THIRD LINE THURLOW

The recent rains have delayed planting, but they have improved hay and grain crops. Prospects for fruit are good judging from the blossoms.

Mr. and Mrs. D. W. Gallagher and family, of Syracuse, N.Y., motored over by way of Cape Vincent and Kingston on Saturday, and were the guests of Mr. and Mrs. A. Rutnan over Sunday.

The Women's Missionary Society will give an entertainment in Bethany Church on Wednesday evening, June 6. Everybody welcome.

One of our citizens, Mr. Willard Connelly passed away last week.

There will be services on our circuit Sunday supplied by local preachers.

Read "The Ontario," and get all the latest news.

A PIEASING FUNCTION

At the League Room, Holloway Street Church, Monday night of last week, a number of the members of the Teacher Training Class assembled and presented their teacher, the Rev. J. N. Clarry, B.A., with an electric study lamp and the following address:

Rev. J. N. Clarry, B.A., Belleville.

Dear Mr. Clarry,—

The members of your Teacher Training Class realize the advantages that have been theirs during the past two winter seasons, when you have given so much of your time and thought to make their study of the Old Testament and the New Testament both interesting and helpful. We hope that the Class may reach the efficiency standard test, and that its members may increase. If young people could see what an opportunity is theirs, our numbers would be trebled.

Browning thinks the psalmist's thoughts, "Thy word is a lamp unto my path" when he says, "Press God's lamp close, close to my breast. Its splendors, soon or late, shall pierce the gloom. I shall emerge some day." Again, the Bible has been compared to a great cathedral, the Psalms being the organ loft.

You have discovered to us many of the Cathedral's beauties and stirred in us a purpose to search for others, in a more intelligent way than formerly. We do not think in any measure to make return for your good work. But please accept this study lamp as an expression of our gratitude.

In behalf of the Class,
(Sgd.) Mabel Woodley,
Winifred Pierce.

WASH

Mr. and Mrs. S. Finkle of Belleville, were renewing acquaintances in town on Monday. They were over Sunday guests of her sister, Mrs. John Malnes Chapman.

Mr. F. E. Fisher, of North Battleford, Sask., who succeeds Mr. F. J. Natfel as manager of the local branch of the Bank of Montreal, arrived in town with his family on Monday.

A number of our local boys received notice through the mails on Friday to report at Belleville for medical examination for the military. The opinion seems to be general that the affair is a hoax.

The Messrs. Beth Rollins and Dorothy Huyck, students of Ontario Business College, Belleville, spent the holiday at their respective homes in town.

Mr. Claude Bergaron met with a painful accident one day last week which will lay him aside from work for some weeks. He was operating a fanning mill when his right hand came in contact with the cog terribly lacerating the index and large finger. He came to Dr. Mather's office where his injuries were dressed, but it is yet feared that amputation of the large finger will be necessary.

Rev. Chas. Ryan, Rector of St.

James' church, returned from Belleville on Friday after spending a week in the city recuperating from his recent illness. He was the guest of The Venerable Archdeacon Beamish. We are pleased to report that he is much improved.

A feat in automobile salesmanship the truth of which would almost appear to be exaggerated is placed to the credit of the local Ford dealer, Mr. Felix Rashotte. During this season he has reached the surprising number of 61 cars sold and delivered.

Mr. and Mrs. R. Tafts, accompanied by Mrs. Jas. Stapley of Campbellford, left on Tuesday for the West, where they will spend a couple of months visiting; the former with their son, Mr. V. Tafts, Napinka, Sask., and the latter with relatives at Weyburn and Albright, Sask.

A fine specimen of the owl family was captured by Mr. Jonas Hawkins one night last week. It had made itself very familiar with Mr. Hawkins' premises and evidently was anxious to become a fixed asset but, its appetite for tender chicks got into trouble. After appropriating to its own use 7 of the tender little future egg producers, Mr. Hawkins succeeded in catching it in a spring trap thus putting a quietus to its depredations. The captive is now safely caged and in possession of the junior member of the Advocate staff.

Mr. Robert Tafts who has a record of the annual date of the blossoming of plum trees which covers over 50 years, is the authority for the statement that this year the season is at least 10 days later than any previously recorded. His diary shows the earliest blossoming to be May 2nd and the latest, prior to this year, May 17th. This year is undoubtedly an exception as the season has been cold and backward. The foliage on the maples is yet far from being fully developed.

An exciting game of football was played at Sulphide on Saturday between the mining town team and Tweed. Players on both sides displayed remarkable agility considering the earliness of the season and the whole give promise of developing into fast and fancy manipulators of the evasive "pig skin" before the close of the term. Mr. C. S. Boots of Tweed, referred in a very efficient manner. The score at the conclusion of the game was 1 to 0, in favor of the home team. A return match is scheduled to take place in the near future on the Tweed H.S. grounds.
