month.
"Officers of the organizations of en-gineers, firemen, trainmen and switch-men have agreed upon a uniform de-mand of a 10 per cent wage increase, without deviation or compromise."

President Cotter's View

DETROIT, Mich., Dec. 4.—William I Cotter, president of the Pere Marquette and Cincinnati, Hamilton and Dayton railroads; said today that he did not believe there, would be a big. general railroad strike, as intimated in despatches from Chicago. He declared that he had not given any advice to shippers regarding a possible strike. Mr. Cotter said that the demands of the men average about temper cent, but in some instances they reach 25 per cent.

General Strike Possible President Cotter's View

couver. He will make two round trips a week, and he hopes to be thus able to supply a long felt want. Capt. Alex. McLean was one of the pioneers of the sealing business and his exploits have furnished columns for

ploneers of the sealing business and this exploits have furnished columns for many newspapers. He took part in several raids, the last being in the schooner Carmenoita, which went from San Francisco under the Mexican flag, her owners and outfitters being indicted for illegal sealing in consequence. The Carmenoita attempted to raid the Copper island rookeries in 1904 and two men were shot by the Russian guards, one Walter York having died soon after being brought to the marine hospital at Port Townsend. Latterly finding the "piping times of peace" too dull he has enlivened existence by skippering a dynamite barge on the Skeena carrying supplies of the explosive to contractors.

S. Life-Saving Steamer Snohomish Sent Out to Investigate

That the early session of the local house, convened for the 20th January proximo, will not be without its new rallway policy and its lobby, despite the fact that the Canadian Northern and the Kettle River Valley railway legislation have premier places promised on the order paper, is apparent from the appearance in the Gazette already of no fewer than nine notices of special railway bills, seven of which are with respect to new projects.

A bill is also promised for the revival of the Vancouver and Nicola Valley Railway company charter of 1908, and another to extend the time for the commencement of operations on the enterprise of the Greham Leland.

land's appointment to cabinet rank on the formation of the Campbell-Bannerman government in November, 1905 was looked upon by all as a job. He had been Sir Henry Campbell Bannerman's private secretary, and nothing

man's private secretary, and nothing else.

"As secretary for Scotland, he left all the work to the Lord Advocate, and even when Scottish estimates were under discussion seldom intervened in debate. His sole asset for Canada is his wife, who is popular on account of Lord Aberdeen's virtues ten years ago. In fact it has all along been freely stated that Lord Aberdeen's influence has made him what he is, and that Lord Aberdeen refused to accept the lord lieutenancy of Ireland unless his son-in-law, Capt. Sinclair, was given a high office."

KENTUCKY BOUGHT BY SEATTLE COMPANY

Alaska Coast Steamship Co. Buys Twin-Screw Vessel on Atlantic Coast For Alaska Trade.

The deal for the purchase of the steamer Kentucky by the Alaska Coast Steamship company has been completed and the twin screw steamer now laid up at Lyna, Connecticut, will start for Seattle as soon as some repairs are made to go into the service to Prince William Sound. The alterations to be made on the Atlantic coast include changes to the passenger accommodations, which will give the Kentucky berths for 112 first-class and 120 second-class passengers. The first-class

to be removed, the Narrows being widened from 400 feet to 1.200 feet. It is alse probable that still another dredge will be secured.

Mr. Bayfield, engineer of the public works department, who has charge of the equipment of the department in British Columbia, was in the city yesterday, and he confirms the news regarding the proposed additions to be made to the fleet of the department for use in British Columbia waters, chiefly at the more important harbors of Victoria and Vancouver where much work, not yet outlined, is in prospect.

Mr. Bayfield states that the public works department is well posted as to the needs of Victria harbor and says the people of Victoria can rest assured that the interests of the por will be looked after. The equipment has been found insufficient to carry out the required work and plans are under way for additions, which, while they have not yet been authorized or have appropriations been made for them, are in prospect and the necessary appropriations will probably be secured shortly.
