## Discussion Waxed Heated Over Railwaymen's Uniforms Last Night

### MADE OUT OF TOWN

#### The Local Tailors Protested Against Patronage of Non-Union Labor

A delegation from the local tailors' union waited on the city council last night protesting against the contract for street railwaymen's uniforms being awarded to an out-of-town non-union firm.

The street railway commission in reply stated that the railwaymen themselves had agreed to the placing of the contract. With this the delegation did not agree. The council, while favoring principle of keeping trade at home, doubted the expediency of breaking the contract.

The discussion waxed unusually heated at intervals. Commissioner Frank Calbeck remarking "Mr. Mayor, you make me tired— you are full of bosh," retorted "I will not," replied the commissioner.

"I think you will," declared the Mayor, rising from his chair and descending to the spot where Mr. Calbeck sat.

"Why should I leave the room?" demanded the latter.

"Because you will not obey the rules of debate."

"There have been charges made against me and my character," declared Mr. Calbeck.

"For the last time, will you leave the room?" demanded the Mayor.

"No!"

Mayor Calls a Cop.

"Call a constable," His Worship ordered the janitor. A few moments later, Constable Tyrrell appeared on the scene.

"Remove Commissioner Calbeck from the room," ordered the Mayor.

"Do you prefer a charge," Mr. Mayor inquired of the commissioner, smilingly.

"Remove that man," thundered His Worship.

"Mr. Mayor, I submit," bowed Mr. Calbeck.

"Most people do, under such circumstances," retorted His Worship. Mr. Calbeck bowed his adieu, and nonchalantly took his departure.

"I regret that this matter should be discussed with such haste," observed the Mayor.

Ald. Montgomery's resolution carried.

The city treasurer was instructed to arrange for a temporary advance of \$15,000 to the Water Commissioners, pending payment of the September water rates.

The Fuel and Food Committee was authorized to secure a \$300 gas engine. Ald. Burrows received the thanks of the Council for the use of his engine, by a standing vote.

The Mayor also congratulated Ald. Hill and Burrows for their work on the Wood Department of the Fuel and Food Committee, and also for their services in obtaining the new lifeboat.

Ald. Harp and Chalcraft called attention to the poor condition of the pavement on many of the city's streets.

Ald. English received the congratulations of the Council on the progress being made on the paving of Erie avenue.

"The pavements at fault were laid years ago," he explained, "and the Board of Works is doing its best to have the necessary repairs made as soon as possible."

employees were responsible for the choice. He did not wait the contract once made, butokook sympathized with the delegation as union men, but felt that the contract could not now be broken. Ald. Baird likewise.

"Did a committee of the railway employes meet with the commission to award this contract?" inquired Ald. Symons.

"They did."

Under these circumstances, Ald. Symons felt that the employees were as much to blame as the commission.

"More to blame," interposed several.

"When was the contract let," inquired Ald. Kelly.

"Last Saturday," replied Mr. Turnbull.

The commission, declared Geo. Jennings, had approached the railway employes before the contract was awarded, suggesting that it be placed out of town.

"I absolutely deny that," declared Mr. Hartmann.

"We did not approach the men until we met their committee, as has been customary for years," declared Mr. Calbeck.

Mr. Calbeck Speaks Out.

"I am going to allow everyone to speak, and the gentlemen present—Mr. Calbeck particularly—to observe order," interposed the Mayor.

"Mr. Mayor, you make me tired—you are full of bosh," retorted Mr. Calbeck, rising to his feet.

"Will you leave the room?" demanded His Worship.

"I will not," replied the commissioner.

"I told you so," reiterated the Mayor, pointing out that paring conditions bore out his recommendations for the reorganization of the city engineer's department. He dealt with sarcasm of the latter.

Ald. Hill forced an appeal for greater protection for spectators at the twilight meets at Agricultural Park.

"That is a matter which should be taken up by the Parks Board," opined the Mayor.

Ald. English promised to see that posts to mark boundaries for the spectators were established.

Those present were the Mayor and Ald. Harp, Baird, Clement, Burrows, Symons, Hill, Bragg, Kelly, Montgomery, Hurley, English, and Chalcraft.

## GERMANS WEARY OF HARSH DISCIPLINE

### Are Walked Far And Fed Little by Their Officers—More Desert

SITUATION IN REVIEW

By Courier-Express Wire

With the American Forces on the Marne, July 8.—(By The Associated Press).—Two German deserters crossed the American lines on the last night. They said they were tired of the war and the ill treatment of their officers, who walked them far and fed them little. One of the deserters was formerly a merchant. The other was a farmer.

Again the Australians have made a successful forward plunge in the Somme sector, northwest of Amiens, where they carried out their brilliant operation of last week.

The latest drive by the men from the Antipodes, launched last night, resulted in what is described by the British official statement as a slight advance. The aggregate of the ground gained recently in this area has been considerable, however, and the new progress made has apparently effected a considerable movement in the British position along a front of well toward two miles on both sides of the River Somme.

While the British are thus fortifying themselves against the expected renewal of the German offensive in one of the sectors where it is considered quite likely to be launched, the French are finding themselves somewhat actively engaged in an artillery duel on the westerly side of the Marne salient.

With the help of the Americans northwest of Chateau Thierry, the Allied line, as a whole on this front, has already been strengthened and improved in anticipation of another enemy offensive.

The French are replying aptly to the German bombardment, which is marked in the sectors defending the Villers-Cotterets forest. This extensive wooded area offers one of the most important obstacles to a renewed German advance should it be attempted in this region.

Other artillery actions are reported southward along the front to the Marne, but these seem not to have affected the American sector notably as the news despatches from the American front report a comparatively quiet night and some easy conditions this morning.

Extensions along the front are in expectation of the Germans breaking loose at any moment with their new drive and the armen are increasingly busy in efforts to counteract enemy movements.

## U. S. MAY TRAIN TROOPS IN ERIN

Irish-Americans in Uniform Counted on to Shame the Sons of the Sod to the Colors

Dublin, July 9.—Irish-Americans in the United States are brought to Ireland for further training before they are taken to France, it is believed their presence would have a good effect upon the recruiting problem.

It is pointed out that the presence of Irish-American, thousands of miles from home and imbued with a fervent ambition to crush the Germans, certainly could have no other effect than to make the thousands of stalwart young Irishmen here join up.

The native Irish lads, no doubt, would feel ashamed not to be in uniform when their kinsmen from across the sea have shown their spirit so patriotically.

Viscount French and Chief Secretary Shortt, it is understood are quite in earnest in their proposal for Irish-Americans to train in Erin. Without the support of the Nationalists the voluntary enlistment plan designed to enroll 50,000 men by July 1st, will be seriously handicapped. Likewise if the Catholic Church continues adamant, further difficulties will confront any enlistment plan.

But, in any event, Viscount French is determined to go ahead, co-operating with the prominent Irishmen not too closely identified with either of the opposing elements.

John Dillon, Nationalist leader, is not likely to give any assistance. He has repeatedly declared he never stood on a recruiting platform and never would. However, two members of Dillon's party, Captain Stephens and Dr. Arthur Lynch, Nationalist member of Parliament, who sits for West Clare, have offered their services for recruiting.

Lynch fought against England in the Boer War at the head of an Irish brigade, serving under Kruger. But his sympathies in the world war have been entirely anti-German.

Viscount French's plan provides for twenty committees to get the voluntary enrollment scheme under way. Most Nationalists and Clericals refuse to have anything to do with the committees.

## Music and Drama

THE BRANT.

"A Dolls House," the psychological play of the master-psychologist Ibsen, is Elsie Ferguson's latest vehicle and in it the talented and beautiful star appears at the Brant theatre for the first time. This is probably the first attempt ever made to place the work of Ibsen upon the screen, and a notable success has been scored by Miss Ferguson and all concerned, the true significance of the story being brought forth with singular faithfulness. Burns Sisters and Lou have a classy singing and musical offering which is different from the general run of such attractions. Other attractions on the motion picture program include the latest episode of "The Eagle's Eye," exposing the German spy system in America, and another sketch in James Montgomery Flagg's popular series "Girls You Know."

## Laugh When People Step On Your Feet

Try this yourself then pass it along to others. It works!

Onch... This kind of rough talk will be heard less here in town people avoid it. The course will follow the simple advice of this Cincinnati authority, who claims that a few drops of a drug called "freezone" when applied to a tender, aching corn stops soreness at once, a relief soon the corn dries up and lifts right out without pain.

He says "freezone" is an ether compound which dries immediately and never inflames or even irritates the surrounding tissue or skin. A quarter of an ounce of "freezone" will cost very little at any drug store, but is sufficient to remove every hard or soft corn or callus from one's feet. Millions of American women will welcome this announcement since the inauguration of the high heel.

G. T. R. EMPLOYEES GIVEN HIGHER WAGES

New Schedule For Transportation, Motive Power, Car, Passenger Depts.

Stafford, July 9.—A copy of a schedule has been signed by G. T. R. President Howard G. Kelly and J. L. Berger of Hamilton, for the union of employees of the transportation, motive power, car and passenger departments. This schedule grants increases ranging from 5 to 30 per cent, and means an average increase of 10 per cent. The new schedule also fixes a daily work of 10 hours, with overtime after that. Work on legal holidays is designated

overtime, to be paid for extra at regular rate. The rules also give an employee in the service more than three years, the right to demand an investigation if he thinks he has been dismissed unjustly, and to appeal to higher officials up to the vice-president. Quite a large number of men are affected here.
