

MAKES MEN SOUND AND STRONG

Specialist Making Men's
Accept Your Case, Giving
Individual Treatment, You
Use it in the Privacy of
Your Own Home.

May Pay When You are Cured.
A Detroit Specialist who has 14 diplomas and
certificates from medical colleges and state boards
of medical examiners, and who has a vast experi-
ence in treating diseases of men, is positive he
can cure a great many so-called incurable cases.

DR. S. GOLDBERG.

The possessor of 14 diplomas and certificates,
who wants no money that he does not earn.
In order to convince patients that he has the abil-
ity to do so, Dr. Goldberg will accept your
case for treatment, and you need not pay one
penny until a complete cure has been made; he
wants to hear from patients who have been unable
to get cured, as he guarantees a positive cure for
chronic, nervous, blood and skin diseases,
which he accepts for treatment. He not only cures
the disease itself, but likewise all the complica-
tions, such as rheumatism, bladder or kidney
trouble, loss of vitality, stomach trouble, etc.
He guarantees that it is one thing to make
another thing to back them up; so he
it a rule not to ask for money unless he
cures you, and when you are cured, he feels sure
that you will willingly pay him a small fee. It
seems, therefore, that it is to the best interests of
everyone who suffers to write the doctor confi-
dentially and lay your case before him, which will
receive careful attention, and a correct diagnosis
of your case will be made free of charge; if you
have lost faith, write him, as you have everything
to gain and nothing to lose; you must remember
not one penny need be paid until you are cured.
All medicines for patients are prepared in his
own laboratory to meet the requirements of each
individual case. He will send a booklet on the
subject, which contains the 14 diplomas and cer-
tificates, entirely free. Address him simply 111
Dr. S. Goldberg, 288 Woodward Ave., Room
Detroit, Michigan. Medicines for Canadian pa-
tients sent from Windsor, Ont., consequently
there is no duty to be paid.

M'KINLEY'S DEATH.

How the Associated Press Worked to
Get and Give the News.

On the afternoon of Sept. 6, 1901,
worn out by a long period of exacting
labor, I set out for Philadelphia with
the purpose of spending a few days at
Atlantic City. When I reached the
Broad street station in the Quaker
City I was startled by a number of po-
licemen crying my name. I stepped
up to one, who pointed to a boy with
an urgent message for me. President
McKinley had been shot at Buffalo,
and my presence was required at our
Philadelphia office at once. A mes-
sage had been sent to me at Trenton,
but my train had left the station pre-
cisely two minutes ahead of its ar-
rival. Handing my baggage to a hotel
porter, I jumped into a cab and dashed
away to our office. I remained there
until dawn of the following morning.

The opening pages of the story of the
assassination were badly written, and
I ordered a substitute prepared. An
inexperienced reporter stood beside
President McKinley in the Music hall at
Buffalo when O'Leary fired the fatal
shot. He seized a neighboring tele-
phone and notified our Buffalo corre-
spondent and then pulled out the wires
in order to render the telephone a
wreck, so that it was a full half hour
before any additional details could be
secured.

I ordered competent men and expert
telegraph operators from Washington,
Albany, New York and Boston to hur-
ry to Buffalo by the fastest trains. All
that night the Buffalo office was
pouring forth a hastily written but
faithful and complete account of the
tragedy, and by daybreak a relief force
was on the ground. Day by day
through the long vigil while the presi-
dent's life hung in the balance each
incident was truthfully and graphically
reported. In the closing hours of the
great tragedy false reports of the
purpose of influencing the stock
market, and to counteract them Sec-
retary Cortelyou wrote frequent sign-
ed statements giving the facts to the
Associated Press.—Melville E. Stone in
Century.

LITERARY DRUGGERY.

Froude passed seven years in collect-
ing materials and writing his "History
of England."

Nearly five years of Irving's time
were consumed in writing "The Life of
George Washington."

Gibbon devoted over twenty years of
his life to the labor of reading for and
writing the "Decline and Fall."

Dickens says in the introduction to
"David Copperfield" that he spent two
years in the composition of that novel.

Bancroft devoted nearly thirty years
to his "History of the United States,"
which is not a history of the country at
all, since it ends where the history of
the country properly begins.

Cruden labored nineteen years on his
Concordance to the Bible and imme-
diately after its publication was sent
to a lunatic asylum. He never fully
recovered from the mental disease
brought on by this gigantic undertak-
ing.

Primitive Water Pipes.

Very primitive water pipes of an an-
cient date have been discovered in the
streets of Manchester, England. They
were hollowed out from trunks fitted
together so as to make a wooden con-
duit. The joints were somewhat in the
style of those of a fishing rod, the
thin end of one trunk being made to
fit into the thick end of the other. It
is supposed that this means of sup-
plying Manchester with water was in
use about 200 years ago, and discov-
eries of the same kind made in other
towns go to confirm that view. The
boring through the wood was about
four inches in diameter. The supply
of water in those days was not only
much less in absolute quantity than
now, but very much less in proportion
to the population.

Highholes' Large Families.

Few birds have larger families than
the highhole, but were it not for the
number of his family, how could he
hold his own among so many enemies?
His conspicuous size and color always
make him a shining mark to the col-
lector, for every village lad in the land
has collected flickers' eggs. He is a
fellow of expediency, however. If his
home is robbed, his wife soon lays an-
other set of eggs. It is on record that
one pair, when tested by the removal
of egg after egg, laid seventy-one eggs
in seventy-three days.—St. Nicholas.

What You Don't Hear.

You hear something like this every
day in the week: "Ten years ago he
couldn't get credit for a suit of clothes.
Now he can write his check for \$50,000." But when did anybody hear any-
thing like this? "Ten years ago he
was thoughtless and regardless of his
fellow men and cared for nobody but
himself. Now he is kind and gentle
and is a constant encouragement to all
who desire to enlarge their faith in hu-
man nature."

Incompatible.

"What would you do if you had a
hundred thousand dollars?"
"I'd own a private yacht."
"Then you wouldn't have a hundred
thousand dollars."

Strange Women.

In Japan it is the height of bad form
for a woman to express an opinion
contrary to that of her husband. Won-
derful people!

The Result.

Friend—What was the result of the
consultation of doctors? Invalid
(glancing at the receipt bill)—It left
me in a very poor condition.

"I am well now and enjoying better health than ever before in my whole life."

That is the statement of a woman who
had never been well until she was made
well by the use of Dr. Pierce's Favorite
Prescription. There are a great many
other women in like case. They have
always been sufferers from disease. They
have never known the joy of perfect
health.

For all such women Dr. Pierce's Fa-
vorite Prescription holds out the pros-
pect of perfect and permanent health, by
the cure of the womanly diseases which
weaken women. It establishes regular-
ity, dries weakening drains, cures inflam-
mation and ulceration, and cures female
weakness. It makes weak women strong
and sick women well.

"It gives me pleasure to let you know of the
great benefit received from Dr. Pierce's medi-
cine and the advice which you so kindly sent,"
writes Mrs. Bertie Parker, of Bonham, Texas.
"I took your 'Favorite Prescription,'
'Golden Medical Discovery' and 'Pleasant
Pellets,' and followed your advice regarding the
'Lotion Tablets,' and am cured. I had been
treated by different doctors and spent one hun-
dred dollars for treatment and medicine, but
received very little relief. I have only spent
seventeen dollars and fifty cents for your medi-
cine, and I am cured. I suffered from
ulceration and falling of uterus, irregular
periods, severe nervousness, also irregular periods.
I had bearing-down in lower portion of body and
great pain all through my body. Pain in uterus
was very severe. Had smothering spells, breath-
ing was very short all the time, had pain in stomach,
pain in my thighs, pain in breast, also between
my shoulders. Bowels constipated. I am well
now and enjoying better health than ever before
in my whole life. Am happy to tell you that
I was cured by your good advice and good medi-
cine, the 'Favorite Prescription,' 'Golden Medi-
cal Discovery,' 'Pleasant Pellets' and 'Lotion
Tablets.' These medicines cured me and will
cure others also."

The dealer who offers a substitute for
"Favorite Prescription" does so to gain
the little more profit paid on the sale of
less meritorious medicines. His profit is
your loss, therefore accept no substitute.
Dr. Pierce's Pleasant Pellets regulate
the bowels.

Embassy in London in 1818.

In connection with the announcement
that Whitelaw Reid has leased Dor-
chester House, in the opinion of many
the finest private residence in London.
It is interesting to recall the modest
establishment of one of the earlier em-
bassy to London from the United States.
Richard Rush, who was sent to the
court of George III. in 1818, has left a
record of his own house hunting in
London, where at that time, he says,
"houses of the first class, with sumptu-
ous furniture to suit, were not to be
hired at all." However, Rush did not
want a house of the first class, and af-
ter inspecting numbers of furnished
residences his choice fell upon one in
Baker street at a rent of 450 guineas a
year. The rooms were twelve, exclu-
sive of the basement, and water from
the New River was conveyed to every
floor. The house was small, but this,
as Rush explained, was in keeping
with the smallness of his salary. "Never-
theless," said the patriotic minister,
"it is not for those honored by being
selected to serve the republic abroad to
complain."—London Pall Mall Gazette.

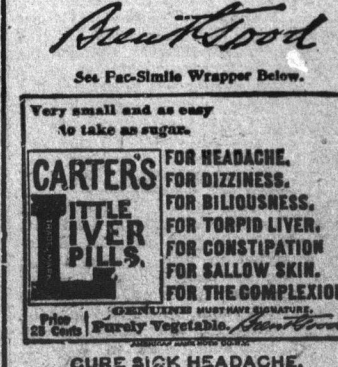

Municipal Ownership.

Vienna, without much talk about it,
has gone even further in some respects
in municipal ownership of certain util-
ities than London or Brussels. It has
municipalized its gas and electric
lighting plants, has provided municipal
pawshops, runs its own traction sys-
tem and even has a municipal system
of life insurance. Formerly, owing to
its bad water supply, Vienna was an-
nually scourged by typhoid fever, but
the municipality took in hand the con-
struction of a water system and tapped
the pure lakes and springs of the Alps,
many miles away, and now has as
pure a water supply as any city of Eu-
rope, not even excepting Glasgow,
which draws its water supply from
famed Loch Katrine. As a result of
this wise enterprise the city is now
practically free from typhoid.—New
York Tribune.

Nations, like individuals, live and
die, but civilization cannot perish.

GREAT EARTHQUAKE.

Most Violent Disturbance in Central
Asia Known in Years.

Vienna, July 25.—One of the most
violent earthquakes ever known was in-
dicated by the seismographs of the hy-
drographic instruments at Ljubljana and
Pola Sunday.

Between 3.55 and 4.17 a. m. the in-
struments showed extraordinary move-
ments in waves, signifying an earth-
quake catastrophe at a distance of 6,
000 kilometres (about 3,700 miles).
At 7 a. m. the instruments were still
vibrating.

The distance indicated by the seis-
mographs would locate the earthquake
in Central Asia (the most probable
point) or in mid-Atlantic.

Recorded in Toronto.
Toronto, July 25.—The earthquake
reported yesterday was recorded, on
the seismograph at the Meteorological
office as one of the greatest distur-
bances on record. The instrument shows
it began suddenly at 10.12 p. m. Sun-
day night, which would correspond
with 1.0 a. m. yesterday, Greenwich
time. The quake lasted 3 hours and
15 minutes. It attained its greatest
force between 10.25 and 11.15 p. m. The
maximum movement was recorded at
10.45 p. m., and the swing of the boom
amounted to 20 millimetres.

THINK OF ME AS DEAD.

So Wrote 14-Year Florence Mowers to
Mother on Elopement.

St. Thomas, July 25.—Mrs. Mowers,
who lives at Port Bruce with her 14-
year-old daughter, Florence, and who
attends the markets here regularly,
came to the city on Saturday morning
as usual and on her return home found
her daughter missing and a letter from
her on the table reading:

"Good-bye, mother. Think of me as
dead. I am going to follow you, as it is
no use. We are going to the States to get
married."

The girl, Mrs. Mowers reported to
the police Sunday, ran away with a
man named Walter Weir, 35 years of
age, who has been around Port Bruce
for some time. He was a married man,
Mrs. Mowers says he claims to have
secured a divorce from his wife, who
is at present living at Port Stanley.
The girl was seen in the city at 6
o'clock on Saturday night, and the pair
are supposed to have gone to Detroit.

BRITAIN CUTS GERMANY OUT.

Trade Figures With Canada and What
Is Proved.

London, July 25.—The Financial
News correspondent quotes certain
figures from the latest report of Ger-
man statistical data to show how
Great Britain's imports to Canada
have increased at the expense of Ger-
man trade. Since the new customs
regulations came into force the value
of the imports fell from \$12,300,000 in
1902 to \$8,200,000 in 1904, whilst for
the same time British imports rose
from \$58,900,000 to \$61,800,000. The
chief German falling off is in iron and
foodstuffs, whilst woollens and ready-
made clothing somewhat increased,
and sugar has been annihilated.

MR. PARENT CHAIRMAN.

Changes on the Transcontinental
Railway Commission.

Ottawa, July 25.—Premier Parent of
Quebec will be here to-day, when it is
expected that arrangements will be
made to appoint him Chairman of the
Transcontinental Railway Commis-
sion, in the place of the late Mr. F. B.
Wade.

Mr. Brunet, the Quebec commis-
sioner, will retire in favor of Mr. Parent.
Mr. C. F. Macdonald, M. P. for Anti-
gonish, has been mentioned as the
representative of the Maritime Pro-
vinces on the commission.

MR. KELLIHER APPOINTED.

Chief Engineer of the Grand Trunk Pa-
cific An Irishman.

Montreal, July 25.—Mr. B. B. Kelli-
her has been appointed chief engineer
of the Grand Trunk Pacific, with head-
quarters at Montreal.

Mr. Kelliher has been with the Grand
Trunk Pacific since 1904 as division en-
gineer at Winnipeg, which office he held
until his recent appointment to the
chief engineership. He is an Irishman,
but from 1886 to 1901 had wide railway
experience in the States. He, however,
never took out naturalization papers or
dropped his British allegiance.

Mrs. Kyle Committed For Trial.

Ingersoll, July 25.—Mrs. Kyle was
yesterday afternoon given her prelimi-
nary hearing before Police Magistrate
Morrison, and was committed for trial
at the fall assizes for the shooting of
David McGee. No defence was entered,
the only witnesses being Dr. Tait, Ray-
mond Hutt, who loaned the revolver,
and Miss Whitman, who was at the
Kyle homestead on the morning of the
shooting.

Hurricane Destroys Island.

Sydney, N.S.W., July 25.—News has
been received here that a hurricane
devastated the Marshall Islands June
30.

The Marshall Islands form a large
archipelago of small islands of coral
formation northeast of the Ladrone
Islands, Polynesia.

Flaxseed Market Cornered.

Buffalo, July 25.—John D. Rockefeller,
through the American Linseed Oil
Co., has cornered the flaxseed market,
and has compelled the three big in-
dependent mills here to close. The price
of linseed oil will be advanced 40 cents
a gallon. This advance will seriously
affect many industries.

Youth Arrested For Theft.

Listowel, July 25.—A young man
about 17 years of age, named Ben Mer-
rick, was arrested here yesterday af-
ternoon by Chief Hardwick for theft
in Palmerston. He had handed over to
Chief Darroch of Palmerston, who is-
sued the warrant for his arrest.

Toadstools Kill*Four.

Philadelphia, Pa., July 25.—Toad-
stools mixed with mushrooms and
eaten at a birthday party has caused
the death of four of the six members
of the family of Joseph Franson, a
farmer who resided near Landisville,
N.S.
