Ontario Finances.

The following brief synopsis of the state of the finances of Ontario which is given in the Dundas Banner, will be of interest and benefit to our numerous readers in West Wellington, who are at present in the throes of an election contest. As such we commend it to their careful consideration, and feel satisfied that if they do so in an unbiassed and fair manner, no other conclusion can be arrived at than that the utmost carefulness and good judgment has characterized the management of this department, which is in charge of Mr. Crooks. When the Reform Government took office in December, 1871, the financial position exhibited a surplus in invested funds of \$3,637,979, which was chargeable with the 'amount of Sandfield Macdonald's Railway Aid Fund, \$1,600,000, and with the large sum of \$764,594 representing unexpended appropriations, of which \$348,991 was for public works and buildings and finishing the Central Prison. The institutions thus undertaken by Mr. Sandfield Macdonald's Government became legacies for the new Government person upon the basis of Elhott's contract, entered into by the former Government, with accomodation for 336 prisoners, amounts to the sumr of \$426,000, of which nearly \$3500,000 was not expended till the year 1873. The entire cost of constructing and finishing the Central Prison, with workshops and other appliances, and with accomodation for \$350,000 was required to finish the prison upon the basis of Elhott's contract, entered into by the former Government, with accomodation for \$426,000, of which nearly \$3500,000 was required to finish the prison upon the basis of Elhott's contract, entered into by the former Government, with accomodation for \$426,000, of which nearly \$3500,000 was required to finish the prison upon the basis of Elhott's contract, entered into by the former Government, with accomodation for \$4 prisoners less than can now be received, and Ontario Financès, Government, with accomodation for St prisoners less than can now be received, and no workshops, machinery or appliances required for the special industry of railway car building estimated for. The amount of invested funds on the 30th September, 1874, was, the sum of \$4,341,153, over and above the premium thereon. There had been paid to railways about \$830,000, making over \$1,500,000 for these purposes alone. And yet the invested funds on the 50th September, 1873, show an increase of \$700,000 over the amount invested on the 31st December, 1871—the close of the last finencial year under Mr. Sandfald Macdonald's administration.

The Treasurer's statement of the a surplus of \$1,7.6,3.2.91. The ada the face and by Orders and by Orders and by the Legis'a mayor not yet made agrees, while saven the allow the saven and art of the saven are saven and art of the saven are saven as a saven as a saven are saven as a sav have portions to finish. From the Railway Fund 852 miles of railway have been added and more than half that milegg has been completed; while 50 miles have been added from the Rullyay Subsaly Fund

THE TEACH OF EURO E .-- A short time ago Cardinal Manning Wis waited upon by the Malleso residents of Britain and presented with an address of congratulation on being raised to the College of Cardinals. in reply the Cardinal said, "I am no prophet; but I think none needs prophet; but I think none needs the gift of prophecy to perceive that the armament of seven millions of men at least, with a power of destruction which has never been equal-led in the annals of warlike nations, all portend to a greater and bloodier conflict in Europe than we have hitherto witnessed. I think it is a shame and a scandal to the Christian world to see the misery and the scourge the sins of governments have created and brought about by the apostles of revolution, who make ittheir first and chief object to pull down the temporal power of who make ittheir first and chiefobject to pull down the temporal power of the Vicar of Jesus Christ, and when they have accomplished that fact, I will venture to prophecy—and my prophecy—is this: If the Christian world we destroy, he will never again reign over it, but if the Christian world is to survive, the sense of justice will one day put lim back again in his seat. But even that the Christian world will

My words were not a threat, but a lament, and those who quote my words against me as a firebrand that would set Europe in conflagaration, are among the chief apostles of the gospel of revolution, and the chief agents against the peace of Christian Government. As a man of peace and pagtor of the a man of peace and pastor of the flock, I pray that the Christian mation of Europe may speedily disarm in every country, and may turn to the gospel of peace, to the union of the Christian world."

However unnecessary that it may appear, yet, for my own reputation, also for the benefit of my old friends and customers, and strangers from a distance visiting Guelph, I deem it wise to warn them from being imposed upon by unprincipled persons in the trade, who do not hesitate to deceive parties enquiring for my place of business. I do unhesitatingly state that I am the only man from Guelph who has visited the British and Foreign Markets this season, to purchase goods. I do not hesitate to state that my new Stock will more than double in amount that of any other Establishment in Guelph. I do not hesitate to state that I show in my New Store, Upper Wyndham Street, Newer Styles, Richer Goods, and Lower Priced Goods by 20 per cent. than any other Store in Guelph, and I do not bestate to state that a wise and intelligent public will appreciate and give me their confidence by patronizing my Establishment for their various wants this incoming Fall.
