CABINET CRISIS IN JAPAN. Yokohama, Dec. 28.-Owing to its failure to reconstruct under the premiership of the Marquis Saigo, the balance of the cabinet has resigned. The newspapers demand the formation of a very strong ministry, capable of

coping with the situation in the east. WHAT IS CHINA'S OFFENSE? In an interview with the New York World, Wu Ting Fang, Chinese minister to the United States, explains the

eastern situation.

"What has China done," he asked, by way of preface, "that she should be divided up and parceled out among the powers? What is her offense against the nations or against civilization? Germany is incensed, we are told, because two of her subjects have been murdered. party politics! But the other day he denounced the General Hospital as "a hot-bed of germs," and expressed his decided opposition to using it in providing hospital accommodation. In the jubilee committee, indeed, he advocated the erection, as the one thing needful, of another entirely new hospital in the northern part of the city. That, of course, means the desertion of the present city hospital and site, and an ex-

penditure of \$140,000 or \$150,000. Now Dr. Wilson finds that idea unpopular in some quarters, and he says his views are no longer decided. He is willing to say anything or do any-

thing-only he wishes to be mayor! In London West, he was for the immediate introduction of a water meter system for the city, which would cost \$100,000. By nomination day he found that idea to be unpopular, and he receded to the position that "he really did not know much about the meter

system, but he would consider it"! When Dr. Wilson discussed the sewage question in London West, all the reporters heard him disapprove of the purchase of the river front, and denounce the treatment of the sewage on the farms near the Coves. He said he considered this would not meet with the railway. "He hoped," says the Free Press report, "that the farm idea would be strongly opposed," and he went on to argue that though the asylum sewage works were a success, that was no guarantee that the new sewerage scheme was a wise one. The Advertiser made the correction to suit Dr. Wilson; but stated that his proposal would be an expensive addition to the present scheme, as it would require, according to the engineers, some \$60,000 or more to carry the sewage in pipes to a farm below Byron. This put Dr. Wilson into a worse dilemma than ever, and his friends so told him. The result is that, in less than a month, we find Dr. Wilson endeavoring to place responsibility for the tangle in which he has enmeshed himself upon The Advertiser, which but allowed him to weave the net in which he is entrapped. He says now that he is not opposed to the

R. gain was only \$36,000, ceipts for the week ending Dec. 21, 1897, were \$444,000; 1896, \$408,000; increase, \$36,000. Grand Trunk Railway earnings, Dec. 13 to 21, \$469,957; 1896, \$448,449; increase \$31.508.

DONALD IN AN ENGLISH CHURCH Two "Wild Hielandmen," recruits of a famous kilted corps, were visiting an English church for the first time. They had not long been seated when the organist began to play a lively voluntary. This was something quite novel in their church experience, and they listened in open-mouthed astonishment. One of them was shortly roused from his blissful reverle by a gentle tap on the shoulder. Turning round he saw a handsome lady, the owner of the pew, who smiled graciously upon him and wished, of course, to be allowed to pass to her seat. He did not, however, take in the situation, but at once whispered audibly to her, "Na, na, mem, tak' ma mate here; he will be a better dancer than me.
