BIG CONVENTION

Job Department175 London, Friday, November 25.

The Work of the Convention. The great convention came to an end

The adversaries of the Liberal party

convention from the outset upon fictitious capital. and a member of Parliament, was innaming a small committee and would have expedited matters, but the delegates refused to accept any pre-arranged programme, and demanded that every riding should be represented on the nominating com-

This is only one instance of the self- as follows: assertive spirit of the convention, which showed itself from first to last. This genuine democracy was in keeping with the principles and traditions of the Liberal party. The delegates declined to sacrifice liberty of speech and con- land sea. science to maintain a superficial har-This was the glory of the convention. There were sharp differences of opinion, but plain-speaking was not ister of the Gospel, said, with regard to the temperance question: "I have opinthis time, I will persevere. But I will remain in the ranks of the Liberal party, because it is the only party that has done and will do anything for the This sentiment was cheered to the echo, and will be shared by the vast majority of those who call themselves Liberals.

The resolution on the temperance question calls for any legislation which affords a well-grounded hope of curtailing the treating habit, reducing the consumption of intoxicants, closing drinking resorts and prohibiting the sale of liquor during illegal hours. The convention approved of

e. and no

icipalities

Had this limitation been imposed 50 and even 25 years ago, many municipalities would not now be regretting their short-sightedness in parting with franchises which would have become sources of revenue. Related to this resolution is another which is aimed at the overcapitalization of companies concerned in the operation of public utilities. It calls for the appointment of a commission with authority to deal with the bonding powers and capitalization of such companies, the last night, and its work is before the application of municipalities for consolidating debenture debts, and bylaws purporting to confer monopolistic rights in public utilities. The Hon. J. M. Gibson, who introduced the resolution, thought the scrutiny of such a commission would protect the public against the process known as the against the process known as the You understand, watering of stock. This is a real Off the earth; steam cars will yet grievance in the case of public utilities, as the companies operating them virtually have it in their power to levy a tax upon the public to earn dividends

Mr. Pettypiece scored a trlumph in the adoption of a resolution indorsing his views on the subject of railway taxation. It provided that railway nd direction. The delegates property should be taxed upon the same basis as the property of private citizens or other corporations, and that in framing such legislation the recommendations of the railway taxation commission appointed at the last session of the Legislature should be carried out so far as may be found suitable to the conditions existing in Ontario. It is only just that the resolution should be qualified so that the portunity of submitting their case and showing if they can, why railway property should be differentiated from other

(Continued from page 1.)

OF THE LIBERALS

which he had received, appealed to the convention, and as he sat down he was cheered again and again, Public Ownership.

Without debate the resolutions or public utilities were put to the meeting

and carried as follows: That it has been the policy of the Legislative Assembly under the direction of the Liberal party to give the greatest liberty consistent with safety to municipalities in regard to all mat ters of a local or municipal character.

That for over half a century the municipalities of Ontario have had the right of ownership in toll roads and bridges constructed for the use of the municipalities, and during recent years, under Liberal legislation, a right has been conferred with regard to such public utilities as water, heat, gas, electric light and power, telephone street railways, public parks, libraries

That where these utilities were i the hands of private companies or corporations power was given to municipalities to take them over and operate them for the municipalities and the

ra tepayers. That in 1902 provision was made whereby any municipality, either by itself or in union with other municipalities, could lease or own franchise of waterpowers for generating and trans mitting electricity, and a committee of several municipalities is now considering how this power may best be exercised in connection with the generation of electricity for transmission to justness centers in Western Ontario connection with Niagara Falls,

That the Government obtained authority from the Legislative Assembly to construct at the expense of the publie treasury the Temiskaming and Northern Ontario Railway for the purpose of opening up the northern districts of the Province, which railway is owned by the Province.

That this convention, while approving of the legislation so adopted, desires to express the opinion that any difficulty which experience has shown to stand in the way of ownership by municipalities of any franchise which a majority were steadfast and true. That I could of the qualified ratepayers in that behalf declare to be in the public interest should be removed (due regard being had to the private interests involved), and that all franchises for any public service of any kind whatsoever hereafter granted by a municipality shall be limited to a period not exceeding 30 years, with the right of purchase at Liberal example of purging their party any time within that period on such equitable terms as a properly-consti tuted board of arbitrators might deter

Frequent demands having been made in the past by the city of Toronto for a special charter, and the Government having intimated during the past two sessions its willingness to grant a special charter to the city of Toronto, this "Then, why don't you give me an convention approves of this action, and of a similar course in the case of any city where geographical conditions of other circumstances would warrant the

Sir Wilfrid Congratulated.

Great enthusiasm was manifested when the chairman put the following resolution, moved by Mr. F. E. O'Flynn, and seconded by Mr. John A. Ewan. and unanimously carried;

"That this convention cannot separate without congratulating Sir Wilfrid Laurier and his colleagues on the unprecedented victory just achieved in their appeal to the electors of this great and growing Dominion. They appealed to the country on a triumphant record of administration, as well as on a transportation policy which will make the name of Wilfrid Laurier remembered and known as long as the country endures. It congratulates the electors themselves on their wise and overwhelming decision, and believes that the progress and expansion of this country which is going on will thereby be maintained and increased."

The New Organization.

Mr. D. J. McDougall, of Ottawa, presented the report of the committee upon the proposed new organization: "That the Liberal Association of this Province be composed as follows: (1) The presidents of the Reform Associations in each electoral district; (2) the members of the provincial cabinet; that this association have power to add following gentlemen: Convener, H. M. Mowat, K. C., Toronto; W. S. Calvert, M. P.; Hon, G. P. Graham, M. P. P.; Thompson, D. Joseph McDougall,"

"It seems to me," added Mr. McDouwhich will meet with the approval of the electors throughout the in such a way that there will be nothnificent platform. Every plank is one that I think will be adopted by every ization I think we will succeed."

(Checrs). A shower of votes of thanks formed the concluding business.
Senator Fulford, o of Brockville, moved, seconded by George M. Reid, of refused to accept.

London, the following: "That the thanks of this convention P. Downey. marked the session of Parliament to-day, and this evening the President bers of the convention committee of Mr. J. J. Foy, M. rangements made for the comfort of
