

21 IN SHOE POLISH 10¢

The Modern Shine! *Easier to Use
Better for the Shoes*

275,577 is the number of a motor that left our factory one bright morning not long ago. It was a wonderful motor---the result of a big and unmatched experience. And the thousand or more motors we are building every day are exactly like it.

More than 275,000 Fords now in service---convincing evidence of their wonderful merit. Runabout, \$675; Touring Car, \$750; Town Car, \$1,000---f.o.b. Walkerville with all equipment. Get interesting "Ford Times"---from Dept. G., Walkerville factory. Ford Motor Company of Canada, Limited.

HEATING THE GUEST ROOM

ALL the heat generated by a Kelsey Warm Air Generator can be quickly directed to any room or any part of a building desired.

When quick heat is called for the whole strength of the fire can be immediately concentrated into one circulating pipe, if necessary, by means of the Kelsey Positive Cap Attachment.

This feature of Kelsey construction absolutely controls the heat circulation, directing the warm air to where it is most needed at any given time.

This positive Cap Attachment can be operated at will by the occupant of any rooms, and can be shut off to normal when the necessary heat has been served.

Positive control of heat circulation prevents waste of heat and keeps down coal bills. That is why a Kelsey Warm Air Generator requires about one-third less coal than an ordinary furnace.

The economy of proper circulation of heat is fully explained in our booklet, "Achievements in Modern Heating and Ventilation." Send for it.

DAIN THE LIGHT DRAFT "ONE MAN" HAY LOADER

HERE is a real Hay Loader; a genuine labor saver; not a mere hay elevator. It's rightfully called the "One Man" loader because one man is all that's needed to run it. The force delivery pushes the hay well forward on the load, where it can be easily handled by the driver.

DAIN EXCLUSIVE ADVANTAGES

Easy to couple to all wagons without adjustment. No long, crooked crank shaft to break or cause trouble. Geared right to insure light draft and greatest hay gathering efficiency. Gathering rakes and elevating parts operated by hammock mounted pitmans. Works equally well on swath or windrow. Caster wheels in rear lessen draft and make turning easy.

The Dain Loader is lightest draft, most simple in design and most convenient to operate. Gets all the hay; made to last from best materials. That's why it is the most popular loader built today---why it is most widely imitated and just why it should be your choice.

Consult your nearest John Deere Dealer about any of our Tools: Mowers, Loaders, Side Delivery Rakes, Stackers, Sweep Rakes, Presses. Write us, mentioning the tools in which you are interested, and we will send you new booklet and our free book, "Better Farm Implements and How to Use Them," the most practical and helpful book ever published.
