registered, or eligible to registra tion, in the Thoroughbred Studbook in the country in which it is born, hence must trace on both sides to ancestor registered in the English Thoroughbred Studbook. The Thoroughbred is a dis tinct breed of horses. While the term is often used in respect to cattle, hogs dogs swine, etc., it is all wrong. The pure-bred descendent of the English race horse is the only animal in the world en-

GOSSIP

The annual show and sale of registered Romney-Warsh rams is advertised to take place at Ashford, Kent, England, on September 23rd and 24th. Full particulars and catalogues may be had on application to the Secretary, as indicated in the

is stoneware—top is clear glass. Besides being absolutely sanitary, the glass top enables you to see how the churning is coming along without opening the churn.

The "EUREKA" is the easiest churn on the market to operate. By tilting back the frame until the weight rests on the wheels, the churn can be quickly and easily moved-while

the barrel remains upright. If your dealer does not handle the "EUREKA," do not take a substitute but write us for catalogue.
