**Know Lump Jaw**

Be able to detect Lump Jaw when you see it; the safety of your herd may depend upon it. Know also how to thoroughly cure it, and how to cure a score more of the most stubborn ailments of cattle and horses. Send for our FREE ILLUSTRATED PAMPHLET on Lump Jaw and its cure, together with instructions for promptly removing Spavins, and all other enlargements by use of

**Fleming's Lump Jaw Cure.**

Branchton, Ont., July 20, '00.  
Messrs. Fleming Bros.—Two applications completely cured a discharging tumor on a two year old heifer, and 8 or 9 applications removed a hard painful tumor from the abdomen of another. The tumor was 11 x 4 inches in size and 3 inches thick, and so painful we expected to lose her. One application almost removed the pain. We used 1 Lump Jaw Cure on it as a last resort. We would not be without your remedy under any consideration.

HUGH WHITE.  
Price: \$2 per bottle, or three bottles for \$5. Money back if it fails. At druggists, or sent prepaid to any address.  
Free—Our illustrated Pamphlet to readers of this paper.

**"BLACKLEGINE"**

Pasteur Blackleg Vaccine Quite Ready for Use.

This is in the form of a cord impregnated with the vaccine. Each dose is separate and applied with a special needle. The dose is hitched on to a notch in the needle and then inserted under the skin at the shoulder. The needle is provided with a detachable handle. Vaccination with "Blacklegine" is as rapid and easy as taking a stitch. There is no dissolving, or mixing, or filtering a powder: no injecting or trouble in measuring doses; no expensive syringe outfit.

Prices: "Single Blacklegine" (for common stock): No. 1 (ten doses), \$1.50; No. 2 (twenty doses), \$2.50; No. 3 (fifty doses), \$6.00. "Double Blacklegine" (for choice stock) (first lymph and second lymph, applied at an interval of eight days), \$2.00 per packet of ten double doses. Blacklegine Outfit (handle and two needles), 50 cents.

**Highest Award**  
AT THE  
**PAN-AMERICAN EXPOSITION.**  
**THE U.S. CREAM SEPARATOR**  
HAS WON  
**GOLD MEDAL, OR THE HIGHEST AWARD.**

At every International Exposition at which it has been exhibited since its invention. Our "would-be competitors" are advertising extensively as follows: "The supremacy of the De Laval machines at Buffalo is a continuation of their triumphant record at all previous great expositions."  
Yes, this supremacy (?) is a continuation of their triumphant (?) record, and that record shows the "triumphant supremacy" was IN WIND RATHER THAN IN WORK.  
Mr. Edward Van Alstyne, superintendent of the Model Dairy at the Pan-American, states, under date of November 1st: "I find, since the receipt of your letter, after carefully going over the figures of the seventy-one runs of their (the De Laval) machine, that I mis-called the figures, and the reading should be .0172 instead of .0161."

**NOW READ WHAT THE U. S. SEPARATOR DID IN THE MODEL DAIRY.**

Mr. Van Alstyne states in reference to the work done by the U. S. Separator in the Model Dairy at the Pan-American Exposition from September 29th to October 30th, inclusive, that in the fifty separate runs made by the separator during these days, with the milk of the ten different herds in the dairy test, the average per cent. of fat left in the skim milk was .0138.

De Laval average test of skim milk	.0172
United States average test of skim milk	.0138
Difference in favor of the United States	.0034

This shows that the De Laval Separator left 25 per cent. more butter-fat in the skim milk than the U. S. An immense waste that amounts to a very large sum of money upon the dairy products of the world. Enough to pay for a U. S. Separator to replace every De Laval Separator now in use.  
Perhaps our chagrined and disgruntled would-be competitors "with characteristic advertising honesty" will undertake to bluff this statement off, but it remains true and is a matter of record that cannot be successfully denied.
