Local. News

(From Tuesday's Daily.) Agreeably Unique—As will be seen by referring to the weather report for the past month, less rain fell during April, 1905, than has been the case for nearly thirty years. In April, 1877, the rainfall was 0.14 inch and the average for thirty-one years is 1.59 inches, whereas last month the total was 0.21 inches.

The weather report for the made to apprehend the offender. Mr. Green has made an enviable record for himself as a dog-catcher. He assumed his dustant the second of the control o

Sneak Thieves Unrewarded.—Some tim after 10 o'clock Saturday night sneak thieves entered the premises of Smith & Champion, furniture manufacturers, Douglas street, and went through the till. There being nothing therein save a few postage stamps, which were not molested, the intruders withdrew, no richer than when they took big chances and became burglars. Entrance was gained by forcing a back window.

New Island Municipality.—Application is being made to the Lieut.-Governor authority to incorporate the new municipality of Shawnigan, including portions of Cowlichan, Shawnigan and Quamichan districts, in respect to the organization of which there is much conflict of cowlichan, Shawnigan and Quamichan districts of the new municipality are described thus: "That portion of the districts of Cowledan, Shawnigan and Quamichan bounded as follows: Complete the Lieut.-Governor-in the Lieut.-Governor-in the Lieut.-Governor-in the simuch impressed.

Doctor Was Safe—Dr. Anderson reached the quarantine station safely early yesterday morning. He had not been within the interested territory. The boundaries of the new municipality are described thus: "That portion of the districts of Cowledan, Shawnigan and Quamichan bounded as follows: Complete the Lieut.-Governor-in the lieu much impressed.

Delicious Innocence.—There is an element of delicious innocence in this editorial paragraph from the Vancouver World: "Three men were arrested in New York yesterday for cutting up in New York yesterday for cutting up-rather roughly. They gave what un-doubtedly will prove fictitious names, for one asserted that he was William Gallagher, M. P., from Ottawa. Whom-ever he may have been, he probably intended this for a smart trick on 'Big Bill' Galliher, one of British Columbia's representatives at Ottawa."

Fires of the Month.—The total fire loss in Victoria during the month just ended is given by Chief Watson as just ten dollars short of one hundred. There were during April eight alarms—two of them false, and one, on the first, for a fire outside the corporation limits. A roof fire at the boffer to the fire at the fire at the boffer to the fire at the fi two of them false, and one, on the first, for a fire outside the corporation limits. A roof fire at the boiler house of the Taylor mill on the \$th, is charged with \$5 loss; that is also put down as the damage at Rev. J. F. Vichert's on the 13th; \$10 is stated to cover the loss at Ald. Dr. Hall's on the 12th; and \$70 is the damage bill in consequence of the loss are force of men at work on the park property at the Gorge are making a good showing in cleaning up the property, and it will be in good shape for visitors on May 24, though the formal opening will probably be deferred until Dominion Day, when it is hoped to have the Lieux.

> (From Wednesday's Daily.) Bank Clearings—The total bank clearings locally for the week ending yesterday amounted to \$811,113.

Free Miners' Licences-Holders of free miners' licences are reminded that all licences expire on the 31st inst., and in order to retain their mining interests licences should be renewed on or before that date.

served at Langford Plains and the afternoon was spent at Goldstream, games and different sports being indulged in. The evening train was taken back to the city.

Released the Dogs.—Some time during the dark hours of Sunday night some person or persons, on mischiefbent, went to the city pound premises on Chambers street and broke down the barricade behind which a large of the street and broke down the barricade behind which a large of the street and broke down the barricade behind which a large of the street and broke down the barricade behind which a large of the street and broke down the barricade behind which a large of the street and broke down the barricade behind which a large of the street and broke down the street and the street city carpenter force to remedy this griev

Assessor's Staff Busy—W. W. Northcett, city assessor and his assistant, Mr. Scowcroft, were busy as nailers yesterday preparing for the mail no fewer than 33,000 assessment notices, giving the rate for the present year. Much work is entailed in the operation of mailing all these notices, and the process of enveloping and stamping the large list is done in the most approved fashion—utilizing an ingenious stamping pad of Mr. Northcott's own invention.

The Pendray Proposal—Much interest has been aroused locally respecting the application of Messrs. Pendray & Co. for the lease of a portion of the Indian reserve on which to establish their paint and soap works, and some speculation is being indulged in as to the ability of the Dominion government to grant a lease. A number of people are of the opinion that an initial step in the direction of getting the concession would be to secure the consent of the Indians themselves and then make application to the federal authorities. Having secured the endorsation of the board of trade and the city council, it is felt that Messrs. Pendray & Co. have made some speculation is being indulged in as to the ability of the Dominion government to grant a lease. Carnegie Library—Building Inspector Northcott will at once call for tenders for the construction of a brick boundary and retaining wall surrounding the northerly and easterly boundaries of the Carnegie library building. It is estimated that the cost of the work will be in the neighborhood of \$700. Though the building is now in a completed state, as far as the contractor, George Snider, is concerned, it has not yet been taken over by the corporation and a considerable time will elapse before any move is made in the direction of providing interior equipment and the necessary books. The exterior cleaning-up process will in itself occupy a few weeks, as much debris is to be removed from adjacent lots. An effort will be made to have the building fully equipped and open to the public by the latter part of October.

(From Thursday's Daily.) Back From Toronto—After an absence of five years spent in the science faculty of Toronto University, where he has completed a course in mining engineering, P. C. Coates, an old Victoria boy, has returned to the city. He intends to practice his profession in this province with the mining possibilities of which with the mining possibilities of which he is much impressed.

Police Court.—In the Police court yesterday F. McIlmoyl was fined \$15 for assaulting F. Foxgord; John Hatha-way, alias Baxter, was fined \$12.50 for assaulting a woman, his paramour; Henri Daschez was charged with being a frequenter of a house of ill-fame. He did not appear and his bail of \$50 was estreated. He appeared shortly after his case was dealt with; it was not reopened.

or the crowds expected there during the summer months as a result of the holding of the great Lewis and Clark exposition. He will make short stops at all the resorts as far south as San Diego, returning by another route. According to present arrangements he will be away three weeks or thereabouts.

Beacon Hill Park—The energetic park committee of the city council has done excellent work this season in cleaning up the pretty Beacon Hill resort, much of the old underbrush having been removed and burned, the green swards mown, the flower beds put in fine shape and the walks and driveways cleared. As a consequence the park now looks very pretty and inviting. A noticeable improvement is the construction of improvement is the construction of a large strongly-barred cage for the wild cat, which is one of the chief attractionat the menagerie. A new drive has been constructed from the end of Michigan to the stone bridge at Goodacre lake.

Add. Dr. Half's on the 12th; and \$70 is the damage bill in consequence of the burning of a cow shed on Beacon street Friday.

Marched to Goldstream.—On Sunday morning about fifty members of No. 1 company, Fifth Regiment, took part in the route march to Goldstream, the start being made from the Drill hall early in the forencon. An advance party of about twelve had left about an hour before the main body, and when the latter, accompanied by the party of about twelve had left about an hour before the main body, and when the latter, accompanied by the buffe, they were attacked and forced to retire for a short distance. Some skirmlishing was indulged in until the skirmlishing are of the attacking party were surprised and continued to the selection of the result of her search as the first occasion anumber of the attacking party were surprised and continued to the selection of the company intend to the selection of the company, is of the opinion appears to be general that the Victoria Day celebration committee should lose no time in reversing its decision to have the regat-to an the harbor instead of at the Gorge A. Mr. Jeeves Explans—Explanatory of the corporation to provide a septic tank sew-erage system for the Spring Ridge district, George Jeeves stated to a Colonist reporter yesterday that he and other property owners had thought it most undesirable that a septic tank should be constructed in such close proximity to one of the public schools of the city, and the city, and the city and the city.

Ar. E. Mohun, or the provincial sanitary engineer, work to the prov

Re Trap Rights-Messrs, Langley & Martin have received instructions from the department of justice at Ottawa to represent the federal government on the trap site, which is to come before the Supreme court of the province. The case arises in connection with the attempt of B. J. Short of Vancouver to erect traps at Clover Point, off the Dallas road. Mr. Short has a Dominion licence, but was refused foreshore rights by the province on the ground that the site applied for was outside the territory decided upon as open for that purpose. The sites for the purpose of trap fishing was put up to competition some time and disposed of. In order to settle the question of right it has been decided to bring a stated case before a judge of the Supreme court. Attorney General Wilson is understood to contend that the rights of the province contend that the rights of the province are not confined to the foreshore above low water mark alone, but that the pro-vince has rights beyond that along the

The Tram Park—While no definite steps have as yet been taken by the tramway company to convert the twenty acres which it has acquired above the Gorge bridge into a park, Mr. Goward, the local manager, explains that when some preliminary details have been disposed of the work will be commenced and completed in such a manner as to prove satisfactory, not only to officials of the company, but to all Victorians for whose pleasure the park is to be constructed.

On Advertising Tour—Herbert Cuthbert, secretary of the Tourist Association, has left on the first advertising four of the year. He will visit all the principal points on the coast, paying particular attention to Portland, on account of the crowds expected there during the summer months as a result of the holding of the great Lewis and Clark exposition.

The First Steam Shovel For Atlin

Up to Date Appliance for Use by the Northern Mines Limited.

Machine Will Have Capacity of One Thousand Tons Daily.

Making a Good Record—Of all the motor cars in service in and about Victoria none is making a better record than the Oldsmobile runshout recently purchased by Mr. Todd. On its trial run on Good Friday it made the journey to Sooke lake and return, over the much maligned mountains, in just about four hours. Yet more recently a still more apropos story is told of its achievements. It is related that Mr. Todd paid a visit to his friend, Mr. Butchart, at Saanich and incidentally took that gentleman to Saanichton station, where he boarded a train for Victoria. The auto was then headed homeward, and when Mr. Butchart on the passenger train pulled in at the depot, he found Mr. Todd and the auto waiting to give him a lift home. The latest addition to the motoring.

CATARRHOZONE*

Doctors Know it Cures Catarrh and Prevents its Return.

Any medical man will tell you the majority of catarrh medicines are worthless; they fail because they can't vical from headed into the question of steam shovels, and, after thoughtful deliberation, the Vulvan Little Glant shovels when fail because they can't vical for the purpose.

In looking into the question of steam shovels, the superintendent of the Northern Mines, the superintendent of the Northern Mines, in the early part of last winter, Mr. Fetherstonehaugh, the superintendent of the Northern Mines, it has early part of last winter, Mr. Fetherstonehaugh, the superintendent of the Northern Mines, it has a derick the very the maximum distance the gravel have a clearance lift of 30 feet, this being the maximum distance the gravel have to be made with each to the sluce boxes. It was found that, in order to get this unusually high clearance lift, a shovel would have been very much in the nature of an experiment, and, upon the arrival from Mexico, later in the winter, of Mr. Bromley, M. I. M. E., who brought in the depot he found Mr. Butch and the depot he

Any medical man will tell you the majority of catarrh medicines are worthless; they fail because they can't reach the source of the disease.

When the nostrils, throat and lungs are inflamed with cold and catarrh, no amount of stomach medicine will bring relief. The treatment must be more direct.

Catarrhozone is breathed over every vestige of inflamed membrane. Wherever the secretions of catarrh are found, there Catarrhozone goes. No wonder it cures so quickly.

It is worth while here pointing out the great importance to the Atlin camp which will be meant by the satisfactory outcome of this new venture. Should it prove a success—and there is every reason to believe it will do so—there is no doubt that many machines of similar type will be installed.

From Coast Cruise

Bring News That Carmencita Is Sealing Not on Way to Mexico.

Lands Mate and Two Men at Clayoquot-News of Various Schooners.

Several sealing schooners which followed the Eva Marie to port yesterday from the coast, bring reports from all twelve of the local schooners and from two alien sealers, the Japanese schooner Kinsu Maru and the Mexican schooner Carmencita of Alex. McLain. All have low catches—the average will be less than 200 skins to the schooner. The Allie I. Algar, concerning which misleading reports were given currency by a local paper, arrived with 245 skins; the Jessle (Captain Haan), with 205, and the Victoria with 140. The Libbie with 251 skins, and the Dora Sieward with 106, are following.

The Carmencita is the big schooner which cleared from Victoria under a provisional register (granted on condition that the schooner be taken to a Mexican port to secure the register); she cleared for Acupuico, Mexico, and went sealing. No license was secured for sealing—Mexican vessels do not need them as Mexico is not a party to the modus vivendi regarding pelagio sealing. Captain McLean, however, gave out before leaving that he was not going sealing; he said that, with the changing of owners of his schooner, he would proceed to Acupulco. He went instead to Drake's Bay, California, are not confined to the foreshore above low water mark alone, but that the province has rights beyond that along the shore line.

An Excellent Suggestion—The Colonist is in receipt of an excellent suggestion from a resident of the city who takes a special interest in all efforts made to attract visitors to Victoria. The Canadian-Australian liner Manuka is due in a few days from Antipodean ports via Honolulu, and has a very large number of passengers aboard—possibly 500—mostly of the wealthy tourist class. A stop of two hours or more will be made to Drake's Bay, California, where he secured his outfit, which was shipped from San Francisco, and its shipment gave rise to the absurd report published by the San Francisco Examiner that a big schooner was shipping two Hotchkiss guns to go on a seal-raiding expedition. The truth was the Carmencita was shipping two Hotchkiss guns to go on a seal-raiding expedition. The truth simple to the following the strength of the sectored his outfit, which was shipped from San Francisco, and its shipment gave rise to the absurd report published by the San Francisco Examiner that a big schooner was shipping two Hotchkiss guns to go on a seal-raiding expedition. The truth sust the Carmencita was shipping two Hotchkiss guns to go on a seal-raiding expedition. The truth sust the Carmencita was shipping two Hotchkiss guns to go on a seal-raiding expedition. The truth simple the shipping two Hotchkiss guns to go on a seal-raiding expedition. The truth satisfactory as the shipping two Hotchkiss guns to go on a seal-raiding expedition. The truth satisfactory as shipping two Hotchkiss guns to go on a seal-raiding expedition. The truth satisfactory as shipping two Hotchkiss guns to go on a seal-raiding expedition. The truth satisfactory as shipping two Hotchkiss guns to go on a seal-raiding expedition. The truth satisfactory as shipping two Hotchkiss guns to go on a seal-raiding expedition. The truth satisfactory as shipping two Hotchkiss guns to go on a seal-raiding expedition. The truth sh

Bay were some cases of strong waters—hence the trouble. There were several fights on board, and when the schooner reached Clayoquot a few days ago the mate and two men were land-ed by Captain McLean. The schooner sailed northward after landing the sailed northward after landing the three men, evidently toward Behring Sea. As the vessel flies a Mexican flag the fact that the sealing season in Behring Sea does not open for several months need be no deterrent. The Carmencita, like the Japanese schooner Kinsu Maru, is not bounden by the re-strictions which mark the work of the

strictions which mark the work of the Canadian vessels, which needs must use spears where the Mexican and Japanese can use firearms, and which must keep outside a prescribed line which circles the rookeries sixty miles distant, while the aliens may hunt to within the three marine leagues as arranged by the law of nations.

Boat's Crew Fired on

But, if reports are true, the Copper Islands may receive a visit from the Carmencita. Last year the Carmencita went to the Copper Islands with ill-fated results. When the boat's crew was rowing shoreward a Russian guard waited with rifies behind some boulders on the shore, and when the boat was well within range, they greeted it with a heavy fire. The boat, bow toward the shore, lifted on the rollers, with the phut of many rifie bullets sounding about. Some penetrated the gunwale, the clinkered boards were ridded and two men were struck as they swung about to escape. One was shot in the foot, the other had a bullet driven in his jaw, from the effects of which he died at Port Townsend after driven in his jaw, from the effects of which he died at Port Townsend after the return of the schooner to this port. And the raid failed. It is not known

a good car service will be given to the latter point, and what with the attractions at Oak Bay the company will have its hands full in handling the crowds.

A Note From Afar—From far away Wyoming comes a note of appreciation of the beauties of Victoria and the expression of a wish that the forthcoming Victoria Day celebration may be a success. Chief Langley having received the following letter from A. M. Carpenter, of Rawlings: "I see that you are going to have a big time on Victoria Day, so I thought I would send my mite to help it out. You will find enclosed \$2. It wish that you would have the agent of the Tourist Association send me a few views and some of his advertisements. The people are never tired of asking about Victoria. There are a good many going to the Portland fair, and I have advised them to go on to Victoria and see the prettiest place on the coast.

Making a Good Record—Of all the More and showly victoria.

In looking into the question of stam blook of the More as the most salested which the Northern Mines Ltd., have secured as the most as 26-ton Behring Sea; she was seen some days as 26-ton freathern Mines Ltd., have secured as the most as 26-ton freathern Mines Ltd., have secured as the most as 26-ton freathern Mines Ltd., have secured as the most as 26-ton freathern Mines Ltd., have secured as the most as 26-ton freathern Mines Ltd., have secured as the most as 26-ton freathern Mines Ltd., have secured as the most as 26-ton freathern Mines Ltd., have secured as the most as 26-ton freathern Mines Ltd., have secured as the most as 26-ton freathern Mines Ltd., have secured as 26-ton freathern Mines Ltd., have secured as the most as 26-ton freathern Mines Ltd., have secured as 26-ton freathern Mines Ltd., have seened through the Woltan Manufact The Kinsu Maru is headed for the Behring Sea; she was seen some days ago off Cape Cook headed north. The five schooners from this port, which carry full complements of white hunt-

the previous month. Some of the schooners worked as far north as Queen Charlotte Sound, following the herds northward. As far as can be learned, none of the vessels sustained serious damage, none lost any men of their completents. The Eye Marie as their complements. register, has been sold to Norwegians; the four-masted British bark Lady Wentworth has been sold to Germany for £12,750; the British ship Conway, 1,776 tons register, has been sold to Germans for about £9,-500.

MINNESOTA DELAYED. Accident to Machinery Delays Big Hill Liner at Port Townsend.

The big Hill liner Minnesota is delayed The big Hill liner Minnesota is delayed at Port Townsend as a result of the breaking down of the machinery of the vessel. The steamer was proceeding to sea on her way from Seattle to the Orient with a heavy cargo on Tuesday at 5:30 p. m., when the starboard engine was damaged by the breaking of the high pressure piston. It was decided by Captain Rinder to return for repairs, and the vessel reached Port Townsend, whence news of the accident was telegraphed to the Seattle agents. Chief Engineer Lacey yesterday made an examination of the damage and repairs will be effected as quickly as possible.

sible.

The steamer had a tremendous cargo, 28,000 tons measurement, 23,500 tons dead weight. According to a Seattle paper, the ship and cargo represented a total valuation of \$8,500,000.

A special despatch from the Colonist correspondent at Port Townsend last night says: "The breakdown of the engine of the Minnesota was of small moment. The removal of the cylinder head disclosed a slackness in the bull ring of the middle pressure piston cylinder, which would have ultimately worked serious injury. A force of mechanics arrived from Seattle today at noon and have virtually completed repairs. At the request of Lloyd's, the San Francisco board of marine underwriters made a careful survey of the vessel and preponents. writers made a careful survey of the ves sel and pronounced her seaworthy. She will probably sail at daylight."

NOT ACCEPTED.

Hitch Regarding Ports to Be Called at Delays Mexican Steamship Service.

It is reported that Andrew Weir & Co. have not yet accepted the contract with the Canadian government for the establishment of a steamship line between Victoria and Vancouver and Mexican ports. A hitch has arisen with regard to the ports to be called at by the steamships to be placed in service. As was reported some time ago a subsidy of \$50,000 is to be given by the federal government for this service. Andrew Weir & Co. are building three steamers of ten thousand tons capacity on the Ciyde for this service. The master of the steamer Adato, owned by Andrew Weir & Co., was recently recalled to Glasgow from San Francisco to superintend the construction of the steamers. Mr. T. W. Harvey, representing the shipping firm, is still in Mexico representing the trade conditions.

TAKES RAILS NORTH.

Steamer Amur has gone to Liverpool, B. C., to load rails from Pennsylvania for the Klondike Mines railway, which is to be constructed by a company now controlled by British capitalists from Dawson to the Klondike creeks. The steamer will proceed north after loading bunker coal at Ladysmith.

NEW C. P. R. STEAMERS. Mr. Piers Returns to Montreal and Tells of Work on Atlantic Liners.

so sure as Nerviline. Give it internally, and rub it on chest and throat—croup soon vanishes. No doctor can write a more efficient prescription than Polson's Nerviline, which reaches the trouble and cures quickly. The marvelous power of Nerviline will surprise you; it's the best household remedy for coughs, sore chest, croup, and internal pain of every kind. Large bottles have the pain of every kind. been sold by all dealers for nearly fifty

Paris, May 3 .- M. Jusserand.

French ambassador at Washington, has advised the foreign office that James Stillwell of New York, the banker, has given \$100,000 to establish prizes for the chool of Fine Arts here.

146 skins, then the Jessie (Captain Haan) with 205 skins, the Allie I. Alas gar (Captain G. Heater) with 245, and the Victoria with 140. The Dora Sien, werd was in Clayoquot with 106, the Libble in Uclulet with 251. The Umbrina had 225 on April 23. These vessels are the only ones expected to return to Victoria.

No Casualties Reported
All the sealers report that March was a bad sealing months there being few lowering days on account of the bad weather. The weather was better in April, but, with true perversity of things, the seals were fewer than in the previous month. Some of the schooners worked as far north.

Archbishop Langevin, of St. Boniface, in a circular to the clergy of his archiepiscopate, bewails the fact that the educational clauses of the Autonomy Bill do not restore to the Catholics the position they held in the Northwest Territories in 1875, when the Territories ware corrected. Northwest Territories in 1875, when the Territories were organized; and that there will be conserved "the spoilation of our school rights by the ordinance of 1892 and will sanction all ordinances up to 1901." We apprectate the difficulties of a statesman pleasing every one. What His Grace has to say, however, will help to propitiate those who are opposed to the bill as it stands. In that sense it will be a real help to Sir Wilfrid.

only problem has been how to handle the gravel on the most economical basis, and this problem hids fair to be successfully solved by the introduction of the steam shovel. The principal ground on which the Northern Mines, Ltd., will operate was, as pointed out in our last issue, thoroughly prospected last season with very satisfactory results.

The progress of the Northern Mines, Ltd., will, it is needless to say, be watched with great attention by all interested, both in the Northern mining camp and in tracts of auriferous gravels known to exist elsewhere. The management of the company appears to be in good and cappble hands, and its low capitalization and conservative statement of facts and plans contained in its prospectus, appear in strong and favorable contrast to the flambuoyant language too often found in similar publications.

Lord Grey is an optimist as well as an ardent Imperialist. With regard to the future of Canada he has evidently a better opinion of Canada than have Canadatans themselves. He is also a diplomatist. In an address the other day in Toronto he touched upon the burning issue of politics in the most delicate, yet suggestive, fashion. He said: "There are some subjects, however, upon which all men of all parties are agreed, and on which it is permitted for me to express an opinion, without running the risk of raising a single dissentient voice, and one of the strong and favorable contrast to the flambuoyant language too often found in similar publications.

THE TRAGEDY OF TWO LIVES. Sad Ending of Five Years of Happy Wedded Life.

Blackpool, Eng., May 3.—The bodies of Robert Rushton Shaw, an Englishman who formerly lived in Burnley and inherited a small fortune from his father, and his wife. Elizabeth, to whom he was married in Philadelphia about five years ago, were found in a field in the suburbs of this town early today. Both had been shot and there was a revolver beside the bodies. It is believed to be a case of double suicide. It is stated that the couple intended to sail today for the United States on a visit to Mrs. Shaw's mother in Philadelphia. They leave two children.

The tragedy unfolds a pitiful story. After five years of happy married life, it is alleged, Shaw discovered a fortnight ago that his wife was

Involved in an Intrique

Involved in an Intrigue

two years before her marriage. According to the story he taxed her with the
offence and as a result of her admissions
he told her to prepare immediately to sail
for Philadelphia, leaving their children
at Blackpool. They started on Tuesday,
seemingly reconciled; but Shaw's mother
was suspicious and caused neighbors to
follow them. Shots were heard and the
bodies were discovered. Each was shot
through the mouth, the indications being
that it was by mutual agreement, the woman having carefully removed her hat,
and placed it beside her husband's ou
the grass. A double ticket for New
York by the steamer Majestic was found
in Shaw's pocket.

HEINZE LOSES IMPORTANT POINT Refusal to Answer in \$5,000,000 Suit
May Cost Him Dearly.

Helena, Mont., May 3.—Under a decision handed down by the Supreme court today, Judge Bourquin of the district court of Butte, Silver Bow county, may pass upon the motion of the Boston & Montana Consolidated Co. to strike from the files the answer of F. A. Heinze in a suit involving \$5.750,000 for ores alleged to have been illegally extracted by Heinze and his companies from the Pennsylvania mine. Before a notary Heinze refused to answer certain questions propounded by the Boston & Montana counsel, and Judge Bourquin was asked to strike the answer from the files for contempt. Heinze applied to the Supreme court for a writ of prohibition to prevent Judge Bourquin entertaining the motion.

tion. If it is sustained, lawyers say Heinze will be out of court and the plain-tiffs can proceed to seize his property for the vast judgment asked.

AFTER PROVINCIAL TIMBER. American Syndicate Said to Plan Large

Acquisitions.

Vancouver, May 3.—(Special)—An American syndicate plans to acquire the best portion of the crown granted timber comprising the watershed of the Capilano. Some 6000 acres it is said will be transferred. It is planned to build a line of railway to the head of the Capilano and export the logs to the Sound. The railway will be used by all other enterprises in the valley. It is also planned to start an agricultural settlement above the Capilano contributory to the railroad.

A Vancouver rat stopped a street car today. It was not on the rail but in the controller gear. How the rat got in is a mystery. Once in it was electrocuted and its body clogged the machinery.

It is reported that twenty-two claims of hematite iron on Quatsino sound, owned by Heck & Frinck, Victoria, have been sold to Seattle capitalists in connection with a big Bessemer steel proposition for that city. The price is said to have been in the neighborhood of \$75,000.

AMERICAN JERSEY CATTLE CLUB.

New York, May 3.—Many prominent cattle breeders met here today to attend the annual meeting of the American Jersey Cattle Club. President Darling in his report declared that the dairy test made at St. Louis was the greatest demonstration of Jersey cattle ever made, and that the results obtained cannot faji to be of lasting benefit to the Jersey breed and to dairy interests.
