It is not known, however, whether this deposit of gold is the fore-runner of others in fulfilment of an agree ment between the bankers and treasury officials. It is believed in some circles that the deposit was made in the ordinary course of business for currency to be shipped to Western corporations. By yesterday's transactions the gold reserve was slightly increased, standing at the close of business at \$42,860,020.

## STRIKERS' DEMONSTRATION.

BROOKLYN, N.Y., Feb. 4.-Although the WASHINGTON, Feb. 4.—The report from authorities had refused to give a permit for demonstration planned by the strikers to overawe the civic authorities by force of numbers was, however, a failure. Mayor Scheren at the eleventh hour decided that scheren at the eleventh hour decided that his proclamation of two weeks ago ordering the citizen to refrain from congregating on the streets of the city is still in force, and under directions from him the police cleared the square of the crowd which had assembled in response to the order of Chief Connolly and others of the executive committee of the strikers.

The men are highly indignant at the action of the authorities in refusing them the privilege to assemble for the purpose of petition and prayer for relief from unjust usage. While they were rebuffed by the police in front of the city hall their leader entered alone by a rear door, and was permitted to carry his bundle of petitions to the council chamber, where the board of aldermen, after a brief discussion, passed by a vote of 10 to 8 the resolution prayed for, and revoked the grants to the Brook-lyn City and Atlantic Avenue Trolley companies. The action of the board even if it escapes the mayor's veto, which is not likely, is not expected to have a serious effect on the comanies. The power of the board of aldermen summarily revoke rights granted to common carriers is questioned, and the aldermen themselves are somewhat hazy as to how they can hope to enforce their action. Should the proceedings before the Attorney-General in Albany result in the forfeiture of the companies' charters, the action of the common council to-day would become operative, but otherwise it will have little effect. Aside from the gathering at the city hall, there was no change in the strike situation. Two or three assaults upon motormen and conductors were reported and several collisions between trolley cars and strikers occurred. One motorman was sent to the hospital with a scalp wound inflicted by the strikers and the police furnished the surgeons with two cases for scalp

about to commence action against the city of Brooklyn and Mayor Schieren for damages. This afternoon a car of the cross town line was held in Williamsburg by a crowd of 300 strikers, the motorman and conductor being carried away by the mob. The police were unable to cope with the crowd until the reserves arrived, when the

crowd dispersed. STONEWALL, Feb. 1 .- A fire started this morning in the Villa hotel. The proprietor and other inmates had only time to save themselves. Two dwellings and a lawyer's office in the same blook were also burned. The estimated loss is about \$8,000; small insurance. The Hawaiian Consul in this city has received no news regarding the resolution adopted by the United States house of representa-tives asking President Cieveland to submit to Congress any correspondence in the pos-session of the state department regarding reports that British subjects incited the Hawaiians to rebellion and supplied them with arms, and that the British Minister intervened to prevent the application of martial law to British subjects engaged in

the rebellion. WASHINGTON, Feb. 3 —The latest development in Hawaii was agreeable news to Minister Thurston. He said the latest in-formation he had had regarding the ex-Queen was that she had gone out to the residence of Sam Nowlein, on Pearl river, about fifteen miles from Honolulu.

"Now that the Queen has been arrested for conspiracy in the rebellion, will she be banished?" asked the reporter. "That is a matter I do not care to dis-

The minister expects fresh advices on the arrival of the Australia, due at San Fran-

Mr. Haggart made a statement of the policy of the government. It was not one of total protection, but of incidental protection. In most instances the tariff had been so adjusted as to afford the necessary revenue and build up manufactures. The result eventually has been production within the country by means of home competition. If Canada adopted free trade, he said, we should at once destroy \$100,000,000 worth of capital or tie it up. He ventured to say that the Liberals cannot carry out such a policy any more than they could give the country commercial union or unrestrictthe country con
