WATER CLAUSES CONSOLIDATION ACT 1907 AND AMENDING ACT

NOTICE is hereby given that two weeks after date application will be made to the Lieutenant-Governor in Council by the Vancouver Island Power Company Limited for a Certificate of Approval of its undertaking in the matter of the construction, operation and maintenance of its power plant, transmission lines, substations and distribution systems.

The works intended to be undertaken in connection therewith are as follows: The construction, operation and maintenance of storage reservoirs and dams diverting dams, flumes and ditches in the drainage area of the Jordan River, and in or on said river or the streams or waters tributary thereto; the construction, operation and maintenance of a regulating reservoir, pipe lines, and power house for the generation of electrical power, all in Malahat and Renfrew districts on Vancouver Island, said power house to be located at or near the mouth of the Jordan River, Renfrew district; the construction, operation and maintenance of transmission systems for electrical current from said power house to the city of Victoria and vicinity.

And all roads, trails, tramways, telephone lines and other public works that may be necessary to effectually carry to completion the aforesaid undertaking.

It is proposed that the waters at present recorded by the company from the Jordan River and its tributaries be utilized in the operation of the above described undertaking and to generate power required to operate the traction electric light and power systems of the British Columbia Electric Railway Company, Limited, in the city of Victoria, the surrounding districts and upon Vancouver Island generally.

And upon such application for the usual and necessary powers to be fully and effectually carry out the said proposed undertaking will be applied for.

Dated at the city of Victoria in the province of British Columbia, this 21st day of September, A.D. 1909.

VANCOUVER ISLAND POWER COMPANY
By its solicitors, McPhillips & Davie, Davie Chambers, Bastion Street, Victoria, B. C.

PROVINCIAL NEWS TOLD IN FEW WORDS

New Westminster workers have opened a new Labor Temple.

The Collins Wireless Telephone Co. is to establish a station at Vancouver.

Non-arrival of the span has stopped construction on the new Lulu Island bridge.

The marriage took place at New Westminster Tuesday of Mr. F. Haines and Miss Mary L. Ritchie.

The Forestry Commission resumes its sessions on the Coast at New Westminster next Monday and Tuesday.

Arrangements are about completed for the leasing of Kifallano Park by the city of Vancouver from the C. P. R.

The big government dredge Frithling is temporarily out of commission on the renewal of fishing interdicting present work at the sandheads.

The ordination of Rev. Robert Dunlop as missionary to Macao, South China, took place at a meeting of the New Westminster Presbytery Monday.

Severe condemnation of race gambling was contained in a resolution adopted at the session just closed of the Presbytery of New Westminster.

H. A. Walton, George Meldrum, Bert Nelson and David T. Raleigh have just completed a tour of the coast from the Okanagan to New Westminster.

Sir Thomas Shaughnessy has promised that he will have an important announcement to make on the grain export question before leaving the Coast.

A thirty-acre site in Burnaby has been secured by the Summer Iron Works of Everett for the establishment of locomotive and general machinery plants.

James Edward Loyie, at one time a missionary to the Northern Indians in this province, has been committed for trial at New Westminster on a charge of theft.

Steelheads are now being taken in the Fraser river, together with a few cohoes, red and white spring salmon, dog salmon and humpbacks, but the sockeyes continue in the vast majority.

The syndicate representing the Northern Pacific and the Great Northern in their Cedar district coal area, has already paid out \$19,000 in proving the property and will make a further large investment this week. It is stated that when the companies are mining their own coal on the site, this will use from 2,000 to 3,000 tons a day which is now brought from Montana.

The property on Pender street, Vancouver, in the middle of the north side of the block of Hastings and Hornby streets and occupied as a garage has been sold by its owner, W. J. Macneil, for \$75,000. A little over five years ago the two lots in question, having a frontage of 52 feet and a depth of 120 feet, sold for \$1200 each.

Work is to be begun shortly upon the erection of a ten-story steel and brick office structure adjoining the Western hotel, on Hastings street, Vancouver. The property was acquired by Wm. Holden, a realty operation, yesterday and consists of two lots combined area covered by the new building will be 50 feet on Hastings street by 120 feet depth. A full carload of rotten grapes from the other side of the line has been scattered throughout Vancouver for consumption. Although the grapes do not seem to be any blame attached immediately to any officials, yet there must have been gross negligence to allow thousands of baskets of decayed grapes to be stolen from a condemned car after it had reached the garbage dump.

The V. V. & E. railway is pushing ahead rapidly and the rail-layers are to reach Princeton by October 1.

The Westminster Trust Co. is to erect a substantial steel and concrete block at Chilliwack.

Contracts have been let for the continuation of the V. V. & E. from Princeton to Granite, twelve miles distant.

A sturgeon over eleven feet in length and weighing over 100 pounds, has been taken in the lower Fraser, entangled in a salmon net.

A serious shortage of unskilled labor is reported from New Westminster. Contractors for street paving and sewerage works are experiencing much difficulty in getting a sufficient force to carry on their work.

Greenwood is already making preparation for a lively provincial election campaign. Among the suggested candidates for the Conservative nomination are James Kerr, J. R. Jackson, T. J. Hardy, and C. J. Leggart, of Vernon. The Liberals will choose their standard-bearer from a list containing the names of John D. Spence, H. Bunt, E. R. Redpath, Alex. McDonald, Greenwood, S. T. Larsen, Rock Creek, and J. R. Ferguson, Midway. George Heatherston can get a nomination on the Labor ticket and is said to be sure of the Union vote if he wishes to run, and Mark Kay is talked of as an Independent.

Kelowna has produced a song-writer in the person of Mr. J. Walker. His "A Woman's No Is Yes" has just been placed on sale. The local paper acknowledges receipt of a copy of the new song with the naive comment, "We have no means of passing upon the merits of the composition, but we think people may buy it and judge it for themselves."

His Honor Judge Spinks and Mrs. Spinks have arrived on the Coast and are at present visiting with Mr. and Mrs. H. G. Ross of Vancouver. His Honor confirms the report that he is now retiring from the bench after twenty years service. Before leaving Vernon he was presented by friends there with a handsome silver coffee and tea service, the presentation being graciously made by Mr. Price Ellison, M. P.

A zinc refinery is shortly to be added to the equipment of the Northport smelter.

Fred Stein, an employee of the Arrow Lakes Lumber Co., was found dead in his bed at the Queen's hotel, Kamloops, last Sunday. Heart disease is held responsible.

Word has been received from L. W. Shattford, M. P. P., that he has got safely through another operation and everything now looks favorable for a permanent cure.

Cannons on the Fraser now declare their inability to take full advantage of the good run of the cohoes in consequence of Chinese indoor labor at the canneries not being available.

The engagement is announced of Miss Letitia, youngest daughter of the late John McAfee, of Bradford, to Mr. Roland S. Garrett, of Cranbrook, the wedding being arranged for the 29th instant.

George A. Waddis, of Vancouver is the new president of the Northwest Association of Photographers, which has just closed its annual convention at Seattle. Next year's assembly will be at Vancouver.

Mayor Hodgson, of Nanaimo, has convened a public meeting for tomorrow evening for the discussion of matters incident to the money bylaws which Nanaimo's ratepayers will shortly pass upon.

One of the largest of recent deals in Vancouver realty was the transfer of the Walsh block, at Pender and Richards street, the consideration being upward of \$21,000. The buyers are Charles Bibbins and Charles Hoffman, both of Oakland, Cal.

Active work is proceeding with the opening of the collieries of the Vermilion Forks Mining and Development Company. As soon as railway facilities are available 400 tons a day will be shipped, which output will be largely increased in the near future.

Cranbrook's first annual fair was held last week under exceptionally favorable conditions. The attendance was large and the exhibits, especially in vegetables and fruits, excellently represented of the district. The stock also was good and the programme of racing, etc., thoroughly well pleasing.

Ella Stanfield, the girl witness so badly wanted in connection with a serious criminal case at Vernon, who fled or was spirited to the American side while the preliminary inquiry was pending, has been apprehended at Vancouver and will be promptly returned to Vernon to give her evidence at the trial.

The eighteenth annual fair at Vernon, this year, proved distinctly disappointing, being marked by very lukewarm public interest. Blame for the regrettable indifference is charged to the curtailment of the sporting features. The stock, field products and fruit exhibits were infinitely better than ever before.

Among recent weddings of well known people throughout the province were those of Mr. Louis L. A. Macdonald, of Moyle, and Miss Annie Merry, of Charlotteville, P. E. I.; Mr. William Henry Baldwin and Miss Adelaide Burrows, both of Cranbrook; and Mr. Sydney Jarvis and Miss Onorah Arphenia Maguire, of Nanaimo.

What might easily have been a serious accident occurred near Bull River recently to a party travelling by motor car from Cranbrook. In climbing a short but steep hill near the creek, the car became engine blocked and the car backed down the grade, eventually toppling over and falling reversed. All the occupants escaped unhurt, more or less seriously hurt, but none fatally.

NANAIMO'S THREE BYLAWS

Money to Be Asked From Citizens for Carrying Forward Public Works.

A public meeting is being held to discuss the bylaws the ratepayers will vote on October 1. The first is to raise \$200,000 for the rebuilding of the Bastion street bridge, the second to borrow \$30,000 for the completion of the South Forks extension, water system and the third to raise \$60,000 to commence the putting in of city sewerage system. In regard to the second and third, the ratepayers are divided. There is some dissatisfaction with the way in which the work has been carried on. As there are three or four opinions as to the need of a sewer system, but there is some feeling that more money should be having and that complete plans should be prepared.

OKANAGAN TRAMWAY PROJECT

Plans Maturing For Improved Facilities With Vernon As Base.

The plans of the Couteau Power Company for the construction of a tram line eastward from Vernon through the rich fruit-growing section are maturing rapidly. Surveyors have been going through the district for some time and statistics have been gathered concerning the possible revenue from light and power in the different localities which will be served. The company has the financial backing of English capitalists and will develop the power of Shuswap river falls, twenty-five miles from Vernon. It is reported that there is sufficient power at this point to electrify the entire Okanagan valley. It is planned to build the tram line from Vernon eastward through the gold stream ranch property to the power plant, a distance of some twenty-five miles, to start with, according to reports. It is understood that work is to be started on the power plant this year and that the tram line will be pushed to completion at an early date.

THE RACE OF THE RAILROADS

Four are Rushing to Secure Control of the Pass and the South Fraser Country.

Four railroads are rushing westward to secure control of the great country south of the Fraser river and north of the international boundary, and as many are seeking to secure a feasible pass through the Hope mountains. This is the information brought by H. N. Bennett, Dominion and provincial land surveyor who has just returned from the survey of the Fraser and North Thompson rivers. The surveyor returned with his party by trail through the Thompsons, Kootenays, and Chilliwack districts. He found the C. N. R. camps twelve miles west of Hope and it was generally believed in that district that the much sought pass has been discovered by that party, but that they

are keeping quiet. The mountains there are a network of survey lines. Engineer Dwyer, in charge of the C. N. R. party was very reticent as to the work of the party but stated that through to New Westminster, and how the mountains have been passed it was understood that the remaining work would be comparatively light. The distance is only eighty-five miles and the country fairly level.

A G. T. P. party was working in the neighborhood, but its whereabouts was not definitely known. A C. P. R. party is located at Coquihalla river, thirty-four miles from Hope, both reported to be seeking for a pass. The Great Northern also have engineers and men in the field, mapping out the land. It is believed in the section where the men are working that the railroad which secures a pass will make every endeavor to prevent the others from entering the Fraser Valley through that route. However that may be, the utmost secrecy is being maintained with regard to the work being done and the lines are so netted that no individual is only a guess as to the one chosen.

BEAR HUNTING A LA MODE

Rossland Prospector Gets Four in a Day, With Plenty of Excitement.

Thrown in.

J. H. McDonald, the well-known Rossland prospector, had a thrilling adventure with bears on a prospecting trip from which he returned a few days ago. While crossing the summit in the Kootenay River district his attention was attracted by the whining of some animal across a small ravine. On looking closely he observed a large brown bear at the foot of a cedar in the act of making her two cubs climb the tree where they would be out of danger. It was evident that the mother bear had scented the presence of man. When the cubs had ascended the mother came towards Mr. McDonald, who, in describing the adventure, said that he let her come within 100 feet of where I stood, took careful aim over the sights of my rifle and killed her. He went on to say that the cubs were where the cubs were, and being eager to capture them alive, proceeded to cut the tree down. I stood my rifle up against another tree 15 feet away and when the tree was cut about half way through I heard a noise behind me, turning round I saw a bear coming rapidly towards me and only a few feet away from where my rifle was against the tree. I had a .44-calibre revolver in my belt, and pulling it quickly I succeeded in hitting the enraged animal between the latter's eyes in six feet of where I stood, groaning so loudly that he could be heard for a considerable distance. During the combat I lost my footing on the steep slope on which I was standing, and slipping over I was determined, however, to secure those cubs, and returned to the scene. The price of fur logs has been stiffening during the past few weeks, according to a statement made today by a lumberman, and it is expected that during the winter logs are now quoted at between \$7 and \$9 per thousand feet, which is an advance of about \$1.

NEW WESTMINSTER THE HUB

Comprehensive Plan of B. C. Electric Railway Co. of Development of Lower Fraser Valley.

Grading the 62 mile new line from Chilliwack to Westminister is to be completed by the end of January, the rails being already laid for the 13 miles to Cloverdale. The plan of the company is to make Westminister the hub of a network of tramways extending throughout the lower Fraser valley. Already branches to Vancouver, Burnaby and Chilliwack are under construction, and other lines through Lulu Island, to Port Moody and up the river to the Fraser River mills, are contemplated.

C. N. R. TERMINALS.

Assigned by Busy Runner to Annacis Island—Or Is It Eleva.

Rumor continues to circulate with unusual persistency that the 800-acre tract on Annacis Island, recently purchased for \$800,000 by the C. N. R., for the purpose of developing the island as a terminal grounds for the Canadian Northern. This has been denied by the railway people but the belief will not die down. Mr. Pader declines to disclose the details of his plan, but says that the C. N. R. has nothing to do with the deal, the property, which lies within four miles of Westminister, has been acquired for elevator purposes.

BONAPARTE RIVER LANDS.

Returned Surveyor Speaks Highly of Country of the North Thompson and the Lillock.

Provincial Land Surveyor H. Neville Smith, who has just returned from a season's work in Bonaparte river country, reports having found very good land in the district, and he believes that the country will develop rapidly. It is about 100 miles from the main line of the C. P. R. but only a few miles from the main line of the Canadian Northern main line. The land is level and only lightly wooded, much of it with poplar. The surveyor describes it as good summer range country, but believes that it will develop into a good fall wheat district, and a fruit raising section. The work of dividing the land is completed and it will be open for pre-emption soon as the plans are prepared at the department of public lands. Already some twenty settlers have gone into the country this year, following the surveyors.

HEAVY MINING SHIPMENTS.

By the Big Producers of the Kootenay, Kootenay and Boundary Camps.

Heavy shipments are being made from the larger mines of the Kootenay, Kootenay and Boundary districts, while many of the smaller properties are being worked on a more extensive scale. The output of the shippers are appearing on the list. The Sheep Creek country is a scene of considerable activity and a large number of claims have been made, while others are pending. A payment of \$10,000 was made to the Kootenay and Boundary districts on a large scale, while the Thompsons and Chilliwack districts have been making shipments. The index made its first shipment during the past week by nearly 3,000 tons. The index made its first shipment during the past week by nearly 3,000 tons. The index made its first shipment during the past week by nearly 3,000 tons.

KILLED BY MADDENED HOGS

Recent Arrival From England Meets Death at Chilliwack Under Horrible Circumstances.

A most unusual tragedy occurred at Chilliwack yesterday in which James R. Hosken, aged 25, lost his life. Hosken, in company with Charles Carter, a well known farmer, was driving pigs to market along the public highway, when the animals became uncontrollable. One of them attacked him, and Hosken lost his footing. Other men, who were with him, tried to help him, but he was struck by the blood-thirsty hogs. Hosken died from shock and loss of blood. He was the son of Mansfield, England, and had been in this country but a short time.
