To Keep Their Digestion Perfect Nothing is so Safe and Pleasant as Stuart's Dyspepsia Tablets.

Thousands of men and women have found Stuart's Dyspepsia Tablets the safest and most reliable preparation for any form of indigestion or stomach trouble. Thousands of people who are not sick, but are well and wish to keep well, take

Stuart's Tablets after every meal to insure perfect digestion and avoid trouble. But it is not generally known that the Tablets are just as good and wholesome for little folks as for their elders.

Little children who are pale, thin and have no appetite, or do not grow or thrive, should use the tablets after eating, and will derive great benefit from them.

Mrs. G. H. Crottsley, 538 Washington St., Hoboken, New Jersey, writes: "Stuart's Dyspepsia Tablets just fill the bill for children as well as for older folks. I've had the best of luck with them. My three-year-old girl takes them as readily as candy. I have only to say 'tablets' and she drops everything else and runs for them."

A Buffalo mother, a short time ago, who despaired of the life of her babe, was so delighted with the results from giving the child these tablets that she went before the notary public of Erie Co., N. Y., and made the following affidavit:

Gentlemen,—Stuart's Dyspepsia Tablets were recommended to me for my two-months-old baby, which was sick and puny and the doctors said was suffering from indigestion. I took the child to the hospital, but there found no relief. A friend mentioned the Stuart Tablets, and I procured a box from my druggist and used only the large sweet lozenges in the box, and was delighted to find they were just the thing for my baby. I feel justified in saying that Stuart's Dyspepsia Tablets saved my child's life.

Mrs. W. T. Dethlope. Subscribed and sworn to before me this 12th day of April, 1897.

Henry Karis, Notary Public in and for Erie Co., N. Y.

For babies, no matter how young or delicate, the tablets will accomplish wonders in increasing flesh, appetite and growth. Use only the large sweet tablets in every box. Full-sized boxes are sold by all druggists for 50 cents, and no parent should neglect the use of this safe remedy for all stomach and bowel troubles if the child is ailing in any way regarding its food or assimilation.

Stuart's Dyspepsia Tablets have been known for years as the best preparation for all stomach troubles whether in adults or infants.

HUNTLYWOOD FARM SHORTHORNS AND BOLDOWNS

GOSSIP.

Perhaps in no single industry has the advantages of advertising been more clearly proven than in placing on the market the many cereal breakfast foods now so generally used by city and country people.

The profit in the sale of cereal foods is large, but a market is not to be had for simply the asking. A market can be created and kept in existence only by persistent advertising. It costs from \$400 to \$800 in advertising to sell \$1,000 worth of breakfast foods. The man who makes wheat-coffee, spent, last year, \$884,000 in advertising in 800 newspapers and 30 magazines, and this year he is spending a million dollars.

The maker of shredded wheat spends \$700,000 a year for publicity. Another paid \$5,000 for the privilege of painting the name of his product on a big chimney in lower New York that can be seen from all the North River ferry-boats. He has for months kept before the public eye a comic figure and some swinging rhymes, and has made all America and England laugh. The laugh has cost the manufacturer hundreds of thousands of dollars, but it goes without saying that it pays or he would not keep at it.

SPASM OF THE GLOTTIS.

FREQUENT inquiries have been made concerning a disease in pigs characterized by spasms or fits. The attacks almost always occur in winter, when the weather is severe. Animal shows no symptoms when coming from the sleeping pen until it attempts to take food, when it will be seized suddenly, will raise its nose and gasp for breath, soon fall over and struggle for a moment or two, when the seizures will abate, animal will get up and possibly appear all right.

Cause.—Occasionally the first attack will prove fatal, although this is not the rule. Attacks will recur every day, or it may happen every time the animal attempts to take cold food, especially swill. The attacks come on most frequently in pigs or hogs that have warm quarters, especially those that are allowed to burrow in manure piles or straw that becomes heated. When they come into the cold air, sudden change induces attacks, especially when taking cold drink.

Treatment.—Treatment that has given the best results is to avoid the conditions that produce the difficulty. Hogs should not be housed in too warm sheds, especially if fed in a cold place. Do not give access to the manure pile, where they will burrow into the heated, half decomposed straw or become piled up and overheated.

It is also of great advantage to warm the feed, where this is practicable, and anti-spasmodics should also be employed, such as from ten drops to half dram doses of fluid extract of hyoscyamus, according to size of animal; or ten or fifteen grains of bromide of potash should be given three times a day.

The rugged health that tonic doses of Dr. Hess Stock Food induces will give a hog the vital power necessary to resist these attacks. This wonderful reconstructive is the result of a lifetime of study and experiment by Dr. Hess (M.D., D. V. S.)—graduate of both medical and veterinary colleges—whose methods and works are recognized everywhere as authoritative.

Dr. Hess Stock Food is the scientific compound, sold on a written guarantee, 100 pounds, \$7.00; smaller quantities at a slight advance. Fed in small dose. For every disease and condition for which Dr. Hess Stock Food is not recommended, the little yellow card in every package entitles you to a letter of advice and special prescription from Dr. Hess.

For a little information, Dr. Hess' great stock book, the only complete treatise on live stock and their diseases, will be mailed to you free, prepaid. Write Dr. Hess & Clark, Ashland, Ohio, U. S. A., state what stock you have, how many head of each; what stock food you have fed; also mention this paper.

For sale at reasonable prices—Five imported bulls nearly all roans. Twelve imported cows and heifers. Also a number of nice Canadian-bred bulls, cows and heifers, in calf or with calves at foot.
