The Best in the World

HI-PO Waterproof DRY Batteries

ABSOLUTELY GUARANTEED

For all Ignition and Open Circuit Work

The only real Waterproof Dry Cells made

Water and dampness have not the least effect on these batteries, which can even be left standing in any water without risk of short-circuits.

They last longer and cost no more than the ordinary dry cells

Not made by the Trust

DO YOU REALIZE how many dry batteries you have lost on account of moisture? The usual dry cells are no safer than bare wire; absolutely unprotected against contact, moisture, water, etc.

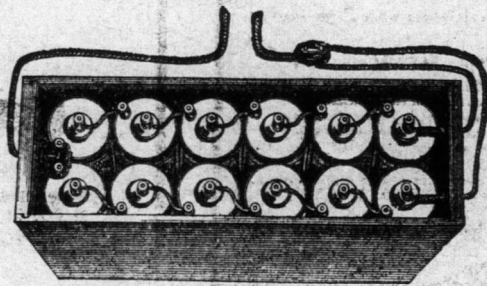

You would never think of using copper wire that is not heavily insulated, would you?

The Hi-PO Waterproof Dry Cells are the only Cells protected by an insulated Waterproof Case, just as safe as insulated waterproof wire.

You can leave them exposed in any weather, on land or water, without risk of short-circuit.

The amperage is purposely made moderate, because high amperage cells do not give as much service.

This cut illustrates the most practical method of using HI-PO WATERPROOF DRY CELLS, namely: in double series. By means of a switch one set is allowed to recuperate while the other set is in use.

COLLEGIANS DEFEAT CASUALS BY 2 GOALS TO 1.

The usual "first evening" gathering of spectators witnessed the opening game of the League fixtures last night between the Collegians and Casuals. The former came off victorious by a score of 2 goals to 1. It seemed that no referee had been appointed, and when 7 o'clock arrived there was a sort of a tie-up until Mr. W. J. Higgins put in an appearance, and he promptly filled the bill to the satisfaction of onlookers and players alike. At 7.10 the teams were called to the arena. The Casuals won the toss and decided to defend the western end with a strong breeze of wind in their favor. The game commenced at 7.15 with a rush by the Casuals. Cunningham took control and bringing the ball down the right wing centred across his opponents' goal. A scrimmage followed and a corner was conceded the Casuals, but nothing resulted. On the kick off the Casuals forwards again captured the leather. Searle and Cunningham combining nicely. The latter centred and Morgan caught the leather on his head in the mouth of the Collegian goal and only missed by a small margin. The College boys "bucked up" and went west, but hands were given against them and the ball was again driven to their territory. The Collegians made a second attempt to reach their opponents' back quarters, but they were to a disadvantage by the strong wind and were repulsed easily. Up to this stage of the game there was an apparent lack of combination on both sides. The Casuals were having the best of the game until Aitken Smallwood and Hutchings combined and made a splendid run up field breaking through their opponents ranks. Hutchings lost to Barnes, but Smallwood picked up the leather and passed to Pippy, who was off side, and a splendid opportunity to score was lost. For the next five minutes the College boys were bombarding the Casuals' goal and had hard luck from scoring. The Casuals' forwards now put energy into their work and brought the ball to midfield. Cunningham got away east and when about to shoot was fouled and a penalty kick was awarded. Dick placed the ball and the first goal for the season was recorded. On resuming the Collegians continued their attacks, which were very effective. A free kick resulted in Ayre landing the ball in the twines, but as the ball did not strike a player, no goal was awarded. The half time whistle sounded with the score 1 to 0 in favor of the Casuals.

Hr. Grace Notes.

Codfish were fairly plentiful in this market this morning, but the fishermen think the "sign" is anything but good. They say that when they have to go to the choice places, and then get them sparingly the sign is not good for this season.

The King Edward Brigade attended the morning service at Christ Church yesterday and were addressed by the Rev. C. M. Stickings.

The C. C. C. lads embarked on the S. S. Euphrates at 8.30 yesterday morning for Carbonear. The boys looked well, and the beautiful morning, the music by the band made the hours run very pleasant. They were met by the officers of the Carbonear C. C. C. They attended Mass at 10 o'clock, Rev. Fr. McCarthy officiating. At 12.30 they started on the return trip, arriving here about 1.30.

Mr. Augustus Pynn lately purchased the piece of land on which Christ Church School now stands. The school building will be removed and Mr. Pynn will build a house on the site. Although well up in years he intends to build an up-to-date house. We wish Mr. and Mrs. Pynn many years in which to enjoy their home.

Constable A. Dwyer left by the S. S. Stella Maris on Saturday afternoon for the Labrador Coast, where he will do police duty during the summer.

It is said that the desirable premises known as Donnelly Hall will soon be converted into an hotel. This is good news to Harbor Gracians, but still better to others who may be anxious to enjoy our beautiful town during the summer. We hope the report is correct, and our informant assures us it is.

Mr. Seekings, of the cable staff, is now at Halifax on a holiday. Dame rumour says that Mr. S. will soon forsake the ranks of bachelorhood and enter the matrimonial state. The lady of his choice spent a couple of years here lately and made many friends, who will be pleased when Cupid finishes his work.

Mr. H. Harding, the carpenter at the Dock, having finished his work left last week for his home in Boston. Mr. Urrwin, the superintendent, is remaining a few days longer.

NOTES.

The Collegians are to be congratulated on their success.

The game on the whole was not up to expectations.

Hutchings for the Collegians played a grand game.

The opening of the second gate at the entrance to the field appeared favorably to all last evening.

The match looked for this evening is the Highlanders vs. C. C. C.

Highlanders—Goal, Mercer; backs, LeGrow, Adams; halves, Churchill, McKinley, Ledingham; forwards, Butler, Auckinleck, Rennie, Morris, Chaney.

Casuals—Goal, Mitchell; backs, A. Barnes, Dick; halves, Brown, Stevenson, Fraser; forwards, Morgan, Lumsden, Searle, Baird, Cunningham.

Referee—Mr. W. J. Higgins.

Linesman—L. Rodgers, R. Evans.

Turnip seed is a very scarce article in town at present, and many people are unable to get a supply. It is expected that a good supply will soon arrive.

The appraisers for the Water Co. who did the work in 1910 are not yet paid. They have been sent from one to another until their patience is well nigh exhausted. There will soon be wages on the green if that cash is not forthcoming.

Harbor Grace, June 10th, 1912.

Light, Warmth and Food.

These three words embrace the most urgent necessities of Life, and it is an extraordinary thing that in each case our thoughts turn to Gas; this, after all, is but natural. We want Light, gas gives us the best, cheapest, and healthiest artificial light known. Again, we want Warmth, and the gas fire is at hand to give it in its best form; and, lastly, we must have Food, and here the gas cooker never fails us. All this is absolutely true, as we have shown over and over again.

If, however, any of our customers are in the least doubtful on any of these points, we cordially invite them to consult us. In the meantime, our advice is to get good burners and buy mantles of well-known makes, to use modern gas fires and cookers, and, above all, to keep your gas appliances (whether old or new) in good order, for in this is the true secret of efficiency and complete satisfaction.

St. Andrew's Society Meeting.

St. Andrew's Society last evening held a largely attended meeting in the Board of Trade rooms. The President, John Browning, Esq., presided, and the part which the Society will take during the summer in sporting and other matters was discussed. A dance and picnic will be held shortly and committees were appointed to conduct them. It is likely a football team will be organized to enter the League next season, when no doubt, as in the past, St. Andrew's Cross will be well to the fore. The Society will enter a crew in the Regatta and have secured a boat, but have not determined yet whether they will row in the Society or Amateur races. A committee will arrange for the outing. Several new members were added to the roll, after which the meeting adjourned.

LIPTON'S ESSENCE OF COFFEE & CHICORY

THE FIRST of its kind, and still remains FIRST in its kind.

Four Reasons for its popularity are:

- 1--High Quality.
- 2--Delicacy of Flavour.
- 3--Simplicity of Making.
- 4--Low Price.

A trial will convince anyone who may not have previously used it.

A Request.

Editor Evening Telegram.

Dear Sir,—Please grant us sufficient space in the columns of your valuable paper to request the editor of the Daily News to refrain from reporting every little bit of wreckage seen on the ocean and commenting upon it in a way that connects it with the missing vessels Beatrice and Grace. The feelings of the relatives are sad and hard enough without being so often reminded of the possible loss of their friends. He was not anxious to take the reports of the three men that were in the Florizel and stated that they saw a vessel in the ice which might have been one of the two missing, but as a member of the Legislature he ought to interest himself and see that some of the passenger boats are not captained by men who, according to the three men that made the statement, could overlook that vessel.

Yours truly,

RELATIVES.
Carbonear, June 8th, 1912.

Woman Receives a Fright.

Saturday night a woman resident of Monroe Street was passing the corner of Cabot Street and Barter's Hill when a man emerged from the darkness and accosted her in a coarse and brutal way. The woman ran to Mr. Jas. Kenny's shop, from which she had just emerged, and on arrival there fainted. After reviving, Mr. Kenny escorted her home. This place is very dark and often prowlers are about there at night. A light is imperatively needed in this spot and the Council should give the matter some attention.

SAVAGE DOGS.—The residents of the Blackmarsh Road are complaining of the horde of savage dogs that roam around that locality. The pests should be exterminated.

GOOD TRAPPING.—Yesterday at the Grate's Cove good trapping was done, fishermen securing from 10 to 15 qtls, though line men did poorly.

The Housewife.

All day she is toiling she's baking, she's boiling, she's cleaning the windows, she's sweeping the floor; she's sewing on patches and picking up matches and chasing the agents a way from the door. She's cooking, she's canning, she's scheming, she's planning, she's looking for dust with her eye to a lens; she's laboring hard in the early spring garden, she's begging the neighbors to keep up their hands. She's dying her dresses and sweetly confesses they'll look pretty well when they're turned inside out; she's putting up pickles to save a few nickels, she's whacking up cabbage to make into kraut. There's no rest or play time through all the long day time, there's nothing in sight that would make her heart glad; and even when she's sitting she takes up her knitting to fashion a sock or a muffler for dad. Oh, why should a woman do tasks superhuman? What pleasure to her does existence accord, and what is the guardian that pays for the burden—where finds she the profit, and where the reward? Her husband is coming, a roundelay humming, he calls her a pet name and gives her a kiss; her weary face brightens, with love her eye lightens, she seems quite content with such payment as this.
