"Molassine" Meal

is as useful in Summer as in Winter.

"MOLASSINE" MEAL helps all animals to get greater nourishment out of their other foods and digest them.

Worms cannot exist in animals fed on "MOLASSINE" MEAL. It is therefore a necessity during the grazing season.

Good for: HORSES	SHEEP
COWS	CALVES
OXEN	LAMBS
PIGS	POULTRY

Try "MOLASSINE" DOG CAKES on your Dog.

Expired Suddenly.

Mrs. F. W. Ayre received a letter on Monday last announcing the sudden death of her daughter, Estcourt Southcombe. The sad event occurred on July 12th, at Quinshull, England. Deceased, accompanied by her husband, was spending a summer vacation when she was suddenly stricken and succumbed. Heart failure is supposed to be the cause of her demise. The deepest of sympathy will be extended to Mrs. Ayre and other relatives and in which the Telegram joins.

Coloured Men Return.

Five coloured men came here by the sch. "Jean" about a month ago. Later on they went to Sydney and after had to return to Grand Falls as they were not allowed to land at Sydney. The poor chap who went pretty well spent out came back to Grand Falls and but for the kind-hearted American minister there might have starved. He gave them work about his place and the men who returned to the city by the express to-day expressed their gratitude to him.

Good Haul of Fish

At Elliston last week the Messrs. Porter and Halls had good fares of fish. Their traps secured from 30 to 40 qts. and for the week they had over 150 qts. Crews and Stead's men also did well and matters looked up a bit for hook and line men who, though the fish is scarce, fished 3 and 4 qts. daily.

Tar-Dust Clouds

KILL PARIS TREES.

Keeper of Bois de Boulogne Sounds Warning Against Treatment of Roads—Favor Bitumen Pavement. Scientific Commission Reports Final Destruction of Trees by Tar Inevitable.

Paris, June 29.—There is a feeling of dismay over the announcement this week of the keeper of the Bois de Boulogne, M. Le Forestier, that unless the present system of tarring the roadways in the avenues of the Bois is promptly discontinued there will be no trees left at all.

worst spot is at the entrance of the Avenue de Bois, near the Arc de Triomphe, where the once fine chestnut trees are in a deplorable condition and practically denuded of leaves. But all along the thoroughfares of the most fashionable sections of Paris the trees are dying or dead.

More Dead Trees. It is officially stated that since the roadway has been tarred to minimize the dust the number of the dead trees which have had to be replaced by new ones has multiplied by four. Moreover, the young trees which have been planted are unable to flourish, owing to the poisoning of the soil and rapid perishing.

Although a grant of \$6,000 was recently made by parliament for the planting of new trees in the Avenue du Bois, Le Forestier has not yet touched the money, asserting that until some new method is introduced such an expenditure would be throwing the money into the gutter.

Conditions are the same throughout the more frequented roads, which are treated with pitch, and there is a very strong feeling on the part of the public that no time should be lost in radically changing the present methods and ensuring that no further damage shall be done to the vegetation of the historical park.

ATTENDING SERVICE.—The C. C. C. of Carbonar, will leave there by a special train to-morrow to attend service at Blyss. Quite a number of people go with them.
