

LORD RENFREW BIDS CANADA FAREWELL TONIGHT

CONVENTION W. L. C. STUDY FUNCTIONS OF Y.M.C.A. WORK

Expect Great Developments to Follow Meeting in Cleveland.

EXPANSION RAPID

Developments of unusual importance in the Young Men's Christian Association movement in North America are expected as a result of a constitutional convention to be held at Cleveland, O., Oct. 17 to 26.

The convention is called by order of the triennial international convention of the North American Association, held last November. It is instructed to study all the questions affecting the general policy of the movement, and of the organization, relationships, and functions of the associations, and their general agencies, and to present its findings to the associations for their action through referendum vote.

The general agencies referred to are the international convention itself; the international committee, thus named because it represents both the United States and Canada; 42 state and interstate organizations; three Y. M. C. A. colleges; nine summer training conferences; and several standing committees and boards.

Basic to the work of the constitutional convention is the question of how the world's largest lay movement, maintaining its traditional democracy of organization, administration and service, can better meet its increasing responsibilities. The question involves many which have inevitably emerged as a result of nearly three-quarters of a century of continued and rapid expansion of the movement in North America, and in its service in foreign countries, especially during and since the war.

Ask Re-organization. The questions are considered to center, in their practical aspects, upon the character and functions of the general legislative body, which has heretofore been the international convention, and upon those of such standing general agencies as the movement, embracing some 2,000 associations in the United States and Canada, may desire and agree to maintain. Preliminary consideration of these questions has produced proposals ranging from the reorganization of the existing order of extensive re-organization.

The constitutional convention, both in the fact of its authorization, and in its potentialities, is regarded as one of the most important occasions and processes in its history. This is emphasized by the care which has been given to making it thoroughly representative and by the surveys and studies made in preparation for its work.

Judge Lyon Chairman. The international convention, which authorized the coming meeting at Cleveland, appointed, for the purpose of making a committee of 33 representatives of the movement geographically and from the standpoint of types of associations and personnel, Judge Adrian Lyon of Perth Amboy, N. J., as its chairman; H. M. Headley of Kansas City, its vice-chairman, and Dr. John R. Mott its executive secretary.

The basis of representation at the convention itself, as determined by the international convention, is for delegates for each 1,200 active members within the field of each state or interstate organization, with each type of association equally represented; twenty representatives of the association movement in Canada; the members of the committee of 33, and not more than 60 delegates selected by the latter committee to represent association interests not otherwise adequately represented. In addition, provision is made for alternate delegates. Under this plan the attendance at the Cleveland convention will approximate 1,500.

Meeting Unique. Apart from its representative character as regards the association movement from every standpoint the Cleveland meeting, it is pointed out, will be unique in its illustration of the sources from which the movement draws its leadership. The lay delegates include business and professional men, and are regarded as representing national reputation, for example: Federal Judge E. P. Bledsoe, Los Angeles, Cal.; Dean O. E. Brown, Vanderbilt University, Nashville, Tenn.; Cleveland E. Dodge, Phelps Dodge and Company, New York; St. P. Penn, vice-president of the Sherwin-Williams Company, Cleveland, Ohio; Walter W. Head, Ontario, Neb., president of the American Bankers Association; Dr. L. N. Himes, president of the Indiana State Normal School, Terra Haute; Alva B. Johnson, formerly president of the Baldwin Locomotive Works, Philadelphia, Pa.; Alexander Lyman, general attorney for the New York Central Railroad Company; Cyrus H. McCormick, Chicago; Alfred E. Marling, formerly president of the American Securities Corporation, Toronto; Major Gerald Birks, Birks, Ltd., Montreal; Major R. R. Moton, principal of Tuskegee Institute, Ala.; Judson G. Rosebush, president of the Patten Paper Company, Appleton, Wis.; E. L. Shuey, Springfield, Ohio, formerly president of the Association of National Advertisers; James H. Speers, president of James McCutcheon and Company, New York City; Hon. Wm. E. Sweet, governor of Colorado; Roy V. Wright, managing editor of the Railway Age, Col. W. J. Brown and Edward Jenkins of this city have been appointed to represent the Canadian associations at this convention.

SOUTH COLLEGIATE GIRL CHAMPIONS.

These girls snapped by The Advertiser staff photographer yesterday afternoon at the four school track meet, Queen's Park, aided in bringing victory to their school. They are, left to right, Front row—J. McCracken, A. Taylor, R. Hewitt, M. Culbert, M. Blankley, H. Milne, L. Bruce, R. Burrows, M. Zavitz, Stand-

ing—G. Shields, F. Robertson, M. Walsh, B. Vollick, B. Cook, E. Sutcliffe, Bittling—H. Hallett, R. Lawton, H. Aitken, J. Zoelner, M. Townsend.

The "Green" Means Speed And Here Is Proof of It

Every night for the last four months, two green and two pink newspapers have been appearing on London streets between 5 and 6:30, giving baseball scores, race results and late news.

The two green editions are The Advertiser. The two pink editions are the Free Press.

And both colors represent a daily battle against time, which the man on the street rarely realizes—a battle for speed in which every second counts.

Below are two tables, in which The Advertiser may perhaps be pardoned for taking a certain amount of pride.

The first table gives the showing made by the green and pink First Extras during June, July, August and September. The second table is a similar record of the Late Extras—The Advertiser "Sporting Green" and the Free Press "Baseball Final."

The tables show in each case the time the edition reached the street, the number of race results it gave, the total number of baseball innings it carried and the number of London innings. These figures show that not only has The Advertiser green been on the street every night for the last four months several minutes ahead of the pink, but that it has consistently carried more news.

The Advertiser's First Extra has beaten the Free Press pink an average of 10 1/2 minutes, and has given one more race, 7 1/2 more innings, and an extra London inning.

The Advertiser's Sporting Green has beaten the Free Press final edition by an average of 8 1/4 minutes, and has given one more race and four more innings.

First Extra

Time on Street.	Race Results.	Total Innings.	London Innings.

News From City Churches

RECEPTION FOR NEW OFFICERS. Miss Phyllis Kennedy, the retiring president of the City Union of Baptist Young People, assisted by other members of the executive, who are this year giving up their offices, will be the hosts of a reception for the incoming officers, following the annual rally Monday evening in the Talbot Street Baptist Church. With Miss Kennedy, who has held the post of the president of the union for the past two years, have been associated Mr. M. J. Melitzer, missionary superintendent; Miss Gladys Marsh, as secretary, and Miss Lily Baskette as treasurer. All will resign from office on Monday night.

The reception will be held in one of the Talbot Street classrooms, and has been planned by Miss Kennedy as a means of ushering the new officers to their posts with the good wishes of the retiring executive.

PLANS FOR WINTER. The officers of the junior congregation of St. Andrew's Church were guests at dinner last evening of their superintendent, Mr. D. Ferguson and Mrs. Ferguson, Dufferin avenue, in an informal manner, the work for the coming year was outlined, and helpful discussion. Ten persons were present, including Rev. Dr. D. C. MacGregor and Rev. F. W. K. Harter, who religious education at St. Andrew's Church is transacted.

ILBERTON V. M. S. The annual thank offering meeting of the Ilberton Presbyterian Church was held in the church last Wednesday. Mrs. Wesley Needham was in the chair, and after the regular business of the auxiliary was transacted, Mrs. McKillop of Hyde Park gave a splendid address on "The Needs of the Lord," and made an appeal to the women of the church to voluntarily give of their time and money. A much appreciated solo was given by Mrs. Peewee, accompanied by Mrs. Fenwick. Refreshments were served by the ladies at the conclusion.

PREPARATIONS FOR CONVENTION. The local council of Anglican Young People's Association are preparing for a municipal league. By

FATHER GIVES BLOOD TO SAVE BABY'S LIFE

Quick Action by Transfusion Prevents Infant Child From Dying.

Readiness of a father to give blood to save the life of his infant son undoubtedly saved the little child of Mr. and Mrs. C. F. Stevens from death yesterday.

Early yesterday morning a practical nurse working with the Stevens family discovered that the 3-week-old infant of Mr. and Mrs. Stevens was unconscious. His skin had turned blue, and the nurse, becoming alarmed, notified the parents. They immediately secured medical assistance.

The family doctor, after seeing the child, held a consultation with other medical men, and the belief was expressed that the baby was suffering from a cerebral hemorrhage. Only a transfusion of blood would save the infant's life, and Mr. Stevens readily offered as much of his own as was necessary. Ten cecies were transfused from father to child Friday afternoon, and the baby is now said to be progressing favorably.

"There is a good chance for its recovery," one of the doctors attending the infant stated.

FERDINANDA'S FATE STILL UNSETTLED

Unfortunate Youth Is Again Remanded For Another Week.

The fate of Carmine Ferdinando, the young Italian from Detroit, Mich., has still to be settled. Three weeks ago he was brought to the police station by constables after having been dancing exhibition on the Wharfedale road. At that time he could not offer any explanation as to his presence in Canada, nor could he tell puzzled police officers what his name was.

It was learned, however, that he came from Detroit and it is likely that he will be remanded for another week by Magistrate Graydon this morning.

NEW YORK COMPANY BUYS ST. MARY'S MILL

Canadian Charter Will Be Obtained As Soon As Possible.

Special to The Advertiser. St. Marys, Oct. 12.—The St. Marys Flour Mills, formerly managed by the St. Marys Milling Company, Limited, has been purchased by the Harrison Flour Mills, Incorporated, of New York. William S. Harrison, president of the American company, is in St. Marys, where he will remain for a few months rearranging the affairs of the local factory.

The report of the municipal survey of the citizens' Research Institute of Canada, is a masterly summary of the results of a thorough study of the several departments concerned. The report is a condensed statement of facts together with well considered recommendations. Anyone who would take the trouble to read it carefully cannot help but be impressed with its comprehensive character, its fairness of statement, and the reasonableness of its conclusions. Dr. Horace L. Britain and his assistants have rendered the city administration, the city officials and the citizens generally a great service. In my opinion the report should be published and placed in the hands of every citizen who desires to read it. Its recommendations, if carried into effect in the spirit in which they were made, will prove that the money invested in this report will pay the city splendid dividends for many years to come.

POLICE FAIL TO LOCATE SUSPECTED MURDERER

Canadian Press Despatch. Montreal, Oct. 13.—Montreal detectives, notified here yesterday that a man suspected of the murder of a girl in a West 97th street house in New York Thursday night, might be on a train bound for Quebec and due to arrive last evening, went to meet and believe he alighted at some intermediate point.

Portions of Richmond street north now faintly resemble scenes of the Arabian Nights. In addition to the red danger signal lanterns there are oil flares all along the street, and with a little stretch of the imagination, these might be construed into Oriental brazier.

Last night, about eleven, the efficiency experts might have seized a splendid opportunity to place their finger on a municipal leakage. By

BUSINESSMEN FAVOR BRITAIN REPORT

CONTINUED FROM PAGE 1.

that the value of his services depended on the spirit in which the report was received by the council.

"The initial cost of Dr. Britain's investigations may be ridiculously cheap in proportion to the benefit the city may derive," Mr. Silverwood stated. "The report has not been published in full in the newspapers, so it is futile to comment on any particular feature. From what I can glean, however, I would say that the \$5,500 was money well spent."

"Of course, if the aldermen make a political football of it the value will be largely wasted. It seems a shame that the city should shoulder the expense of an investigation only to lose all benefit through the action of persons who are supposed to have been elected to office to look after the people's interests."

Sentiments voiced by Mayor T. J. Murphy, senior member of Murphy, Gunn & Murphy, local solicitors, were along similar lines.

"I am satisfied Dr. Britain's work has been up to expectations," he said. "If his advice is followed London should consider itself fortunate; if it isn't, the city will just be \$5,500 out."

E. S. Little of Robinson-Little Company felt favorable toward the report, but as he had had no opportunity to digest it he could not say definitely where or how it would benefit the city. James Gray, president of the chamber of commerce, declared he had nothing to say when asked to outline his views.

CHILDREN AT HOSPITAL DO KINDERGARTEN WORK

Teachers Devote Two Afternoons Each Week For Special Instructions.

Children at the War Memorial Hospital are now doing kindergarten work, following the action of the board of education, which at its last meeting authorized the teachers of the classes in the schools to devote two afternoons a week to teaching the children confined to the institution.

Miss Ethel Teasdale, who has charge of the work, assisted by eight other kindergarten teachers, stated this morning that the children had been forward to the afternoons when the teachers paid their visits, and that the teachers themselves enjoyed it as much as the others. The work is composed of the orthopedic cases at the hospital, many of these spending many months in the institution, and though many of the teachers are out of bed and must remain lying on their backs, nevertheless they take a great interest in the work, and are very successful in performing their little tasks. The work done is the same as in other classes in the city wherever possible.

Assisting Miss Teasdale in this work are Misses Gertrude Bapty, A. Grant, Nellie Windsor, Marjorie Rowntree, Mabel Gregory, Laura Cook, Flora Carson and E. Scott.

PRINCE TO BOARD STEAMER TONIGHT FOR HOME TRIP

Leaves Montreal by Special Train at Early Hour This Morning.

PLEASED PUPILS

Canadian Press Despatch. Montreal, Oct. 13.—With very little ceremony and a scarcely noticeable motion, the special train bearing Lord Renfrew to Quebec, pulled away from the Windsor station this morning at 7:45 o'clock the last event in the most interesting visit of the heir to the British throne. While there were a number of friends and admirers at the station, anxious to get a peep at him before he left, the prince, retired late after a very busy day and was asleep when the train started to move. He arrived at Quebec around one o'clock and after a special luncheon at the Garrison Club and the Chateau Frontenac, boards of the Empress of France, which sails today.

The kiddies of the little roadside school near St. Herma, in the county of two mountains were made jocular by Lord Renfrew yesterday. Returning from the chase he stopped on the way, entered the school and a half holiday was declared. His lordship, enjoyed yesterday's chase immensely, and he said the country was as good as any he had ever covered. He chattered with the huntman, Will Nicholas and complimented him on the calibre of the pasture. The Montreal Hunt Club appealed to him greatly and he expressed his appreciation of it and the pleasant two days he had with members. Other interesting details in Lord Renfrew's stay here yesterday were a chat with Mayor Massey and a dinner and dance at the home of Mrs. D. Forbes and Angus. The hunt itself was most exciting. They had not long started when Keyward was uncovered and after an exciting chase run down, Miss Lorna MacDougall got the brush and Lord Renfrew the mask.

The dance at the Ritz Carlton, given by the management in his honor last night was a marked success. The grand ballroom was beautifully decorated, the music was excellent and the affair a brilliant one. The orchestra played a number of his favorite dance numbers.

CHILDREN AT HOSPITAL DO KINDERGARTEN WORK

Teachers Devote Two Afternoons Each Week For Special Instructions.

Children at the War Memorial Hospital are now doing kindergarten work, following the action of the board of education, which at its last meeting authorized the teachers of the classes in the schools to devote two afternoons a week to teaching the children confined to the institution.

ALL NATIONS MARCHING TO ARMAGEDDON

but—"millions now living will never die"

RAMSAY MACDONALD, MEMBER OF PARLIAMENT, says: "There is no settlement in Europe. There is no peace in things. Governments can do nothing. They are afraid to do anything, and they stand by and allow things to go from bad to worse. 1923 is worse than 1914."

SENATOR BORAH: "War is imminent upon the continent of Europe."

SECRETARY OF WAR WEEKES, in The Nation's Business: "The United States is preparing for war that would tax us to the utmost in man-power resources."

BRIGADIER GEORGE LASSITER: "The units now being definitely established will provide a force of about 5,000,000 men."

LOYD GEORGE: "A new chapter opens in the history of Europe and the world, with a climax of horror such as mankind has never yet witnessed."

FREDERIC J. LIBBY: "Airplanes, poison gas and hatred mixed together are spelling the doom of civilization. America is preparing for war on a scale so colossal that it has no parallel in the history of the world. Our civilization will perish unless we strive for international peace."

DR. BERNARD J. BELL: "Before the war, people often supposed that ours was a Christian culture. The war has led us to ourselves. Civilization is pagan."

H. G. WELLS: "We have come to the crossroads and no one knows the way out."

DR. H. L. BRAILSFORD: "The future is very dark. We have reached the twilight of civilization."

SIR PHILIP GIBBS: "No man, unless he is drunk with optimism, can deny that the world is very sick, and it may be a sickness unto death."

VISCOUNT GREY: "I think it is certain that if there be another such war again civilization will never recover from it."

JESUS foretold the gathering of all nations of the world to Armageddon, the great battle of the Lord God (Rev. 16:13-16). He furthermore said: "I then shall be great tribulation, such as was not since the beginning of the world to this time; no, nor ever shall be; and except those days should be shortened, there should no flesh be saved. But for the elect's sake those days shall be shortened." Millions of people will be brought through the trouble and live. WILL YOU BE ONE OF THEM?

AND THE CHURCHES ARE SILENT!

As I live saith the Lord God surely because my flock became a prey, and my flock became meat for every beast of the field, because there was no shepherd. Behold I am against the shepherds, and I will require my flock at their hand. (Ezek. 34:8-10.)

Presents Real Talking Film

Associated Press Despatch. Copenhagen, Oct. 13.—A talking film on which the Danish engineers Poulsen and Petersen have been working for several years, was publicly exhibited here yesterday, proving that the inventors have been able to produce speech and pictures simultaneously. The voice was pleasantly free from metallic sounds. Two films, one providing the pictures and the other the words, were connected electrically.

THINK FORD HAS COVETOUS EYE ON WHITE HOUSE

Washington Foresees the Announcement of Entering Race For President.

ATTACKS SECRETARY

Washington, Oct. 13.—Washington thinks that Henry Ford has definitely thrown his hat into the ring, and will be a presidential candidate. Yesterday the papers printed a statement from the Detroit manufacturer, in which he attacked Secretary of War Weeks for selling the Georgian plant in the Muscle Shoals development. The statement said that this was a precedent for making cheap fertilizer for the farmers. He linked Mr. Weeks with "international financiers" and "corruption lawyers."

In many quarters this is regarded as an attack on the Coolidge administration. Later it was announced that Mr. Ford was providing his name to go on the Nebraska's preliminary ballot as a candidate of the Progressive party.

Secretary Weeks replied to the Ford statement yesterday by issuing another, in which he said he had the crown attorney-general he would give assurances that it would be devoted to the manufacture of nitrates.

WILL MOVE THAT CITY REFUSE NEW FRANCHISE

Ald. Leonard Douglass, chairman of the board of works, stated today that at Monday's session of the council he will move that the city solicitor be directed to notify the Street Railway Company that the city is not going to renew its franchise in 1925. The chairman insists that even should the people reject the street railway purchase in December, the notification will not prejudice the situation.

TOO LATE TO CLASSIFY

DIED. COLLINS—At 85 William street, on Friday, Oct. 12, 1923, Walter, dearly beloved husband of Clara Collins, aged 80 years. Funeral notice later.

MASQUERADE DANCE TO BE HELD

at the Foresters' Hall, cor. Richmond and King Sts., under auspices of the Foresters' Association, Oct. 26, Friday, at 8 o'clock. Good music and prizes.

IN ATONIC DYSPEPSIA

Vin St-Michel

(ST. MICHAEL'S WINE)

is employed to promote the flow of gastric juice. In gastric catarrh, it relieves that morbid state of the mucous membrane on which the increased production of mucus depends. It is known as being the best stomachic tonic.
