HAD NO INSPECTOR.

Some parties have been asking if Mr. Pluraridge was inspector in 1898 when the defective granolithic walks were laid. It is only fair to Mr. Plumbridge to say that there was no inspector when the bad walks were laid. The work was done under City Engineer Topp and the late superintendent. Naither, however, could be present all the time to watch the work and the result was defective walks. All the sidewalks put down under the inspection of Mr. Plumridge have proved to be perfectly good and none have turned out defective.

THOSE LAW STAMPS.

How the Government Policy Can Change to Suit Oircumstances

G. G. Martin when asked about Mr. Holmes teing distributor of law stamps said: "Well, so far as legal profession is concerned the stamps are just where we want them, and where I long ago advocated having them. But what gives me the gripes is the confounded sanctimonious hypocrisy of the Ontario Government in the matter. Two years ago I sent a petition to the Government signed by nearly all the lawyers in the county to have these stamps placed where they are. What was the reply? The Government said that it was entirely against its policy to have the stamps sold in the office were they are used and cancelled, as it left a wide door open for fraud upon the Government. I saw this point was well taken because many years ago a similar office in Osgoode hall swindled the Government out of many thousands of dollars by selling the stamps and not placing them on the documents filed at all. The fraud was discovered accidentally through a law suit where a document was required that was supposed to have been properly filed and stamped, but was not. Now, Mr. Holmes is deputy elerk of the crown, and the law stamps are cancelled in his office and yet he is allowed to violate every day the "policy" of the Government by selling the stamps. I said long ago that if Mr. Holmes got the clerkship, the stamps

"would form a side show to his main tent," and so they do. What becomes of the sacred "policy" of the Government, however? When the "policy" of the Government could not give the stamps to the late Mr. Campbell, I submitted the names of three other officers in Harrison hall who would readily accept the position, if declared vacant; but these officers did not wish to appear as fishing for an office while still held by Mr. Holmes.

"The Government finally wrote me that it

still held by Mr. Holmes.

"The Government finally wrote me that it could not get anybody in Harrison Hall to accept the position which, of course, was an infernal lie pure and simple. I shall fully explain this and Mr. Holmes' appointment to the clerkship to the people of Kent during the coming election and all the actors concerned in it shall be graphically described. The five or six Division Court lawyers of Chatham who sacrificed themselves as to of Chatham who sacrificed themselves as to the clerkship and compromised on Mr. Holmes in order to freeze out Walter Mills are all scheduled for the junior judgeship of Kent. The leading Liberals throughout the riding declare that they will not any longer to do the screeching and howling for a little coterie or cabal of impecunious lawyers in Chatham who assume to control all the patronage crumbs that fall from the Government tables. This game has been played a few times too often as Mr. Stephens will discover the mement he treks on the back concessions. of Chatham who sacrificed themselves as to
