HOW TO TREAT SKIN TROUBLES

Greasy Cintments of No Use-The Trouble Must be Cured Through the Blood

complaints arise from an impure condition of the blood and will persist until the blood is purified. Dr Williams' Pink Pills have cured many cases of eczema and skin dis-orders because they make new, rich blood that drives out the impurities, clears the skin and imparts a glow of health. Mrs. S. L. Peterson, Brandon, Man., says: "I suffered for years from eczema, which brought with it other troubles, such as a poor appetite, headaches and weakness. The portions of my body affected by the eczema gave me constant torture from the itching and heat. I tried several doctors and all sorts of lotions and ointments, but did not get the least relief. Finally I was advised to try Dr. Williams' Pink Pills, and de cided to do so. After using the Pills for some time the irritation and heat began to grow less and I seemed in better health otherwise I continued taking the Pills for several months and every vestige of the trouble disappeared, and my skin is again as free from blemish as in youth. Given a fair trial Dr. Williams' Pink Pills will not dis-

simply because they make new, rich, red blood. That is why these cure common diseases like anaemia, rheumatism, lumbago, sciatica, neuralgia, headaches, indigestion, St. Vitus dance, and the general weakness and special ail-ments that only women folk know. Sold by all medicine dealers or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

QUEER PETS.

A Woman Sets Forth the Charms of Various Small Reptiles.

With many women there are fashions in pets just as in dress, says the Queen. The year 1908 was the year of the marmoset, 1909 favored the "real live teddy bear," while last year saw the introduction of the hamster. The writer has had considerable experience with reptiles and thinks women BABY'S TEARS TURNED TO SMILES. might do worse than give some of them the next call.

Some of the small tortoises," she says, "are inexpensive but in purchasing them one should be careful to secure strong, healthy, is cross, fretful and cries. specimens with undamaged shells. From time to time there come upon the market rarer and more expensive species. Some of these are very beautiful and well worth the fancy prices asked for them, for

especially when quite young, have me while baby was teething. He most beautiful coloring and markings. One that I possessed was as I began giving him the Tablets bright green with marking in the the effect was wonderful. ing its prey it climbs as near as HE'S A CONVERT TO

ing its prey it climbs as near as possible to it and then springs upon it from a distance of sometimes more than a foot, opening its mouth as it springs and fixing the insect with its tongue which is also provided with an adhesive disc.

"The fire frog on the contrary, is more lethargic in its movements until it has caught its prey. This, however, must not be taken as a sign that it is not equally voracious. Though barely an inch long it will tackle worms more than twice its length nor will it release It is not a good thing for people with a tendency to have pimples and a blotchy complexion to smear themselves with greasy o'ntments and such things. In fart they couldn't do anything wore, because the grease clogs the pores of the skin making the complaint of the creature's nose and it will the skin making the complaint worse. When there is an irritating at once seize it and may be drawn rash a soothing boracic wash may help to allay the pain or itching, the same worm at the same time but of course it doesn't cure. Skin one at each ends Then ensues a complaints arise from

most amusing tug of war.

"The coloring of the fire frog is remarkable. Viewed from above it is usually dull gray, though occassionally some specimens are dark green. The under parts, however, from which it takes its name, are spotted with orange red. One more curious trait about it is the habit to be observed in some specimens of curling up like a dried leaf when touched. The back is then bent touched. The back is then bent and all four limbs are curled up ov-er it until the lips of the snout and all the toes nearly touch. It is difficult to explain the reason for this action, but it is apparently de signed to be in some way protective. Possibly the position is assumed in order to display the warning red color of the under side."

SHOOTING JAPANESE RAPIDS.

Those of the Hodzu River Afford an Exciting Experience.

The rapids of the Hodzu River near Kyoto must fill even the most blase of tourists with excitement. A train from Kyoto climbs slowly A train from Kyoto climbs slowly and painfully upward until finally Minard's Liniment used by Physicians appoint those suffering from skin it deposits its passengers at a eruptions or weakness of any sort."

Dr. Williams' Pink Pills cure all

From here, says the Wide World,

those troubles due to poor blood one goes to the river bank and emsimply because they make new, barks in a rude, flat-bottomed boat age to get married." which is pushed out by four men into the middle of a broad river,

reed-edged and sleepy.

For a few minutes one glides For a few minutes one glides dreamily along; then rounding a curve, one suddenly hears the roar sloughing, carry away the proud dreamily along; then rounding curve, one suddenly hears the roar of water and the boat tears down of water and the boat tears down a clean way for the new skin. It past, death appears imminent, and then, with one mad swirl it is all that it healed where other oils over and the boat is on the quiet failed utterly. unruffled stream once more.

This happens again and again for nearly an hour. At first ones' whole mind is filled with the conviction that an accident must happen, but gradually comes a delic ious feeling of safety as one notes the marvellous skill these men show in piloting the boat through the seething rapids and one is able to appreciate the beauty of the

JAPANESE HOUSES.

The modern Japanese house is houses are kept exceedingly clean and shoes are removed on entering the house, so the dust of street is not carried in.

ANTIQUITY OF TOBACCO.

The idea that tobacco has only been known in Europe since the discovery of America is incorrect. In fact the Medes and Persians a long time before our era smoked nar-ghiles, as ancient sculpture proves. philologist has suggested that the Greeks and Romans smoked tobac-co at least in their colonies. In the Malay Archipelago the use of cigars and cigarettes is said to date much further back than the discovery of America. The word "cigar" seems to show that man's solace and comforter did not originate in the West Indies, but is most likely de-rived from "sakara," an Arab word meaning smoke.

GROWING BELIEF

THAT DODD'S KIDNEY PILLS ARE THE SURE CURE FOR KIDNEY DISEASE.

Mr. Renie Moulaison was treated by two doctors, but found his relief and cure in six boxes of Dodd's Kidney Pills.

Surette Island, Yarmouth, N.S., June 5 (Special).—Renie Moulaison, a fisherman of this place, is a convert to the growing belief that Dodd's Kidney Pills are the surecure for Kidney Disease.

"My trouble started with a cold,"

My trouble started with a cold, Mr. Moulaison states. "My mus-cles would cramp, I had backache and I had dizzy spells. My head often ached and I had a tired, nervous feeling while specks of light flashed in front of my eyes.

I suffered in this way for over two months and was treated by two doctors, but they didn't seem to be able to do much for me. Then I started to improve. I took six boxes in all and now I am glad to

COSTLY POTATOES

England in the reign of Elizabeth, the potato was long regarded as a luxury. There is a record of the payment of half a crown a pound for potatoes for the table of Queen Elizabeth, though at the same time her Majesty obtained some of inf rior quality for a shilling. And even to-day we can pay a fancy price if we wish. Did not seven pounds of the Eldorado potato fetch \$3,500 in 1903?—London Chronicle.

THE MARCH OF CHOLERA. Professor Chantemesse of the Academy of Medicine, Paris, has made a special study of the progress of the cholera epidemic of 1910. He shows that of 200,000 persons attacked in Russia, nearly 100,000 were killed by the disease. The river Danube opened a way for the epidemic into the heart of Europe, but owing to the careful guard maintained, not many cases got in. There were some in Germany, as well as in Roumania, Servia, Hungary, Croatia and Slavonia. Italy was reached by way of Brindisi, on the Adriatic Sea. A considerable number of cases developed in Naples, and four got as far as Marseilles. Professor Chantemesse utters a warning concerning the probable out-break of the epidemic next sumschool?" "Yes, ma; they can me 'Corns."" "How dreadful! And why do they call you that?" surveillance over immigration surveillance over immigration they can be surveillance over immigration they recognized "cholera along the recognized "cholera-routes" is needed. Emigration is the great agent for the spread of this disease.

"A horrid
rash came out all over my baby's face and spread until is had totally covered his scalp. It was irritating and painful, and caused the little one hours of suffering. We tried soaps and powders and salves, but he got no better. He refused his food, got quite thin and worn, and was reduced to a very serious condition. I was advised to try Zam-Buk, and did so. It was wonderful how it seemed to cool and ease the child's hurning, painful skin. Zam-Buk from the very commencement seemed to go right to the spot, and the pimples and sores and the irritation grew less and less. Within a few weeks my baby's skin was healed completely. He has now not a trace of rash, or cruption, or ezema, or burning sore. Not only so, but cured of the tormenting skin trouble, hr, has improved in general health."
