OLD VESSELS ARE USED AS TARGETS

When Ships Go Out of Commission Are Shot at For Practice. During recent years the British Admiralty have used several obsolete war-vessels as target practice. The battleship Empress of India, which twenty years ago cost nearly £1,000,000 to construct, was bombarded by the guns of the Home Fleet off Portland. The 13.5-inch guns were used with deadly effect, and the vessel finally took fire and, turning turtle, sank.

In 1902 the old coast-defence ram, Belleisle was fired at with lyddite shells by H.M.S. Majestic, near Selsey Bay. At the commencement of proceedings the gunners of the Majestic fired eight hundred and fifty-pound shells from a twelve-inch gun from a distance of one thousand seven hundred and fifty yards, following this up with one hundred-pounders from six-inch guns. Every shot struck home, and within a few minutes the Belleisle was a mass of flames. Creeping closer to the target, the Majestic fired another large shell, which found its way in between the armour-plates and burst. The result was somewhat startling. With a roar the whole of the upper deck went up towards the sky. Although the bombardment of the old coast-defence ram lasted no longer than eight minutes and a half, over four thousand five hundred pounds' worth of shells was shot away.

Some time later the Belleisle was patched up and used as a target for torpedoes. She sank almost at once when struck broadside below the waterline by a full-charged Whitehead torpedo.

The submarine No. 2, one of the first vessels of its type to be introduced into our Navy, was bombarded with shells near the coast. The vessel was submerged to the periscope, and six-inch shells were fired at her.

The submarine A1, which sunk in 1904, carrying her crew of 27, was towed to a watery grave, and exploded upon to ascertain the effect of exploding shells near her when she was in the water. She had been taken off she was closely sealed down and sunk by weights about ten feet below the surface. A lyddite shell was fired into the water near the sunken vessel, and it promptly sank the vessel, the hull receiving considerable damage.

SOME OF THE OLD ONES The old cruiser Terpsichore was built many miles distant. The vessel was towed to a shallow spot in Stokes Bay, near the Gosport shore of the Solent, and a touch of an electric switch caused a mine to explode. The mine contained in a box which had been riveted to her hull. It has been said that a new invention by Signor Ulivi, an Italian engineer, was used on this occasion.

The Ferret, one of the oldest torpedo-boat destroyers belonging to the Navy, having been built in 1883, a year or so ago charged at a target in the harbour boom at Portsmouth, for the purpose of determining the power of resistance of the latter, and was badly damaged when striking the obstruction. Owing to the risks attached to the experiment, men who volunteered specially manned the Ferret, and they were equipped with life-belts.

H.M.S. Forte, one of the old ships in the Navy of the past which was moored in the Medway as a coal-store, caught alight a year or two back. The shipkeeper and his wife and children were rescued by the tugboat of the flag-ship Resolution, and tugs with fire extinguishing appliances raced towards the scene and poured gallons of water upon the burning vessel. Their efforts however were futile, and the ship was thereupon determined to let the Forte burn herself out. Later, when the vessel became one mass of flame, it was feared that she might break her cable and drift towards the sea. Accordingly summary measures were determined upon. The tugboat Bustard was told off to shell the vessel until she sank. The gunboat approached to within a hundred yards of the burning Forte and bombarded her with six-inch shells. Twelve shots were fired, and as these failed to sink her a charge of gun cotton was exploded beneath her keel. This had the desired effect, and the burning ship was engulfed with a hiss in the waters.

A similar scene was witnessed in Newton river, Isle of Wight, a little time previously. A large ketch laden with petroleum caught alight at the mouth of the river. The oil exploded and blew up her deck, and shortly afterwards the hull of the craft burst into flames, which blazed fiercely as the vessel drifted towards the sea. A tug was sent after her and succeeded in getting a cable aboard and towing her in ashore near Hamstead Lodge. There she was left to burn herself out, but being found at night to be a danger to the navigation, she was shelled by a powerful searchlight and shelled and sunk by the heavy guns on Golden Hill, in the Isle of Wight.

When the French battleship Jena was destroyed by fire at Toulon harbor the hull of the ill-fated craft was turned into a target for the gunners of the fleet to practice upon.

Fire was discovered in the hold of a British tug ship at the pier in New York and several arrests may follow.

All get together for real preparedness, it Mr. Roosevelt's plea, in which he denounces Messrs. Wilson, Tait, Bryan and Ford.

BY-LAW NO. 1354

of the Corporation of the City of Brantford

To provide for the sale of a portion of the Brantford Municipal Railway System to the Lake Erie and Northern Railway Company.

Whereas the Corporation of the City of Brantford is the owner of the System of Railway now known as The Brantford Municipal Railway System and comprising the Street Railway System within the limits of the City of Brantford and the line of Railway from the City of Brantford through the Town of Paris to the Town of Galt;

And whereas a Commission was appointed to manage and operate said system, and such Commission has recommended to the Corporation of the City of Brantford the sale of a portion of said Railway System;

And whereas it is advisable that such recommendation be approved and that a sale be authorized in accordance therewith;

The Municipal Council of the Corporation of the City of Brantford therefore enacts:

1. That the rails, ties, poles, wires and other materials owned by this Corporation and pertaining to that portion of said System of Railway between the point to which such Railway runs in the Town of Galt and a point distant nine hundred and twenty-four feet westerly from the Western limit of William Street in the Town of Paris together with the right and title of the Corporation in the right of way upon which said portion of said Railway is constructed, and also the right and title of the Corporation in the right of way of the Blue Lake Siding as constructed (but excepting the rails, ties, poles, wires, and other materials therein which are hereby reserved by the Corporation) be sold, assigned, conveyed and transferred to the Lake Erie and Northern Railway Company in consideration of the sum of Thirty Thousand Dollars, (\$30,000.00) and of an agreement on the part of the Lake Erie and Northern Railway Company, its successors and assigns, that it shall not equip its railway from its terminus in the Town of Galt to its terminus in the Town of Port Dover for operation by electric power, and that it shall and will from time to time at all times hereafter operate its Railway System between Galt and Port Dover by electric power only, and of an agreement that the said Company, its successors and assigns, will not operate its Railway within the district in the Town of Paris known as the Flats and being the district through which the line of Railway of the Corporation is constructed, except for freight traffic only and upon such further terms and conditions as shall be approved by the Municipal Council of this Corporation.

2. The agreement for sale herein referred to shall be subject to ratification by the shareholders of the Lake Erie and Northern Railway Company, and by Special Act of the Parliament of Canada and to the approval of the Board of Railway Commissioners for Canada.

3. Such agreement for sale and indentures of conveyance as shall be required to convey and assure to the Lake Erie and Northern Railway Company the property purchased shall be executed by the Mayor and the Clerk of this Corporation on behalf of this Corporation under the Corporate Seal thereof.

4. This By-Law shall take effect from and immediately after the final passing thereof.
