how much will you have accumulated at your present rate of saving? Most men will have little or nothing saved if conditions are at all similar to those of to-day.

Every provident young man appreciates the wisdom of ac-cumulating for his own benefit at least, and looks forward to an old age of comfort and enjoyment relieved from want and worry. And every thoughtful man endowed with manhood feels that a duty rests upon him to make some provision for others depend-

The safest, simplest and most profitable way to accomplish all this, and to be sure of a snug competency by the year 1932, by investing in a Canada Life Endowment Policy for \$5,000 or \$10,000, according to your means and requirements. The poley can be bought on easy instalments and facilities are provided to assist in carrying and enjoying the insurance.

We are told of the two or three miles of motor drives. Indeed Mr. Six-Dollars-a-week-and-six-children will be overjoyed at this! and his family will dissolve in tear of gratitude when they think of the motor drives! And with what joy will he spend his dollars to see a waterfall! Rennie's River waterfall won't do at all—it is too natural! But who thinks of the poor? They are in the mud—let them stay there—is our way. The Council, I believe is to keep these Parks up. Gertainly. We have no money to give Tank Lane water (although they pay us water rates), but we'll spend a thousand or two to

support Mr. Bowring's Park. It was an opportunity for the Councillors to speak a word for the people now? Will they wake up? Yours truly, ANDANTINO.

Last year it will be remembered the Klark-Urban Company with character best dramas in aid of the city orphan ages and distributed amongst these in-stitutions a handsome sum of money This kindness the company will re-peat to-morrow afternoon producing the "Golden Rule" as a matinee.
